(B) by reason of the previous exercise of such power, no power may again be lawfully exercised under or pursuant to this section to determine whether to punish the person for contempt in respect of the same conduct.

226. Orders of Tribunal may be registered in Court of First Instance

The Court of First Instance may, on notice in writing given by the Tribunal in the manner prescribed by rules made by the Chief Justice under section 233, register an order of the Tribunal in the Court of First Instance and the order shall, on registration, become for all purposes an order of the Court of First Instance made within the jurisdiction of the Court of First Instance.

227. Applications for stay of execution of specified decisions

(1) Subject to subsections (2) and (3), the making of an application for review does not by itself operate as a stay of execution of the specified decision to which the application relates.

(2) A person who has made an application for review or an application pursuant to section 217(4) may, at any time before the review or the application (as the case may be) is determined by the Tribunal, apply to the Tribunal for a stay of execution of the specified decision to which the application relates.

(4) In an appeal under subsection (1), the Court of Appeal may make such order as to costs as it considers appropriate.

230. No stay of execution on appeal

(7) Where the Chief Executive considers appropriate, additional Tribunals may be established for the purposes of any proceedings instituted under section 252 or any disclosure proceedings, whereupon the provisions of this or any other Ordinance shall apply, subject to necessary modifications, to each of such additional Tribunals (including appointment of the chairman and other members of, and all matters concerning, each of such additional Tribunals) as they apply to the Tribunal. *(Amended 9 of 2012 s. 6)*

(8) There may be paid to a member of the Tribunal (other than the chairman if he or she is a judge within the meaning of paragraph (a) of the definition of ***judge*** in section 245(1)) an amount, as a fee for the member's services, that the Financial

(3) Without limiting the generality of section 251(1), the object of the proceedings instituted under this section is for the Tribunal to determine— *(Amended 9 of 2012 s. 20)*

(a) whether any market misconduct has taken place;

(b) the identity of any person who has engaged in the market misconduct; and

(c) the amount of any profit gained or loss avoided as a result of the market misconduct.

(4) Subject to subsections (5) and (6), the Tribunal may identify a person as having engaged in market misconduct pursuant to subsection (3)(b) if—

(a) he has perpetrated any conduct which constitutes the market misconduct;

(6) The Tribunal shall not identify a person as having engaged in market misconduct pursuant to subsection (3)(b) without first giving the person a reasonable opportunity of being heard.

(7) Subject to section 261(3), the standard of proof required to determine any question or issue before the Tribunal shall be the standard of proof applicable to civil proceedings in a court of law.

(8)-(10) *(Repealed 9 of 2012 s. 20)*

(1) The Commission must not institute proceedings under section 252 unless it has obtained the consent of the Secretary for Justice.

(2) The Secretary for Justice may withhold the giving of consent under subsection (1) to proceedings under section 252 in respect of any conduct only if and so long as—

(a) proceedings for an offence under Part XIV are contemplated in respect of the same conduct; or

(b) proceedings for an indictable offence (other than an offence under Part XIV) are contemplated, or have been instituted, in respect of the same conduct and the institution of proceedings under section 252 would be likely to cause serious prejudice to the investigation or prosecution of that offence.

(3) To avoid doubt, the consent of the Secretary for Justice under subsection (1) does not preclude proceedings for any offence (other than an offence under Part XIV) in respect of the same conduct.

(4) Nothing in this section derogates from the powers of the Secretary for Justice in respect of the prosecution of criminal offences.

(Added 9 of 2012 s. 21)

for the purposes of the proceedings, appeal to the Court of Appeal against the finding or determination— *(Amended 9 of 2012 s. 25)*

(2) For the purposes of subsection (1), the Commission, after consultation with the Financial Secretary, may, where it considers it is in the public interest to do so, make rules to prescribe the circumstances in which any conduct that would otherwise constitute an offence under this Part (other than section 300 or 302) shall not be regarded as constituting such an offence.

(3) Notwithstanding anything in this Part, where—

(a) a person is charged with an offence under section 295, 296 or 299 by reason of any conduct; and

(b) the person is charged on the basis that the conduct was carried out not in respect of securities or futures contracts traded on a relevant recognized market or by means of authorized automated trading services, but in respect of securities or futures contracts traded on a relevant overseas market,

the person shall not be convicted of the offence unless the prosecution proves that in any place in which such relevant overseas market is situated the conduct would have constituted a criminal offence had it been carried out there.

307. No further proceedings after Part XIII market misconduct proceedings

(1) Notwithstanding anything in this Part, no criminal proceedings may be instituted against any person under this Part in respect of any conduct if— *(Amended 9 of 2012 s. 26)*

(9) Where the share capital of the listed corporation or the associated corporation of the listed corporation is divided into different classes of shares—

(a) a reference in this section to the number of shares in the listed corporation or associated corporation (as the case may be) in which the person is interested or has a short position shall be construed as a reference to the number of the shares in each of the classes taken separately; and

(b) a reference in this section to a percentage of the number of the issued shares in the listed corporation or associated corporation (as the case may be) shall be construed as a reference to a percentage of the number of the issued shares in each of the classes taken separately.

(10) In subsection (6), ***completion*** (完成), in relation to a rights issue, means the issue of shares in the listed corporation or the associated corporation of the listed corporation pursuant to the rights issue.

(11) Where an event on the occurrence of which a director or chief executive comes under a duty of disclosure under section 341 arises from the grant by the listed corporation, or any associated corporation of the listed corporation, of debentures or rights to subscribe for debentures, or the exercise or assignment of those rights so granted, the notification shall also specify—

(a) the—

(as the case may be);

(13) Subject to subsection (12), nothing in this section shall require details of the price that has been paid or may be payable, or the consideration that has been given or may be given, for or under equity derivatives (where the underlying shares of the equity derivatives are shares which are the subject of the disclosure) to be specified in the notification.

350. Duty to publish and notify Monetary Authority of information given under Division 9

(1) Upon receipt of any information under any provision of this Division or any regulations made, or rules made by the Commission, for the purposes of this Division, the relevant exchange company shall forthwith publish such information in such manner and for such period as may be approved by the Commission.

(2) Whenever a listed corporation that is, or is the holding company of, an authorized financial institution receives information from a director or chief executive under any provision of this Division, the listed corporation is under a duty to notify the Monetary Authority of that information.

(3) If a listed corporation is under a duty to give any notification required by subsection (2), the notification shall be given before the end of the business day after the day on which that duty arises.

(4) If default is made in complying with subsection (2) or (3), the listed corporation concerned and every officer of it who is in default commit an offence and each is liable on conviction to a fine at level 1.

Division 10—Keeping of register of directors' and chief executives' interests and short positions

352. Register of directors' and chief executives' interests and short positions

(1) Every listed corporation shall keep a register of directors' and chief executives' interests and short positions.

(2) Whenever a listed corporation receives information from a director or chief executive given in performance of a duty of disclosure imposed on him by any provision of Divisions 7 to 9, the listed corporation is under a duty to record in the register, against the director's name or the chief executive's name (as the case may be), the information received and the date of the entry.

(3) The listed corporation is also under a duty, whenever it grants to a director or chief executive a right to subscribe for shares in or debentures of the listed corporation, to record in the register against his name—

(a) the date on which the right is granted;

(b) the period during which, or the time at which, the right is exercisable;

(c) the consideration for the grant (or, if there is no consideration, that fact); and

(d) the description of the shares or debentures involved, the number of those shares or amount of those debentures, and the price to be paid for them (or the consideration, if otherwise than in money).

(4) Whenever the right referred to in subsection (3) is exercised by a director or chief executive, the listed corporation is under a duty to record in the register against his name—

(a) that fact (identifying the right);

(b) the number of shares or amount of debentures in respect of which it is exercised; and

(c) if—

(i) they were registered in his name, that fact; or

(ii) they were not registered in his name, the name or names of the person or persons in whose name or names they were registered, together (if they

were registered in the names of 2 persons or more) with the number of the shares or amount of the debentures registered in the name of each of them.

(5) A duty imposed by subsection (2), (3) or (4) shall be performed within 3 business days after the day on which that duty arises.

(6) A listed corporation is not, by virtue of anything done for the purposes of this section, affected with notice of, or put upon enquiry as to, the rights of any person in relation to any shares or debentures or equity derivatives.

(7) The register must be so made up that the entries against the several names recorded in it appear in chronological order.

(8) Unless the register is in such form as to constitute in itself an index, the listed corporation shall keep an index of the names recorded in the register which shall in respect of each name contain a sufficient indication to enable the information recorded against it to be readily found.

(9) The listed corporation shall, within 10 business days after the day on which a name is recorded in the register, make any necessary alteration in the index.

(10) If a listed corporation that is not an open-ended fund company ceases to be a listed corporation, it must, subject to section 283 of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32), continue to keep the register and any index until the end of the period of 6 years beginning with the day next following that on which it ceases to be a listed corporation. *(Amended 28 of 2012 ss. 912 & 920; 16 of 2016 s. 15)*

(11) The register and any index—

(a) shall be kept at the place where the corporation's register of interests in shares and short positions is kept; and

(b) shall, for the purposes of Divisions 7 to 9 and for the purposes of—

(i) enabling members of the public to ascertain—

(A) the identities and the particulars of directors and chief executives (as well as their spouses and minor children) who have or had any interest or short position in shares in, or any interest in debentures of, the listed corporation or any associated corporation of the listed corporation;

(B) the nature and the particulars of the interest or short position; and

(C) the capacity in which a person holds or held the interest or short position; and

(ii) providing the investing public with information to enable them to make informed investment decisions,

be made available for inspection in accordance with section 355. *(Amended 28 of 2012 ss. 912 & 920)*

(12) *(Repealed 28 of 2012 ss. 912 & 920)*

(13) The corporation shall send notice in the form specified by the Commission for the purposes of this section to the Registrar of Companies of—

(a) the place where the register is kept; and

(b) any change in that place,

unless the register has at all times been kept at the corporation's registered office.

(14) The duty imposed by subsection (13) shall be performed within 10 business days after the day on which the register is so kept or the change takes place (as the case may be).

(15) The register shall be produced at the commencement of the corporation's annual general meeting and remain open and accessible during the continuance of the meeting to any person attending the meeting.

(16) If default is made in complying with any provision of this section, the listed corporation concerned and every officer of it who is in default commit an offence and each is liable on conviction to a fine at level 1 and, in the case of a continuing offence, to a further fine of $200 for every day during which the offence continues.

(17) For the purposes of this section, a reference to books and papers in section 283 of the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) shall be construed as including a reference to the register and index required to be kept by a corporation under this section. *(Amended 28 of 2012 ss. 912 & 920)*

353. Removal of entries from register of directors' and chief executives' interests and short positions

(1) A corporation may remove an entry against a person's name from its register of directors' and chief executives' interests and short positions if more than 6 years have expired since the date of the entry being made, and either—

(a) that entry recorded the fact that the person in question had ceased to have an interest notifiable under any provision of this Division or Divisions 7 to 9 in shares in or debentures of the corporation or any associated corporation of the corporation; or

(b) it has been superseded by a later entry made under section 352 against the same person's name,

and, in a case under paragraph (a), the corporation may also remove that person's name from the register.

(2) If a person in pursuance of a duty imposed on him by any provision of this Division or Divisions 7 to 9 gives to a listed corporation the name and address of another person as being interested in shares in or debentures of, or having a short position in shares in, the corporation or any associated corporation of the corporation, the corporation shall, within 10 business days after the day on which it was given that information, notify the other person that he has been so named and shall include in that notification—

(a) particulars of any entry relating to him made, in consequence of its being given that information, by the corporation in its register of directors' and chief executives' interests and short positions; and

(b) a statement informing him of his right to apply to have the entry removed in accordance with the following provisions of this section.

(3) A person who has been notified by a listed corporation under subsection (2) that an entry relating to him has been made in the corporation's register of directors' and chief executives' interests and short positions may apply in writing to the corporation for the removal of that entry from the register; and the corporation shall remove the entry if satisfied that the information in pursuance of which the entry was made was incorrect.

(4) If an application under subsection (3) is refused, the applicant may apply to the Court of First Instance for an order directing the corporation to remove the entry in question from the register; and the Court of First Instance may, if it considers appropriate, make such an order.

(5) Where a name or an entry is removed from a corporation's register of directors' and chief executives' interests and short positions in pursuance of subsection (1) or (3) or an order under subsection (4), the corporation shall within 10 business

days after the date of that removal make any necessary alteration in any index.

(6) If default is made in complying with subsection (2) or (5), the corporation concerned and every officer of it who is in default commit an offence and each is liable on conviction to a fine at level 1 and, in the case of a continuing offence, to a further fine of $200 for every day during which the offence continues.

354. Otherwise, entries not to be removed from register of directors' and chief executives' interests and short positions

(1) Entries in a corporation's register of directors' and chief executives' interests and short positions shall not be removed except in accordance with section 353.

(2) If an entry is removed from a corporation's register of directors' and chief executives' interests and short positions in contravention of subsection (1), the corporation shall restore that entry to the register as soon as reasonably practicable.

(3) If default is made in complying with subsection (1) or (2), the corporation concerned and every officer of it who is in default commit an offence and each is liable on conviction to a fine at level 1 and, in the case of a continuing offence, to a further fine of $200 for every day during which the offence continues.

355. Inspection of register of directors' and chief executives' interests and short positions

(1) Any register of directors' and chief executives' interests and short positions shall, during business hours (subject to such reasonable restrictions as the corporation concerned may in general meeting impose, but so that not less than 2 hours in each day are allowed for inspection), be open to inspection by any member of the corporation without charge or by any

other person on payment of $10, or such less sum as the corporation may determine, for each inspection.

(2) Any member of the corporation or any other person may require a copy of any such register, or any part of it, on payment of $2, or such less sum as the corporation may determine, for each page required to be copied; and the corporation shall cause any copy so required by a member or person to be sent to him within 10 business days after the day on which the requirement is received by the corporation.

(3) If an inspection of the register required under this section is refused or a copy so required is not sent within the period specified in subsection (2), the corporation and every officer of it who is in default commit an offence and each is liable on conviction to a fine at level 1 and, in the case of a continuing offence, to a further fine of $200 for every day during which the offence continues.

(4) In the case of a refusal of an inspection of the register required under this section, the Court of First Instance may by order compel an immediate inspection of it.

(5) In the case of a failure to send within the period specified in subsection (2) a copy required under this section, the Court of First Instance may by order direct that the copy required shall be sent to the person requiring it.

(6) The Commission may by rules amend the sum specified in subsection (1) or (2).

Division 11—Power to investigate listed corporation's ownership

356. Power to investigate ownership of listed corporation

(1) If it appears to the Financial Secretary that there are reasonable grounds to conduct an investigation for the

purposes of determining the true persons who are or have been financially interested in the success or failure (real or apparent) of a listed corporation or able to control or materially influence its policy, he may appoint one or more inspectors to investigate and report for such purposes—

(a) on the ownership of shares in or debentures of the listed corporation;

(b) on persons who have or had an interest or short position in the shares in, or an interest in the debentures of, the listed corporation;

(c) where the shares in the listed corporation are the underlying shares of any equity derivatives, on persons who have or had an interest in those equity derivatives; and

(d) otherwise with respect to the listed corporation.

(2) The Financial Secretary may, on appointing an inspector under this section, define the scope of the investigation (whether with respect to the matter or the period to which it is to extend or otherwise) and, in particular, may limit the investigation to matters connected with particular shares or debentures or equity derivatives.

(3) If application for an investigation under this section with respect to particular shares in or debentures of a listed corporation, or particular equity derivatives the underlying shares of which are shares in a listed corporation, is made to the Financial Secretary by members of the listed corporation, and the number of applicants or the number of shares held by them is not less than the number required for an application for the appointment of inspectors under section 840(2) of the Companies Ordinance (Cap. 622)— *(Amended 28 of 2012 ss. 912 & 920)*

(a) the Financial Secretary may appoint an inspector to conduct the investigation if he is satisfied that there are reasonable grounds for conducting the investigation; and

(b) the Financial Secretary shall not, on appointing an inspector, exclude from the scope of the investigation any matter which the application seeks to have included, except in so far as the Financial Secretary is satisfied that it is unreasonable for that matter to be investigated.

(4) Subject to the terms of his appointment, an inspector's powers extend to the investigation of any circumstances suggesting the existence of an arrangement or understanding which, though not legally binding, is or was observed or likely to be observed in practice and which is relevant to the purposes of the investigation.

(5) Before appointing an inspector upon application under subsection (3), the Financial Secretary—

(a) shall give the applicants an estimate of the amount of the costs and expenses that may be incurred in connection with the investigation; and

(b) may require the applicants to give security in such amount as he may specify, which shall not be greater than the amount of the estimated costs and expenses, for payment of the costs and expenses of the investigation.

(6) Sections 316 to 318 and 322 (with the omission of the reference in section 322 to section 323) apply, in relation to any person who is subject to the requirements of Divisions 2 to 4—

(a) for the purposes of construing—

(i) references in this Division and Division 12 to a person interested in shares and to an interest in shares respectively; and

(ii) references in this Division and Division 12 to a person having a short position in shares and to a short position in shares respectively,

as they apply for the purposes of Divisions 2 to 4; and

(b) for the purposes of this Division and Division 12 as if, in those sections, a reference to an interest in shares includes, where those shares are the underlying shares of any equity derivatives, an interest in those equity derivatives.

(7) Sections 344 and 345 (with the omission of the reference in section 345 to section 346) apply, in relation to any person who is subject to the requirements of Divisions 7 to 9—

(a) for the purposes of construing—

(i) references in this Division and Division 12 to a person interested in shares or debentures and to an interest in shares or debentures respectively; and

(ii) references in this Division and Division 12 to a person having a short position in shares and to a short position in shares respectively,

as they apply for the purposes of Divisions 7 to 9; and

(b) for the purposes of this Division and Division 12 as if, in those sections, a reference to an interest in shares includes, where those shares are the underlying shares of any equity derivatives, an interest in those equity derivatives.

357. Investigation of contraventions of sections 341 to 349

(1) If it appears to the Financial Secretary that there are circumstances suggesting that contraventions of any provision of sections 341 to 349 may have occurred in relation to the shares in or debentures of a listed corporation or, where the

shares in a listed corporation are the underlying shares of any equity derivatives, to those equity derivatives, he may appoint one or more inspectors to carry out such investigations as are requisite to establish whether or not such contraventions have occurred and to report the result of the investigations to him.

(2) The Financial Secretary may, on appointing an inspector under this section, limit the period to which the investigation is to extend or confine it to shares or debentures or equity derivatives of a particular class, or both.

358. Inspector's powers during investigation

(1) If an inspector considers it necessary for the purposes of his investigation to investigate also—

(a) the ownership of shares in or debentures of any other corporation which is or has been an associated corporation of the listed corporation concerned;

(b) persons who have or had an interest or short position in the shares in, or an interest in the debentures of, the other corporation; and

(c) where the shares in the other corporation are the underlying shares of any equity derivatives, persons who have or had an interest in those equity derivatives,

he shall have power to do so, and shall report on the ownership of those shares or debentures and persons who have or had an interest in those shares or debentures or equity derivatives or a short position in those shares, so far as he considers that the results of his investigation with respect to those shares or debentures or equity derivatives are relevant to the investigation of—

(i) the ownership of shares in or debentures of the listed corporation;

(ii) persons who have or had an interest or short position in the shares in, or an interest in the debentures of, the listed corporation; or

(iii) where the shares in the listed corporation are the underlying shares of any equity derivatives, persons who have or had an interest in those equity derivatives.

(2) An inspector may at any time in the course of his investigation, without the necessity of making an interim report, inform the Financial Secretary of matters coming to his knowledge as a result of the investigation tending to show that an offence has been committed.

359. Production of records and evidence to inspectors

(1) When an inspector has been appointed under section 356 or 357, it is the duty of—

(a) all officers and agents of the listed corporation concerned; and

(b) all officers and agents of any other corporation, if—

(i) the ownership of shares in or debentures of the other corporation;

(ii) persons who have or had an interest or short position in the shares in, or an interest in the debentures of, the other corporation; or

(iii) where the shares in the other corporation are the underlying shares of any equity derivatives, persons who have or had an interest in those equity derivatives,

are investigated under section 358,

to—

(i) produce to the inspector all records of or relating to the listed corporation or the other corporation (as the case may be) which are in their possession;

(ii) attend before the inspector when required to do so; and

(iii) otherwise give the inspector all assistance in connection with the investigation which they are reasonably able to give.

(2) If an inspector considers that a person other than an officer or agent of the listed corporation or the other corporation is or may be in possession of information concerning the shares in or debentures of the listed corporation or the other corporation, or the equity derivatives the underlying shares of which are shares in the listed corporation or the other corporation, he may require that person to—

(a) produce to him any records of or relating to the listed corporation or the other corporation (as the case may be) which are in that person's possession;

(b) attend before him; and

(c) otherwise give him all assistance in connection with the investigation which that person is reasonably able to give,

and it shall be the duty of that person to comply with the requirement.

(3) An inspector may—

(a) examine on oath the officers and agents of the listed corporation or the other corporation, and any such person referred to in subsection (2), with respect to the shares in or debentures of the listed corporation or the other corporation, or the equity derivatives the underlying shares of which are shares in the listed corporation or the other corporation; and

(b) administer an oath accordingly.

(4) A person is not excused from answering a question put to him under this section by an inspector only on the ground that the answer might tend to incriminate the person, but if the answer might tend to incriminate him and he so claims before giving the answer, the question and answer shall not be admissible in evidence against him in criminal proceedings in a court of law other than those in which he is charged with an offence under Part V of the Crimes Ordinance (Cap. 200), or for perjury, in respect of the answer.

(5) Where an inspector requires a person to answer a question put to him under this section, the inspector shall ensure that the person has first been informed or reminded (as the case may be) of the limitations imposed by subsection (4) on the admissibility in evidence of the requirement and of the question and answer.

(6) In this section and sections 360 and 361—

(a) a reference to officers or to agents includes a reference to past, as well as present, officers or agents (as the case may be); and

(b) ***agents*** (代理人), in relation to a corporation, includes its bankers and solicitors and persons employed or otherwise engaged by it as auditors, whether those persons are or are not officers of the corporation.

360. Delegation of powers by inspectors

(1) An inspector may, by instrument in writing, delegate to any person the powers conferred by section 359 to require the production of any records and to put questions to officers and agents otherwise than on oath, or either of those powers.

(2) Where 2 or more inspectors are appointed in respect of the same investigation, the power conferred by this section may be exercised by any of them.

361. Obstruction of inspectors

(1) When an inspector is appointed under section 356 or 357, this section applies in relation to—

(a) any officer or agent of the listed corporation concerned;

(b) any officer or agent of any other corporation, if—

(i) the ownership of shares in or debentures of the other corporation;

(ii) persons who have or had an interest or short position in the shares in, or an interest in the debentures of, the other corporation; or

(iii) where the shares in the other corporation are the underlying shares of any equity derivatives, persons who have or had an interest in those equity derivatives,

are investigated under section 358; and

(c) any such person referred to in section 359(2).

(2) If that officer, agent or person (as the case may be) refuses to comply with an inspector's requirement to—

(a) produce to the inspector any records which it is his duty under section 359 to produce;

(b) attend before the inspector; or

(c) answer any question put to him by an inspector with respect to the shares in or debentures of the listed corporation or the other corporation, or the equity derivatives the underlying shares of which are the shares in the listed corporation or the other corporation,

the inspector may, by originating summons or originating motion, make an application to the Court of First Instance in respect of the refusal.

(3) The Court of First Instance may then inquire into the case and—

(a) if the Court is satisfied that there is no reasonable excuse for the officer, agent or person (as the case may be) not to comply with the requirement under subsection (2), order the officer, agent or person (as the case may be) to comply with the requirement within the period specified by the Court; and

(b) if the Court is satisfied that the refusal was without reasonable excuse, punish the officer, agent or person (as the case may be), and any other person knowingly involved in the refusal, in the same manner as if he and, where applicable, that other person had been guilty of contempt of court.

(4) In this section, a reference to an inspector includes a reference to any person to whom the powers of an inspector are delegated under section 360.

362. Inspector's reports

(1) An inspector may, and if so directed by the Financial Secretary shall, make interim reports to the Financial Secretary, and on the conclusion of an investigation shall make a final report to the Financial Secretary.

(2) Any such report shall be made within such time and in such manner as the Financial Secretary may direct.

(3) The Financial Secretary may, if he considers appropriate—

(a) forward a copy of any report made by an inspector to the registered office or principal place of business in Hong Kong of the listed corporation or the other

corporation (as the case may be) which is the subject of the report;

(b) on request and on payment of such fee as is prescribed by regulations for the purposes of this section, furnish a copy of any such report to—

(i) any member of the listed corporation or the other corporation (as the case may be) which is the subject of the report;

(ii) any person whose conduct is referred to in the report;

(iii) the auditors of the listed corporation or the other corporation (as the case may be);

(iv) the applicants for the investigation; or

(v) any other person whose financial interests appear to the Financial Secretary to be affected by the matters dealt with in the report, whether as a creditor of the listed corporation or the other corporation (as the case may be) or otherwise; and

(c) cause any such report to be published.

363. Expenses of investigation of affairs of corporation

(1) The expenses of and incidental to an investigation by an inspector shall be defrayed in the first instance out of the general revenue, but the following persons shall, to the following extent, be liable to repay such expenses to the Government—

(a) any person who is convicted by a court on a prosecution instituted as a result of the investigation shall be liable to such extent (if any) as may be ordered by such court;

(b) the listed corporation or the other corporation (as the case may be) dealt with by the investigation shall be

liable to such extent (if any) as the Financial Secretary may direct;

(c) the director and the chief executive of the listed corporation or the other corporation (as the case may be) dealt with by the investigation shall be liable to such extent (if any) as the Financial Secretary may direct;

(d) any person who has an interest or short position notifiable under any provision of Divisions 2 to 5 in voting shares in the listed corporation or the other corporation (as the case may be) dealt with by the investigation shall be liable to such extent (if any) as the Financial Secretary may direct; and *(Amended 28 of 2012 ss. 912 & 920 and L.N. 162 of 2013)*

(e) the applicants for the investigation, where the inspector was appointed under section 356(3), shall be liable to such extent (if any), subject to the limit of the estimate given under section 356(5), as the Financial Secretary may direct.

(2) An inspector appointed under section 356(3) may, if he considers appropriate, and shall if the Financial Secretary so directs, include in a report made by him a recommendation as to the directions (if any) he considers appropriate, in the light of his investigation, to be given under subsection (1)(b), (c), (d) or (e).

(3) A person to whom a direction is given under subsection (1)(b), (c), (d) or (e) may appeal against the direction to the Court of First Instance.

(4) Notwithstanding rule 3(3) of Order 55 of the Rules of the High Court (Cap. 4 sub. leg. A), a direction under subsection (1)(b), (c), (d) or (e) shall not take effect, if an appeal against the direction is made under subsection (3), until the appeal is withdrawn, abandoned or determined.

(5) Any person liable under paragraph (a), (b), (c), (d) or (e) of subsection (1) shall be entitled to contribution from any other person liable under the same paragraph, according to the amount of their respective liabilities thereunder or, if an appeal is made, according to the amount of their respective liabilities as determined by the Court of First Instance.

(Amended E.R. 2 of 2012)

364. Power to obtain information as to those interested in shares, etc.

(1) If it appears to the Financial Secretary that—

(a) there are reasonable grounds to investigate—

(i) the ownership of shares in or debentures of a listed corporation;

(ii) persons who have or had an interest or short position in the shares in, or an interest in the debentures of, a listed corporation; and

(iii) where the shares in the listed corporation are the underlying shares of any equity derivatives, persons who have or had an interest in those equity derivatives; and

(b) it is unnecessary to appoint an inspector for the purpose,

the Financial Secretary may require any person whom he has reasonable cause to believe to have, or to be able to obtain, any information as to—

(i) the present and past interests in those shares or debentures or equity derivatives;

(ii) the names and addresses of the persons interested and of any persons who act or have acted on their behalf in relation to those shares or debentures or equity derivatives;

(iii) the present and past short positions in those shares; or

1. The rules of a recognized clearing house which provide for the taking of proceedings or other action if a clearing participant appears to be unable, or likely to become unable, to meet his obligations in respect of all unsettled or open market contracts to which he is a party, shall—

(a) enable the settlement, or closing-out by offset, of all of the contracts;

(b) for the purpose of paragraph (a), provide for there to be payable by or to the clearing participant a sum of money in relation to each contract if this is required after taking into account all the rights and liabilities of the clearing participant under or in respect of the contract concerned;

(c) enable all sums of money payable by or to the clearing participant as determined in accordance with paragraph (b) to be aggregated or set-off so as to produce a net sum (if any) payable by or to the clearing participant;

(d) if any net sum referred to in paragraph (c) is payable by the clearing participant, provide for that net sum to be set-off against all property of the clearing participant

which is either subject to a market charge or which has been provided as market collateral (or set-off against the proceeds of the realization of such property) so as to produce a further net sum (if any) payable by or to the clearing participant;

(e) if any net sum referred to in paragraph (c) is payable to the clearing participant, provide that all property of the clearing participant which is either subject to a market charge or which has been provided as market collateral shall cease to be subject to the market charge (but without prejudice to any other form of charge to which it may be subject) or to be market collateral (but without prejudice to its provision as any other form of collateral) (as the case may be); and

(f) provide for the certification by the clearing house of any net sum referred to in paragraph (c) payable to the clearing participant, or of any further net sum referred to in paragraph (d) payable by or to the clearing participant (as the case may be) or, if there is no such sum, the certification by the clearing house of that fact.

3. For the purposes of section 2—

(a) a clearing participant will be regarded as recording market contracts in a separate capacity in respect of its house accounts and each of its client accounts if—

(ii) for each client account—transactions that are required or permitted by the RCH rules to be recorded in any of the clearing participant's client accounts with the clearing house have been so recorded;

(b) any net sum payable to the clearing participant in respect of transactions recorded in a client account, as calculated under section 1(c), must not be set-off against any net sum payable by the clearing participant in respect of transactions recorded in any house account, as calculated under that section, regardless of any provision to the contrary in the RCH rules;

(c) any net sum payable to the clearing participant in respect of transactions recorded in house accounts, as calculated under section 1(c), may be set-off against any net sum payable by the clearing participant in respect of transactions recorded in any client account, as calculated

under that section, if the RCH rules so provide or permit;

(d) any net sum payable to the clearing participant in respect of transactions recorded in a client account, as calculated under section 1(c), may not be set-off against any net sum payable by the clearing participant in respect of transactions recorded in any other client account, as calculated under that section, if the RCH rules so provide.

(Added 6 of 2014 s. 61)

4. To avoid doubt—

(a) a transfer of a defaulting participant's positions under an unsettled market contract and collateral in a client account to one or more other clearing participants of the recognized clearing house in accordance with the RCH rules constitutes settlement of that contract for the purposes of section 1(a); and

(b) without limiting section 1(b), the reference in that section to the rights and liabilities of the clearing participant under or in respect of the contract concerned includes the rights and liabilities that arise as a result of action taken under the RCH rules authorizing or permitting the transfer of the clearing participant's positions under the contract and collateral in a client account to one or more other clearing participants of the recognized clearing house.

(Added 6 of 2014 s. 61)

Preface

General

This preface is intended to give a general explanation of the purpose of the Clearing Rules of OTC Clearing Hong Kong Limited ("**OTC Clear**") in respect of the clearing and settling of certain interest rate derivatives and FX derivatives in the over-the-counter derivatives market. This preface does not form part of the Clearing Rules and does not affect the construction of the Clearing Rules.

OTC Clear has been recognized by the SFC as a recognized clearing house pursuant to the SFO.

OTC Clear may from time to time clear and settle OTC Derivatives Contracts other than interest rate derivatives or FX derivatives. In such case, OTC Clear may decide to amend or expand the Clearing Rules such that they may operate to govern the terms and conditions of clearing such other types of OTC Derivatives Contracts, or to introduce separate rules and documentation to govern the terms and conditions of clearing such other types of OTC Derivatives Contracts.

In its provision of the clearing services and implementation of the Clearing Rules, OTC Clear will comply with its statutory duties under the SFO and will seek to ensure general compliance with the relevant principles set out in the "Principles for financial market infrastructures" issued by the Committee on Payment and Settlement Systems and Technical Committee of the International Organization of Securities Commissions dated April 2012.

Force Majeure Events and Illegality

206. Neither OTC Clear (its Affiliates, a recognized exchange controller which is the controller of OTC Clear, or any of their respective Representatives) nor a Clearing Member will under any circumstances be liable for any failure, hindrance or delay in the performance in whole or in part of its obligations under these Clearing Rules or under any Contract if such failure, hindrance or delay arises as a result of the occurrence of a Force Majeure Event or Illegality. Without limiting the generality of the immediately foregoing, if the Force Majeure Event or Illegality occurs with respect to OTC Clear only, the exclusion of liability provided for OTC Clear (its Affiliates, a recognized exchange controller which is the controller of OTC Clear, or any of their respective Representatives) under this Clearing Rule 206 shall extend to any civil liability, whether arising in contract, tort, defamation, equity or otherwise for any Damage to any Clearing Member or to any other Person.

207. A Clearing Member shall immediately notify OTC Clear if it becomes aware that an event that could be a Force Majeure Event or Illegality has occurred or is likely to occur with respect to it.

208. In respect of the occurrence of events that may give rise to a Force Majeure Event or Illegality with respect to OTC Clear and/or a Clearing Member, such determination will be made by the OTC Clear Board, and to the extent practicable, having consulted with the Risk Management Committee. If OTC Clear is unable to convene a meeting of the OTC Clear Board sufficiently promptly in the circumstances, the relevant determination will be determined by the chief executive of OTC Clear. In the event that the chief executive of OTC Clear is unavailable at the time for any reason, any Representative of OTC Clear designated by the OTC Clear Board from time to time for purposes of the applicable determination may make such determination. If the relevant determination is being made by the chief executive or a Representative of OTC Clear, OTC Clear shall convene a meeting of the OTC Clear Board as soon as practicable thereafter to ratify such determination, rescind such determination (only where such rescission is possible or practicable) or where rescission is desired but not possible or practicable, to amend such determination as appropriate.

Without prejudice to any potential rescission of, or amendment to, a determination made by the chief executive or Representative(s) of OTC Clear pursuant to this Clearing Rule 208, decisions made by the OTC Clear Board, the

chief executive of OTC Clear or a Representative of OTC Clear pursuant to this Clearing Rule 208 shall be final and binding against all Clearing Members for the purposes of these Clearing Rules and not be subject to challenge by any such Clearing Members or any other Person under these Clearing Rules or otherwise.

209. If, pursuant to Clearing Rule 208, it is determined that a Force Majeure Event or Illegality has occurred, either with respect to one or more Clearing Members or OTC Clear itself, OTC Clear shall declare the occurrence of such Force Majeure Event or Illegality and notify all Clearing Members of such occurrence.

210. Upon the declaration of the occurrence of a Force Majeure Event or Illegality, as the case may be, with respect to one or more Clearing Member or OTC Clear itself by OTC Clear pursuant to Clearing Rule 209:

(1) OTC Clear shall be entitled to perform Emergency Close-Out in respect of:

(a) any Contract affected by such Force Majeure Event or Illegality;

(b) the Contract with equal but opposite terms which was created from the same Original Transaction or otherwise that corresponds to the Contract referred to in sub-paragraph (a) above; and

(c) any other Contract associated with the Contracts referred to in sub-paragraphs (a) and (b) above for the purpose of ensuring OTC Clear is risk-neutral overall,

in each case, in accordance with this Clearing Rule 210, and each Clearing Member who is party to such Contract agrees to such Emergency Close-Out as may be selected by OTC Clear. OTC Clear may designate an Early Termination Date in case of an Emergency Close-Out;

(2) OTC Clear shall be entitled to require Clearing Members to comply with any directions issued by OTC Clear regarding the performance of, or otherwise in respect of, such affected Contracts as are specified by OTC Clear;

(3) if the Force Majeure Event or Illegality occurs with respect to a Clearing Member only but not OTC Clear, and such Force Majeure Event or Illegality affects the relevant Clearing Member's ability to perform its payment obligation under a Contract, OTC Clear shall have the right to suspend any payment obligations OTC Clear has towards another Clearing Member under a related Contract whose terms are equal but opposite to the affected Contract, until receipt of the relevant payments from the affected Clearing Member. Any suspension of payment by OTC Clear pursuant to this sub-paragraph (3) shall not constitute failure to pay on the part of OTC Clear;

(4) in the event the Force Majeure Event or Illegality occurs only with respect to one or more Clearing Members but not OTC Clear itself, OTC Clear shall be entitled to commence the Default Management Process (with such adjustments as OTC Clear, in consultation with the Risk

Management Committee, deem appropriate in applying such process in respect of a Force Majeure Event or Illegality);

(5) if a Force Majeure Event occurs with respect to OTC Clear, OTC Clear shall be entitled to suspend the whole or any part of the operations of the Rates and FX Clearing Services. OTC Clear shall notify all Clearing Members as soon as practicable upon a decision to either suspend or resume any operation of the Rates and FX Clearing Services pursuant to this sub-paragraph (5);

(6) if a Force Majeure Event or Illegality has occurred with respect to a Clearing Member, such Clearing Member shall use all reasonable endeavours to mitigate the effects of the same upon its ability to perform its obligations to OTC Clear; and

(7) each Clearing Member affected by the Force Majeure Event or Illegality shall notify OTC Clear immediately as soon as its ability to perform is no longer affected by the Force Majeure Event or Illegality (or, if OTC Clear is the person affected by the Force Majeure Event or Illegality, OTC Clear shall notify all Clearing Members in relation to the cessation of the Force Majeure Event or Illegality).

211. In exercising its powers under Clearing Rule 210, OTC Clear shall act in good faith and have regard to its duties as a recognized clearing house under the SFO. Any decisions made pursuant to, and any exercise of powers under, Clearing Rule 210 shall be final and binding against all Clearing Members for the purposes of these Clearing Rules and not be subject to challenge by any such Clearing Members or any other Person under these Clearing Rules or otherwise.

212. All information provided to or in the possession of OTC Clear regarding past or current positions carried by OTC Clear for a Clearing Member, Margin payments between OTC Clear and a Clearing Member or deliveries made by or to a Clearing Member and any financial statements submitted to OTC Clear by any Clearing Member shall be kept confidential by OTC Clear in accordance with such procedures or policies as OTC Clear may from time to time determine. Notwithstanding the foregoing, OTC Clear may disclose any information described in the immediately preceding sentence, any information received from a Clearing Member and any other information in connection with a Clearing Member at any time:

(1) with the written consent of the Clearing Member involved;

(5) as expressly permitted by the Clearing Documentation, including, without limitation, to one or several Clearing Members, to the extent that such disclosure is necessary for the proper management of an Event of Default and the implementation by OTC Clear and Clearing Members of settlement of any Contract provided that where OTC Clear discloses any information to any Clearing Member in such circumstances, the receiving Clearing Member shall treat such information as confidential information and shall not make the information known or available to any other Person or use the information for any purpose other than that for which it has been disclosed by OTC Clear;

(6) to any insurer, insurance broker or banker in connection with any arrangement in support of the Rates and FX Guarantee Resources;

(7) to any professional advisers, auditors or consultants of OTC Clear;

(8) as required by any Applicable Law;

(9) to any trade repository or Governmental Authority (whether in Hong Kong or elsewhere) with whom OTC Clear or HKEX has entered into an information sharing arrangement or reporting service agreement or pursuant to the Tax Information Exchange Framework, such trade repository or Governmental Authority may use, handle, store, transfer and disclose such information in accordance with the terms of any such information sharing arrangement, reporting service agreement or pursuant to the Tax Information Exchange Framework;

(10) to any service provider or third party contractor whom OTC Clear has engaged to provide data processing or other similar services for OTC Clear, provided that any such persons shall be bound by confidentiality obligation or undertaking;

(11) to any Person if the information comes into the public domain, other than as a result of a breach of this Clearing Rule 212 by OTC Clear or any of its Representatives;

(12) to any Client or Designated Person to which the information relates; or

(13) insofar as a Clearing Member is a Compression Clearing Member in relation to a particular Multilateral Compression Cycle, such information as the relevant Compression Service Provider requires that OTC Clear provide to it for the purposes of preparing the Unwind Proposal relating to that Multilateral Compression Cycle,

provided that, in any such case other than under sub-paragraphs (1), (3), (4), (5), (9) and (11) above, the confidentiality of the information is made known to the recipient (it being understood that, if more than one sub-paragraph of this sentence applies to a particular disclosure and that include any of sub-paragraph (1), (3), (4), (5), (9) or (11) above, then the confidentiality of the information need not be made known to the recipient).

Each Clearing Member agrees that OTC Clear has the power to publish aggregated trade information in respect of Contracts cleared and settled through OTC Clear, whether relating to data on open positions, trade volumes, types of

Contracts cleared and settled by OTC Clear, provided that the identity of Clearing Members or Clients cannot reasonably be determined from the data, statistics or other materials so published.

213. OTC Clear may direct a Clearing Member to provide it with any information requested by a trade repository or Governmental Authority (whether in Hong Kong or elsewhere) with whom OTC Clear or HKEX has entered into an information sharing or reporting service agreement or arrangement or pursuant to the Tax Information Exchange Framework.

214. To the extent that the information to be provided by a Clearing Member to OTC Clear under Clearing Rule 213 or pursuant to any other obligations under the Clearing Rules constitutes personal data as defined in the Personal Data (Privacy) Ordinance, the Clearing Member shall:

(1) ensure that the disclosure of personal data by the Clearing Member or its Representatives to OTC Clear is in all respects and in each case lawful;

(2) ensure that the Clearing Member has obtained (and if requested by OTC Clear, provide) all necessary consents from the data subject prior to the disclosure of such personal data to OTC Clear, such consent to be sufficient to allow disclosure by OTC Clear of such personal data to any trade repository or Governmental Authority (whether in Hong Kong or elsewhere) upon request or as required by Applicable Law or the terms of any information sharing or reporting service agreement or arrangement that OTC Clear or HKEX has entered into or pursuant to the Tax Information Exchange Framework and to allow any subsequent use, handling, storage, transfer and disclosure by any such trade repository or Governmental Authority in accordance with the terms of any such information sharing or reporting service agreement or arrangement or pursuant to such Tax Information Exchange Framework;

(6) where a data subject withdraws, revokes or modifies any consent as described in sub-paragraph (2) above, the Clearing Member shall immediately inform OTC Clear of the same.

For the purpose of this Clearing Rule 214, the terms "**personal data**", "**data subject**" and "**data user**" shall have the meanings given to them under the Personal Data (Privacy) Ordinance.

Governing Law

215. Except as otherwise expressly provided in these Clearing Rules, these Clearing Rules shall be governed by, and construed in accordance with, the laws of Hong Kong.

216. Each Clearing Member irrevocably agrees for the benefit of OTC Clear that the courts of Hong Kong shall have exclusive jurisdiction to hear and determine any action or dispute which may arise out of or in connection with these Clearing Rules. Each Clearing Member irrevocably submits to the exclusive jurisdiction of Hong Kong courts and agree to waive any objection it might otherwise have to such jurisdiction, save that this submission to the exclusive jurisdiction of the courts of Hong Kong shall not (and shall not be construed so as to) limit the right of OTC clear to take proceedings in any other court of competent jurisdiction, nor shall the taking of action in one or more jurisdictions preclude OTC Clear from taking action in any other jurisdiction, whether concurrently or not.

217. Any definitions or documents incorporated by reference by these Clearing Rules and any Contracts shall be governed by and construed in accordance with the laws of Hong Kong.

218. Each Clearing Member irrevocably waives, to the extent permissible by Applicable Laws, with respect to itself and its revenues and assets (irrespective of their use or intended use), all immunity on the grounds of sovereignty or other similar grounds from:

(1) suit or proceedings;

(2) jurisdiction of any court or arbitral tribunal;

(3) relief by way of injunction or order for specific performance or recovery of property;

(4) attachment of its assets (whether before or after judgment or award), any effort to confirm, enforce, or execute any decision, settlement, award, judgment, service of process, execution order or attachment that results from any judicial or administrative proceedings; and

(5) execution or enforcement of any judgment or award to which it or its revenues or assets might otherwise be entitled in any proceedings before an arbitral tribunal or in the courts of any jurisdiction.

Each Clearing Member irrevocably agrees, to the extent permitted by law, that it will not claim any such immunity, or assert a defence of sovereign immunity, in any proceedings. The rights and obligations of a Clearing Member under these Clearing Rules and in relation to any Contract are of a commercial and not a governmental nature.

Notice

219. Except as otherwise expressly provided in these Clearing Rules, all notices, requests, demands or other communications from OTC Clear to Clearing Members may be given orally or in writing, in person or by post, by electronic or wire transmission (including authenticated SWIFT), by telephone or facsimile, by posting on the HKEX website, or by any means of computer data transmission. Notwithstanding the immediately foregoing, in respect of any Notice of Default, Notice of Disciplinary Appeals Committee Hearing, Notice of Disciplinary Committee Hearing, or any other notices relating to suspension of Membership, or designation of an Early Termination Date in respect of the Contract(s) registered in the name(s) of some (but not all) Clearing Members, OTC Clear shall deliver such notices to the relevant Clearing Member(s) by post, electronic or wire transmission or facsimile.

220. In the case of communications sent by post to the address last specified by a Clearing Member as its address, the communications from OTC Clear shall be deemed to have been received by the Clearing Member on the following OTC Clear Business Day if the address is in Hong Kong and, if the address is outside Hong Kong, on such day as OTC Clear may from time to time specify with reference to the time the communications would be delivered to such address in the ordinary course of post. If the communications are delivered in person to such address, the communications will be deemed to have been received by the Clearing Member at the time of delivery made to such address.

221. In the case of communications made by OTC Clear to a Clearing Member by electronic or wire transmission, by telephone or facsimile, by posting on the HKEX website or any other instantaneous means, the communications shall be deemed to have been received by the Clearing Member immediately.

222. Unless otherwise provided in these Clearing Rules, all notices from Clearing Members to OTC Clear shall be given in writing and delivered in person or sent by post, or by facsimile transmission to the address of OTC Clear (as OTC Clear may from time to time notify Clearing Members) or by authenticated SWIFT.

223. Notice by Clearing Members to OTC Clear shall be deemed to have been given at the time of receipt by OTC Clear.

Process Agent

224. Where an entity not incorporated or registered in Hong Kong is admitted as a Clearing Member, such Clearing Member shall appoint and maintain an agent in Hong Kong to act as its agent to accept service of process issued out of the courts of Hong Kong in relation to any proceedings in connection with any Clearing Documentation and shall deliver to OTC Clear a copy of the agreement relating to such appointment countersigned by such agent. No Clearing Member shall give any notice of revocation to, or otherwise terminate the appointment of, any such agent unless prior to such termination it has validly appointed a replacement agent in Hong Kong to accept service of process issued out of the courts of Hong Kong in relation to any proceedings in connection with any Clearing Documentation, and has delivered to OTC Clear an agreement relating to the appointment of such replacement agent and countersigned by such replacement agent. If for any other reason any agent appointed under this

Clearing Rule 224 ceases to be such an agent, the Clearing Member shall forthwith appoint a replacement agent in Hong Kong, and deliver to OTC Clear a copy of the new agent's acceptance of that appointment within 10 OTC Clear Business Days of such appointment. Nothing in the Clearing Documentation or any Contract shall affect the right of OTC Clear to serve process in any other manner permitted by law.

Time Reference

225. Where reference is made in the Clearing Documentation to a time or deadline, it shall mean Hong Kong time, except as otherwise expressly provided in the Clearing Documentation.

Calculations and Currency

226. The calculations made by OTC Clear pursuant to these Clearing Rules shall be conclusive and binding on all Clearing Members. If a Clearing Member believes that there is any error in OTC Clear's calculations, the Clearing Member shall immediately notify OTC Clear in writing and in any event, no later than 17:00 hours Hong Kong time on the immediately following OTC Clear Clearing Day upon receipt of the relevant calculations.

227. In exercising its right of netting, set-off, consolidation or combination of accounts under these Clearing Rules, OTC Clear may convert any sums subject to such netting, set-off, consolidation or combination into either the Base Currency or the currency in which the other amount is denominated, in each case, at the rate of exchange at which OTC Clear would be able to, acting in a reasonable manner and in good faith, purchase the relevant amount of such currency.

Third Party Rights

228. Unless expressly provided to the contrary in these Clearing Rules, a person who is not OTC Clear or a Clearing Member has no right under the Contracts (Rights of Third Parties) Ordinance (Cap. 623) to enforce or to enjoy the benefit of any term or provision of these Clearing Rules.

PART II MEMBERSHIP

Chapter 3 General Provisions

OTC Clear Membership

301. The OTC Clear Board shall have the power to establish categories of membership in the provision of clearing services in respect of different types of OTC Derivatives Contracts, and to attach different rights, benefits, obligations and liabilities to each category established as it may from time to time consider appropriate after consultation with the Risk Management Committee. These Clearing Rules may be expanded, or separate sets of rules and procedures may be introduced, to govern the clearing of different types of OTC Derivatives Contracts and different categories of membership.

Clearing Members

302. OTC Clear may admit Clearing Members for the clearing of FX Derivatives and/or Rates Derivatives and/or such other types of OTC Derivatives Contracts as OTC Clear may determine from time to time. OTC Clear will only register an Original Transaction if such transaction satisfies the Eligibility Requirements applicable to the Original Transaction at the time of its submission to OTC Clear for registration, through to the Registration Time. Clearing Members may register Contracts to their House Account and, if permitted to do so under Applicable Laws and if approved by OTC Clear, and subject to the provisions in Chapter 8 and other relevant provisions of the Clearing Rules relating to client clearing, to one or more Client Accounts.

Qualification

303. To be eligible for admission as a Clearing Member, an Applicant must enter into a Membership Agreement with OTC Clear and must be able to comply, and be able to demonstrate to the satisfaction of OTC Clear the ability to comply, at all times with each of the requirements set out in Clearing Rule 401 and in Chapter 2 of the Clearing Procedures.

Applications and Approval

304. Applications for admission as a Clearing Member, or to change the types of contracts a Clearing Member may register with OTC Clear or any other conditions to which a Clearing Member is subject, shall be made in accordance with the Clearing Procedures. OTC Clear shall have the power to charge a fee for the processing of any applications.

305. Each Applicant shall provide OTC Clear with such further information as OTC Clear may require for dealing with the application.

306. The OTC Clear Board shall determine, in consultation with the Risk Management Committee (provided that such committee has been constituted), whether to approve or reject applications made under Clearing Rule 304. The decision of the OTC Clear Board shall be final and binding.

307. The OTC Clear Board in consultation with the Risk Management Committee shall give written notice of approval or rejection to each Applicant and, in the case where an application is made by an Applicant or a Clearing Member for the provision of Client Clearing Services, the OTC Clear Board in consultation with

the Risk Management Committee shall give written notice of approval or rejection to each such application.

308. Any notice of approval issued pursuant to Clearing Rule 307 may be granted subject to such conditions as the OTC Clear Board, in consultation with the Risk Management Committee (provided that such committee has been constituted), thinks fit. Applicants may be required to satisfy such conditions within a certain time period specified in the notice of approval, or on a continued basis. In the former case, Applicants must satisfy all conditions attached to their approval within the time period specified in the notice of approval (or such longer period as the OTC Clear Board may allow). In the event that an Applicant becomes a Clearing Member on the basis of a conditional approval, but fails to satisfy the relevant conditions within the time period specified, and the period for satisfaction is not extended by OTC Clear Board, OTC Clear may determine that such failure constitutes an Event of Default in accordance with Clearing Rule 1301, provided that OTC Clear shall not make such determination in the case where:

(1) the relevant Clearing Member remedies such breach within 10 OTC Clear Business Days (the "**Conditional Approval Breach Period**"); or

(2) such breach continues and is existing upon the expiry of the Conditional Approval Breach Period, but the relevant Clearing Member has given notice of resignation in accordance with Clearing Rule 608 prior to the expiry of such Conditional Approval Breach Period and the related Non-Default Unwind is completed within 10 OTC Clear Business Days following the expiry of the Conditional Approval Breach Period, provided that the Clearing Member is at all relevant times in full compliance with its obligations set out in Clearing Rules 608 and 609.

309. OTC Clear may publish on its website a list of the names of the Clearing Members from time to time.

The Eligibility Requirements applicable to an Original Transaction are determined by OTC Clear and will be set out in the Clearing Procedures.

802. Without prejudice to Clearing Rule 801, OTC Clear may at any time reject any Original Transaction submitted for registration if, at the relevant time:

(1) an Event of Default has occurred, or in OTC Clear's reasonable opinion, is likely to occur, in relation to the relevant Clearing Member;

(2) the Original Transaction does not satisfy the applicable Eligibility Requirements; or

(3) the Clearing Member in whose name such Original Transaction will be registered has not satisfied its Margin requirements.

803. If OTC Clear determines that an Original Transaction is acceptable for registration, such Original Transaction will be registered in accordance with Clearing Rule 806, provided that OTC Clear may, in its sole discretion, apply any other conditions to the registration of such Original Transaction.

804. In the event that an Original Transaction fails to be accepted for registration pursuant to these Clearing Rules, OTC Clear shall, in accordance with the Clearing Procedures, notify the relevant Clearing Member(s) of its decision.

805. Any Original Transaction that fails to be accepted for registration shall remain in full force and effect as between the two original parties to such Original Transaction pursuant to the terms therein.

Creation of Contracts through Submission of Original Transactions by Clearing Members or Clients

806. Any Original Transaction submitted for, and accepted by, OTC Clear for registration by a Clearing Member, a Client or a Designated Person submitting an Original Transaction on behalf of its Clearing Member will result in the novation of the Original Transaction and the formation of two Contracts in its place with effect from the Registration Time, as follows:

(1) if the Original Transaction is between two Clearing Members, then:

(a) one Contract is created between a Clearing Member ("**Clearing Member 1**") who was party to the Original Transaction and OTC Clear (as principal), under which:

(A) the rights and obligations of OTC Clear arising from the Economic Terms of such Contract will be the same as those of the other Clearing Member ("**Clearing Member**

2") who was party to the Original Transaction under the economic terms of the Original Transaction; and

(B) the rights and obligations of Clearing Member 1 arising from the Economic Terms of such Contract will be the same as those it had under the economic terms of the Original Transaction against Clearing Member 2, except that such rights and obligations are modified by the replacement of OTC Clear as the counterparty to Clearing Member 1,

and are subject to any changes as a result of the operation of the Contract Terms (as supplemented by the Clearing Procedures and the ATRS Guide) for that Contract;

(b) another Contract is created between Clearing Member 2 with OTC Clear (as principal), under which:

(A) the rights and obligations of OTC Clear arising from the Economic Terms of such Contract will be the same as those of Clearing Member 1 under the economic terms of the Original Transaction; and

(B) the rights and obligations of Clearing Member 2 arising from the Economic Terms of such Contract will be the same as those it had under the economic terms of the Original Transaction against Clearing Member 1, except that such rights and obligations are modified by the replacement of OTC Clear as the counterparty to Clearing Member 2,

and are subject to any changes as a result of the operation of the Contract Terms (as supplemented by the Clearing Procedures and the ATRS Guide) for that Contract; and

(c) in respect of the Original Transaction between two Clearing Members, upon the creation of the two Contracts under sub-paragraphs (a) and (b) above, the rights and obligations of the parties to the corresponding Original Transaction will be automatically and completely discharged and of no further force or effect, save and except for any amounts which are due and payable (or deliverable) by one party to the other prior to the Registration Time pursuant to the terms of such Original Transaction and which remain unpaid (or undelivered);

(2) if the Original Transaction is between a Clearing Member and a Client (the "**Relevant Client**"), then:

(a) one Contract is created between the Clearing Member who provides Client Clearing Services to the Relevant Client ("**Clearing Member 3**") (in respect of its Client Position Account relating to the Relevant Client) and OTC Clear (as principal), under which:

(A) the rights and obligations of OTC Clear arising from the Economic Terms of such Contract will be the same as those of the Clearing Member ("**Clearing Member 4**") who was party to the Original Transaction with the Relevant Client under the economic terms of the Original Transaction; and

(B) the rights and obligations of Clearing Member 3 (in respect of its Client Position Account relating to the Relevant Client) arising from the Economic Terms of such Contract will be the same as those the Relevant Client had under the economic terms of the Original Transaction against Clearing Member 4, except that such rights and obligations are modified by the replacement of OTC Clear as counterparty to Clearing Member 3 (in respect of its Client Position Account relating to the Relevant Client),

and are subject to any changes as a result of the operation of the Contract Terms (as supplemented by the Clearing Procedures and the ATRS Guide) for that Contract;

(b) one Contract is created between Clearing Member 4 (in respect of its House Position Account) and OTC Clear (as principal), under which:

(A) the rights and obligations of OTC Clear arising from the Economic Terms of such Contract will be the same as those of the Relevant Client under the economic terms of the Original Transaction; and

(B) the rights and obligations of Clearing Member 4 (in respect of its House Position Account) arising from the Economic Terms of such Contract will be the same as those it had under the economic terms of the Original Transaction against the Relevant Client, except that such rights and obligations are modified by the replacement of OTC Clear as the counterparty to Clearing Member 4 (in respect of its House Position Account),

and are subject to any changes as a result of the operation of the Contract Terms (as supplemented by the Clearing Procedures and the ATRS Guide) for that Contract;

(c) where Clearing Member 3 and Clearing Member 4 are the same Clearing Member, then for the purposes of this sub-paragraph (2), the Contract created pursuant to sub-paragraph (a) above will be recorded to such Clearing Member's Client Position Account relating to the Relevant Client, and the Contract created pursuant to sub-paragraph (b) above will be recorded to such Clearing Member's House Position Account; and

(d) in respect of the Original Transaction between Clearing Member 4 and the Relevant Client, upon the creation of the two Contracts under sub-paragraphs (a) and (b) above, the rights and obligations of the parties to the corresponding Original Transaction will be automatically and completely discharged and of no further force or effect, save and except for any amounts which are due and payable (or deliverable) by one party to the other prior to the Registration Time pursuant to the terms of such Original Transaction and which remain unpaid (or undelivered); and

(3) if the Original Transaction is between two Clients ("**Client 1**" and "**Client 2**"), then:

(a) one Contract is created between the Clearing Member who provides Client Clearing Services to Client 1 ("**Clearing Member 5**") (in respect of its Client Position Account relating to Client 1) and OTC Clear (as principal), under which:

(A) the rights and obligations of OTC Clear arising from the Economic Terms of such Contract will be the same as those of Client 2 under the economic terms of the Original Transaction; and

(B) the rights and obligations of Clearing Member 5 (in respect of its Client Position Account relating to Client 1) arising from the Economic Terms of such Contract will be the same as those of Client 1 under the economic terms of the Original Transaction, except that such rights and obligations are modified by the replacement of OTC Clear as counterparty to Clearing Member 5 (in respect of its Client Position Account relating to Client 1),

and are subject to any changes as a result of the operation of the Contract Terms (as supplemented by the Clearing Procedures and the ATRS Guide) for that Contract;

(b) one Contract is created between the Clearing Member who provides Client Clearing Services to Client 2 ("**Clearing Member 6**") (in respect of its Client Position Account relating to Client 2) and OTC Clear (as principal), under which:

(A) the rights and obligations of OTC Clear arising from the Economic Terms of such Contract will be the same as those of Client 1 under the economic terms of the Original Transaction; and

(B) the rights and obligations of Clearing Member 6 (in respect of its Client Position Account relating to Client 2) arising from the Economic Terms of such Contract will be the same as those of Client 2 under the economic terms of the Original Transaction, except that such rights and obligations are modified by the replacement of OTC

Clear as the counterparty to Clearing Member 6 (in respect of its Client Position Account relating to Client 2),

and are subject to any changes as a result of the operation of the Contract Terms (as supplemented by the Clearing Procedures and the ATRS Guide) for that Contract;

(c) where Clearing Member 5 and Clearing Member 6 are the same Clearing Member, then for the purposes of this sub-paragraph (3), the Contract created pursuant to sub-paragraph (a) above will be recorded to such Clearing Member's Client Position Account relating to Client 1, and the Contract created pursuant to sub-paragraph (b) above will be recorded to such Clearing Member's Client Position Account relating to Client 2; and

(d) upon the creation of the two Contracts under sub-paragraphs (a) and (b) above, the rights and obligations of the parties to the corresponding Original Transaction will be automatically and completely discharged and of no further force or effect, save and except for any amounts which are due and payable (or deliverable) by one party to the other prior to the Registration Time pursuant to the terms of such Original Transaction and which remain unpaid (or undelivered).

807. When an Original Transaction is submitted for registration, the relevant party shall specify (i) whether such Original Transaction is being submitted for registration as part of a Clearing Member's Client Clearing Services and (ii) to which of the relevant Clearing Member's Position Account the corresponding Contract(s) should be booked, in accordance with the following:

(1) each Contract created under Clearing Rule 806(1) or Clearing Rule 806(2)(b) should be booked to the House Position Account of the Clearing Member who was party to the corresponding Original Transaction; and

(2) each Contract created under Clearing Rule 806(2)(a), Clearing Rule 806(3)(a) or Clearing Rule 806(3)(b) should be booked to a Client Position Account relating to the relevant Client.

Any Contract arising as a result of submission of an Original Transaction by a Designated Person on behalf, and in the name, of a Clearing Member shall be recorded to such Clearing Member's House Position Account.

808. Each Contract created under Clearing Rule 806 shall be governed by the applicable Contract Terms for that Contract. OTC Clear's obligations and liabilities under any Contract shall be limited to those pursuant to the Clearing Documentation.

809. Each Clearing Member agrees to be bound by each Contract pursuant to the particulars submitted by it or its Designated Person that is entered in such Clearing Member's name as principal and not as agent, and on the terms set out in the Clearing Documentation.

810. The Transaction Register, or such other record as OTC Clear shall accept in its sole discretion, shall constitute conclusive evidence of Contracts which have been validly made unless OTC Clear otherwise determines. The relevant reports published by OTC Clear in reliance or, on the basis, of the Transaction Register shall be final and conclusive in determining whether a Contract has been registered with, or de-registered by, OTC Clear.

811. Following the creation of a Contract with effect from the Registration Time of such Contract:

(1) such Contract will be a "market contract" as defined in, and for purposes of, the SFO;

(2) each relevant Clearing Member shall, or shall procure its Designated Person, to the extent applicable, to update its books and records to reflect such registration;

(3) notwithstanding any non-performance of a party's obligations under the Original Transaction, or any invalidity, unenforceability, revocation or avoidance of the Original Transaction, the terms and validity of the corresponding Contracts shall remain in full force and effect; and

(4) notwithstanding the occurrence of any Insolvency Proceedings with respect to a Clearing Member in whose name a Contract is registered during or prior to the Registration Time of such Contract, and regardless of whether OTC Clear is aware, or could reasonably be expected to be aware, of such occurrence of Insolvency Proceedings, the Contract, once created, shall remain in full force and effect.

Clearing Members' Representations as at Registration Time

812. In relation to each Contract, OTC Clear will, and will be entitled to, rely on the following representations and warranties from each Clearing Member proposing to become a party to any Contract (whether in respect of an Original Transaction submitted by such Clearing Member itself or by its Designated Person in the name, and on behalf, of such Clearing Member), which are deemed to arise automatically pursuant to these Clearing Rules immediately prior as at the Registration Time:

(1) that the Clearing Member is in full compliance with the Clearing Documentation and with all Applicable Laws in respect of such Original Transaction;

(2) that the Clearing Member has authorized all data submitted to OTC Clear and such data is complete and correct in all aspects; and

(3) any representation that an Original Transaction was, pursuant to CFTC rules and regulations, either voluntarily reported, or required to be reported, to a swap data repository registered with the CFTC.

Creation of Contracts other than through Submission of Original Transaction by Clearing Members or Clients

813. Contracts may be created by ways other than through submission of Original Transaction by Clearing Members or Clients as described in Clearing Rule 806 if such Contracts arise as a result of the operation of Clearing Rule 210(1),

1320(1), 1321, 1703 or 1921, in each case, with effect from the Registration Time applicable to the relevant Contract.

Termination of Contracts relating to Ineligible Original Transactions after Registration

814. If, subsequent to the registration of an Original Transaction, OTC Clear determines in its sole discretion that such Original Transaction would otherwise have been rejected under Clearing Rule 802 for registration at the Registration Time, or in respect of an Original Transaction submitted as part of a Clearing Member's Client Clearing Services, OTC Clear determines in its sole discretion that the relevant Clearing Member has not been approved of providing client clearing services, or was in breach of one or more conditions or requirements stipulated by OTC Clear in connection with it providing Client Clearing Services, or OTC Clear determines in its sole discretion that any consent provided by the Clearing Member, its Clients or their respective contact persons pursuant to Clearing Rule 212(1), 214(2) or 214(5), as the case may be, respectively, has been revoked, at the Registration Time:

(1) OTC Clear will terminate the Contracts corresponding to such Original Transaction (each, an "**Error Contract**") as soon as reasonably practicable, and such Error Contracts shall have no further force or effect thereafter;

(2) any payments made by OTC Clear or a Clearing Member, including, without limitation, for purposes of satisfying any end-of-day Variation Margin requirements (but excluding Initial Margin, Additional Margin, Ad Hoc Intra-day Variation Margin or Routine Intra-day Variation Margin), in connection with such Error Contracts shall be retained by the receiving party thereto; and

(3) if OTC Clear determines that the value of an Error Contract has changed in between the time when the Variation Margin was last calculated and when such Error Contract was terminated, then a payment representing such difference in value shall be made between the Clearing Members in whose names the Error Contracts were registered. Any payment made pursuant to the immediately foregoing sentence will be made outside of the Rates and FX Clearing System, and shall fully discharge a party's obligations under such Error Contract.

OTC Clear will notify the relevant Clearing Member of any termination of an Error Contract registered in the name of such Clearing Member pursuant to this Clearing Rule 814. Without prejudice to Clearing Rule 203, OTC Clear shall not be liable to any Person in any way whatsoever in consequence of registration of any Original Transaction and the subsequent termination of, any related Error Contracts.

814A. OTC Clear shall have the discretion to avoid Contracts corresponding to an Original Transaction if one or more of such Contracts whether in whole or in part are made or received by OTC Clear subsequent to the institution of a proceeding against the relevant Clearing Member(s) seeking judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights or the presentation of a petition for its

winding-up or liquidation against the relevant Clearing Member(s) (the "**Insolvent Clearing Member**").

814B. If Contracts corresponding to an Original Transaction are avoided pursuant to Clearing Rule 814A, OTC Clear shall as soon as practicable notify the affected Clearing Members and upon such notification:

(1) the affected Contracts corresponding to the relevant Original Transaction shall be void ab initio from the time the Contracts are created;

(2) save for subparagraphs (3), (4) and (5) below, OTC Clear and the affected Clearing Members shall not have any rights, liabilities and obligations under the affected Contracts;

(3) any payments made by OTC Clear to an affected Clearing Member, including, without limitation, for purposes of satisfying any end-of-day Variation Margin requirements, in connection with an affected Contract corresponding to the relevant Original Transaction shall as soon as practicable be returned by such affected Clearing Member (the "**Paying Clearing Member**") to OTC Clear without interest;

(4) if the relevant affected Contract corresponding to the Original Transaction is registered to the House Position Account, any payments made by an affected Clearing Member to OTC Clear, including, without limitation, for purposes of satisfying any end-of-day Variation Margin requirements (but excluding Initial Margin, Additional Margin, Ad Hoc Intra-day Variation Margin or Routine Intra-day Variation Margin which, for the avoidance of doubt, shall form part of the Margin Balance), in connection with such affected Contract shall as soon as practicable be returned by OTC Clear to such affected Clearing Member without interest, provided that the payment obligations of OTC Clear under this subparagraph (4) shall be limited to such amount OTC Clear has actually received from the Paying Clearing Member under subparagraph (3) above;

(5) if the relevant affected Contract corresponding to the Original Transaction is registered to a Client Position Account of an affected Clearing Member that is not the Insolvent Clearing Member, any payments made by such affected Clearing Member to OTC Clear, including, without limitation, for purposes of satisfying any end-of-day Variation Margin requirements (but excluding Initial Margin, Additional Margin, Ad Hoc Intra-day Variation Margin or Routine Intra-day Variation Margin which, for the avoidance of doubt, shall form part of the Margin Balance), in connection with such affected Contract shall as soon as practicable be returned by OTC Clear to such affected Clearing Member without interest, provided that the payment obligations of OTC Clear under this subparagraph (5) shall be limited to such amount OTC Clear has actually received from the Paying Clearing Member under subparagraph (3) above;

(6) if the relevant Contract corresponding to the Original Transaction is registered to a Client Position Account of the Insolvent Clearing Member, any payments made by the Insolvent Clearing Member to OTC Clear,

including, without limitation, for purposes of satisfying any end-of-day Variation Margin requirements (but excluding Initial Margin, Additional Margin, Ad Hoc Intra-day Variation Margin or Routine Intra-day Variation Margin which, for the avoidance of doubt, shall form part of the Margin Balance), in connection with such affected Contract shall, subject to entering into relevant documentation between OTC Clear and the relevant Client (which may, without limitation, include an indemnity (secured or otherwise) to OTC Clear in respect of any loss or liability arising from the legal invalidity of any payment of such moneys to the relevant Client), be returned directly by OTC Clear to the relevant Client without interest, provided that the payment obligations of OTC Clear under this subparagraph (6) shall be limited to such amount OTC Clear has actually received from the Paying Clearing Member under subparagraph (3) above. If the relevant Client fails to enter into relevant documentation with OTC Clear, OTC Clear shall reserve the right to withhold payment of such amounts until such time such relevant documentation has been properly entered into; and

(7) if OTC Clear determines that no further amounts in respect of any amount payable by the Paying Clearing Member under subparagraph (3) are likely to be recovered and notifies the same to the affected Clearing Member and/or the relevant Client (as the case may be), then the unpaid balance of any payment payable by OTC Clear under subparagraphs (4), (5) and (6) above shall thereafter be extinguished and the affected Clearing Member and the relevant Client (as the case may be) shall have no further recourse to OTC Clear (its Affiliates, a recognized exchange controller which is the controller of OTC Clear, or any of their respective Representatives) in respect thereof.

Transfers of Contracts

815. Save and except for, in the case of a Clearing Member who is a Rule-Based Clearing Member, the right of its Client to receive any Client Entitlement from OTC Clear under Clearing Rules 1308A, 1308B, 1309 and 1309A and, in the case of a Non Rule-Based Clearing Member, any Encumbrance created pursuant to a Security Deed, a Clearing Member shall not assign, novate, transfer or create any Encumbrance whatsoever in relation to any of its rights, liabilities or obligations under a Contract.

Client Clearing

816. A Clearing Member shall, prior to offering Client Clearing Services to its Clients, obtain relevant approval from OTC Clear. OTC Clear may stipulate any conditions or requirements in connection with a Clearing Member’s application to provide Client Clearing Services. Any purported client clearing services provided by a Clearing Member prior to the relevant approval being obtained or in breach of any condition or requirement stipulated by OTC Clear in the relevant approval shall not be considered Client Clearing Services under these Clearing Rules, and the clients of such Clearing Member shall not be considered as Clients under these Clearing Rules. Accordingly, Original Transactions submitted as such Clearing Member’s Client Clearing Services shall not be registered as Contracts.

817. A Clearing Member providing Client Clearing Services to its Clients shall be liable to OTC Clear and be responsible for all its obligations as principal in respect of the Contracts and Client Accounts registered in its name. Each Clearing Member acknowledges that, save and except for the Client's right to receive (i) any Client Entitlement directly from OTC Clear under Clearing Rules 1309 or 1309A (in the case of a Clearing Member who is a Rule-Based Clearing Member) or pursuant to a Security Deed (in the case of a Clearing Member who is a Non Rule-Based Clearing Member) or (ii) amounts equal to (and in the same currency as) SSM Payment Amounts directly from OTC Clear (in the case of a Client which is a Sponsored Settlement Member of a sponsoring Clearing Member which is incorporated in England or France under the terms of a relevant SSM Tripartite Agreement which governs payment of those amounts), OTC Clear owes no obligation towards any Client or any other Person that is not a Clearing Member whatsoever in respect of the Contracts or any Client Accounts. It is the responsibility of the Clearing Member (and not OTC Clear) to ensure its own compliance with Applicable Laws relating to conduct of business, client money and segregation of client assets. Subject to the provisions of these Clearing Rules, Client Clearing Services may be provided by a Clearing Member to its Clients on whatever terms the Clearing Member decides should apply, provided that each Clearing Member must, prior to providing Client Clearing Services to a Client:

(1) in the case of a Clearing Member who is a Non Rule-Based Clearing Member, enter into a Security Deed in favour of that Client which is legal, valid, binding and enforceable, in accordance with its terms, and provide written confirmation to OTC Clear that it has complied with Clearing Rule 818 in respect of that Security Deed;

(2) provide written confirmation to OTC Clear showing that it has delivered the Client Clearing Services Notice to such Client, and has undertaken to do all such things as OTC Clear may from time to time reasonably require to ensure that such Client is informed of the nature, costs and risks of the Client Clearing Services (including each Client Clearing Category);

(3) in the case of a Client that is to become a Sponsored Settlement Member of a sponsoring Clearing Member which is incorporated in England or France, such sponsoring Clearing Member must, prior to that Client becoming a Sponsored Settlement Member, enter into a legal, valid, binding and enforceable SSM Tripartite Agreement with that Client and OTC Clear; and

(4) enter into a Client Clearing Agreement with that Client that incorporates provisions with the following effect:

(a) in the case of a Clearing Member who is a Rule-Based Clearing Member, the Clearing Member confirms that the positions and Collateral held in the relevant Client Account(s) by the Clearing Member as well as any Client Entitlement calculated by OTC Clear in respect thereto each relate to the corresponding positions between the Client and the Clearing Member and that, pursuant to the power of OTC Clear to make rules under section

40(2A) of the SFO, following an Event of Default of the Clearing Member, in the case of a Non-Porting Client such Client Entitlement shall be returned by OTC Clear directly to that Client pursuant to Clearing Rules 1308A and 1309 and in the case of a Porting Client such Client Entitlement shall be returned by OTC Clear directly to that Client pursuant to Clearing Rules 1308B and 1309A;

(b) in the case of a Clearing Member who is a Non Rule-Based Clearing Member, each of the Clearing Member and the Client confirms that the positions and Collateral held in the relevant Client Account(s) by the Clearing Member as well as any Client Entitlement calculated by OTC Clear in respect thereto each relate to the corresponding positions between the Client and the Clearing Member and, following an Event of Default of the Clearing Member, in the case of a Non-Porting Client such Client Entitlement shall be returned by OTC Clear to that Client pursuant to Clearing Rule 1309 and the terms of the Security Deed entered into by the Defaulting Clearing Member in favour of such Client and in the case of a Porting Client such Client Entitlement shall be returned by OTC Clear to that Client pursuant to Clearing Rule 1309A and the terms of the Security Deed entered into by the Defaulting Clearing Member in favour of such Client;

(c) Corresponding Client Transactions shall be transacted pursuant to the terms of the Client Clearing Agreement and be segregated (contractually or otherwise) from any other transactions entered into between the Clearing Member and the Client;

(d) upon the occurrence or designation of an Early Termination Date in respect of the Clearing Member following an Event of Default, any Corresponding Client Transaction with the Defaulting Clearing Member must either (i) be automatically terminated and re-established with, transferred or novated to a Replacement Clearing Member or (ii) the Client must have the right to terminate such transaction and re-establish, transfer or novate such transaction to a Replacement Clearing Member;

(e) if a Corresponding Client Transaction is terminated following such Early Termination Date, the net replacement value of the Corresponding Client Transaction shall be equal to the value attributed by OTC Clear to the Contract to which the Corresponding Client Transaction relates following such Early Termination Date;

(f) any non-cash collateral in respect of Corresponding Client Transactions shall be provided by way of full title transfer from the Client to the Clearing Member;

(g) that "two way payments" arise in the event of a termination of all Corresponding Client Transactions, the substantive effect of

which is that either a Clearing Member or a Client will be entitled to receive payment under the relevant termination provisions if the net replacement value of all terminated Corresponding Client Transactions effected under the Client Clearing Agreement is in its favour;

(h) an acknowledgement from the Client that the provision of Client Clearing Service by the Clearing Member to it will not give rise to any liability owed by OTC Clear to the Client (other than, in the case of a Client which is a Sponsored Settlement Member of a sponsoring Clearing Member which is incorporated in England or France, in respect of amounts payable by OTC Clear to that Sponsored Settlement Member as provided for in an SSM Tripartite Agreement with that Sponsored Settlement Member);

(i) the Clearing Member shall have the right in the event of a Rates and FX Clearing Termination Event relating to OTC Clear, to terminate the Corresponding Client Transaction;

(j) upon the request of a Transferee Clearing Member to OTC Clear to port to the Transferee Clearing Member a Client's portfolio of Contracts registered with the Transferor Clearing Member in the relevant Client Position Account in full pursuant to Clearing Rule 830 or in part pursuant to Clearing Rule 831 from the Transferor Clearing Member to the Transferee Clearing Member, the Transferor Clearing Member shall have the right to (i) terminate the relevant Corresponding Client Transaction with such Client and/or (ii) have the relevant Corresponding Client Transaction re-established with, transferred or novated to the Transferee Clearing Member;

(k) in the event that OTC Clear exercises its right under section 3.19 of the Clearing Procedures to vary the Economic Terms of a Standard Cross-currency Rates Derivatives Contract, the relevant Affected Clearing Member shall have the right to vary the terms and conditions of the relevant Corresponding Client Transaction to reflect such variation;

(l) the Clearing Member shall only accept from the Client, as collateral for the Corresponding Client Transactions, the same types of Collateral which OTC Clear accepts from the Clearing Member in respect of the relevant Client Position Account to which Contracts relating to such Corresponding Client Transactions are recorded;

(m) no margin financing or collateral transformation services shall be provided by the Clearing Member to the Client under the Client Clearing Agreement; and

(n) in the case of a Client Clearing Agreement with a Client that is a Sponsored Settlement Member of such Clearing Member, the Clearing Member and such Sponsored Settlement Member shall agree that (i) payment by OTC Clear to such Sponsored

Settlement Member of amounts corresponding to (and in the same currency as) any SSM Payment Amounts in respect of one or more Contracts shall (to the extent of such payment) satisfy and discharge the Clearing Member's obligation to pay the corresponding amount to such Sponsored Settlement Member under the Corresponding Client Transactions relating to those Contracts; and (ii) payment by such Sponsored Settlement Member to OTC Clear of amounts corresponding to (and in the same currency as) any SSM Payment Amounts in respect of one or more Contracts shall (to the extent of such payment) satisfy and discharge the Sponsored Settlement Member's obligation to pay the corresponding amount to the Clearing Member under the Corresponding Client Transactions relating to those Contracts,

and to the extent there is no Client Clearing Agreement in full force and effect or there is any deficiency in the Client Clearing Agreement, the Clearing Member and the Client will be deemed to have entered into a binding agreement into which the terms set out in this Clearing Rule 817(3) shall be deemed to have been incorporated. Any changes made to the terms of a Contract by OTC Clear shall be deemed to be reflected in the Corresponding Client Transaction.

818. Where any formalities or registration requirements apply in respect of a Security Deed (and any other document which OTC Clear may from time to time determine), a Clearing Member is required to comply with such obligations or to procure by agreement that such requirements are to be complied with.

Types of Client Clearing Categories

819. Client Clearing Services may be provided by a Clearing Member to its Clients, and Contracts will be entered into by a Clearing Member with OTC Clear in respect of such Clients on a Client Clearing Category 1 Account Basis, a Client Clearing Category 2 Account Basis, or any other basis as OTC Clear may decide to introduce from time to time (each a "**Client Clearing Category**").

820. A Clearing Member that offers Client Clearing Services to one or more Clients shall offer its Clients the choice between the Client Clearing Category 1 Account Basis and the Client Clearing Category 2 Account Basis, and shall inform them of the costs and level of protection associated with each option. The Clearing Member shall procure that each Client confirms its choice in writing. A Client must be allocated to one single Client Clearing Category at any given time, provided that a Client may, at any time but subject to the prior approval by OTC Clear and subject to any conditions that OTC Clear may impose (including without limitation any requirements as to Margin and Rates and FX Liability), elect to change to a different Client Clearing Category. Upon approval by OTC Clear of a Client's request to change the Client Clearing Category to which it belongs and (if applicable) confirmation by OTC Clear that all relevant conditions have been satisfied, the Clearing Member shall be solely responsible for effecting any related adjustments to the relevant Client Account(s). A Clearing Member may operate one or more Client Clearing Category 1 Accounts and/or one or more Client Clearing Category 2 Accounts, but each Client may not be allocated to more than one Client Position Account at any point in time.

821. In respect of any Client Clearing Services provided by a Clearing Member to its Clients, such Clearing Member shall:

(1) provide OTC Clear with accurate information relating to the identity of the Client(s) in respect of whom Client Clearing Services are being provided. In the event that OTC Clear reasonably requests the provision of any further information relating to the Clearing Member's Client Clearing Services or a Client, the Clearing Member shall, as soon as reasonably practicable, deliver, or procure the delivery of, such information;

(2) maintain and regularly update the books and records relating to its Client Clearing Services; the Clearing Member shall provide such information relating to each Client as reasonably requested by OTC Clear, including at the end of each OTC Clear Business Day. In particular, the Clearing Member or its insolvency practitioner shall promptly provide such information to OTC Clear in the event that an Automatic Early Termination Event occurs or OTC Clear declares an Event of Default in respect of such Clearing Member;

(3) comply with the terms of the Clearing Documentation and any condition or requirement stipulated in the relevant approval obtained from OTC Clear in its provision of such Client Clearing Services, including but not limited to any trading, risk or credit limits applicable to the Client Account(s) registered in the name of such Clearing Member;

(4) indemnify and hold OTC Clear, its Affiliate and a recognized exchange controller which is the controller of OTC Clear harmless against any liability to its Clients as a result of the provision by it of Client Clearing Services to its Clients;

(5) require each Client to comply with such security obligations as OTC Clear may reasonably request or are otherwise prudent to protect the financial integrity of OTC Clear;

(6) ensure that any acts or omissions of its Clients will not prevent it from complying with the Clearing Rules;

(7) require each of its Clients to comply with the following requirements:

(a) such Client shall not breach any Applicable Laws or requirements of any Regulatory Authority or any of these Clearing Rules which would be likely to have a material adverse effect on the Client's suitability as a Client in respect of the Client Clearing Services;

(b) such Client shall comply with all Applicable Laws relating to its status, the conduct of its business and the performance of its obligations as a Client in relation to the Corresponding Client Transaction, including, for the avoidance of doubt, all Applicable Laws relating to the prevention of bribery, money laundering, financial crimes and terrorist financing and (b) not be subject to any sanctions promulgated or imposed by the United Nations or any Governmental Authority relevant to it or its clearing activities;

(c) the use of the Client Clearing Services by such Client shall not cause OTC Clear to be in breach of any Applicable Laws or requirements of any Regulatory Authority;

(d) such Client shall not engage in any other practice or take any action which in OTC Clear's opinion is likely to damage the reputation or impair the financial integrity of OTC Clear,

and shall, at the request of OTC Clear, immediately take action to ensure that no further Original Transactions are cleared on behalf of a Client by reducing its Position Limits relating to that Client to zero in the event that OTC Clear reasonably believes such Client is in breach of any of the prohibitions referred to in in this Clearing Rule 821(7);

(8) only accept from each Client, as collateral for the relevant Corresponding Client Transactions, the same types of Collateral which OTC Clear accepts in respect of the Client Position Account to which Contracts relating to each relevant Corresponding Client Transactions are recorded; and

(9) not provide any margin financing or collateral transformation services to the Client under the Client Clearing Agreement.

822. A Clearing Member shall inform each of its Client(s) that:

(1) should such Client wish to effect porting upon the occurrence of a DMP Event with respect to the Clearing Member, complete Porting Instructions shall be delivered to OTC Clear as soon as reasonably practicable at or after commencement of clearing operations in relation to the Client Account(s) relating to such Client and a Replacement Clearing Member must be appointed prior to the occurrence of a DMP Event with respect to the original Clearing Member;

826. It is the Transferee Clearing Member's obligation to procure the Transferor Clearing Member to consent to the relevant porting request. OTC Clear shall not be responsible for (i) obtaining consent from a Transferor Clearing Member in relation to the porting of Contracts and Collateral or (ii) determining whether any objection from a Transferor Clearing Member has any merit.

827. OTC Clear shall be authorised and entitled to rely conclusively on the instructions of, and any instruction provided by, the relevant Transferee Clearing Member(s) in connection with the porting of any Contracts and Collateral pursuant to these Clearing Rules 825 to 833, and shall not have any liability including, but not limited to, any civil liability, whether arising in contract, tort,

Full Portfolio Porting

830. Upon the instruction or at the request of any Client Clearing Category 1 Client or a Client Clearing Category 2 Client, a Transferee Clearing Member may request OTC Clear to port to the Transferee Clearing Member the relevant Client's portfolio (and not less than its entire portfolio) of Contracts registered with the Transferor Clearing Member in the relevant Client Position Account and, if also requested, to port the Collateral in respect of such Client recorded in the corresponding Client Collateral Account from the Transferor Clearing Member to the Transferee Clearing Member. Such request shall be made in accordance with and subject to the Clearing Procedures. Such request shall be made in accordance with and subject to the Clearing Procedures. For the avoidance of doubt, in no circumstances may any Collateral recorded in the relevant Client Collateral Account relating to such Contracts be ported in connection with partial portfolio porting.

Porting of Client Collateral

832. In connection with any full portfolio porting that includes the porting of the corresponding Collateral, the Transferee Clearing Member shall notify OTC Clear of the specific Collateral which should comprise the Collateral to be ported

in accordance with the Clearing Procedures, failing which OTC Clear will not proceed with the full portfolio porting. In the event that, for whatever reason, OTC Clear is unable to port such Collateral, OTC Clear will also not proceed with the full portfolio porting.

Conditions Precedent to Porting of Contracts relating to Clients

833. In addition to the requirements set out in the Clearing Procedures, a full portfolio porting and a partial portfolio porting must each satisfy the following conditions precedent:

(1) such porting would not violate or result in the violation of any Applicable Laws;

(2) the porting would not cause the Position Limits applicable to either the Transferee Clearing Member or the Client to be exceeded;

(3) the relevant Client(s), the Transferor Clearing Member and the Transferee Clearing Member have each executed all documents necessary or required by OTC Clear in order to effect such porting (including, where applicable, a Security Deed or Deed of Charge); and

(4) in the event that the porting will lead to a requirement for the Transferor Clearing Member to post additional Collateral to OTC Clear, the Transferor Clearing Member posts sufficient Collateral to OTC Clear.

By making a full portfolio porting or partial portfolio porting request, both the Transferor Clearing Member and the Transferee Clearing Member shall be deemed to have represented to OTC Clear that all of the relevant conditions to such porting set forth herein and all the requirements set forth in the Clearing Procedures have been satisfied.

(1) any equities of redemption held by the Transferor Clearing Member in respect of that Collateral shall be assigned absolutely to the Transferee Clearing Member, such that those equities of redemption become subject to the security interests granted in favour of OTC Clear pursuant to the Deed of Charge between the Transferee Clearing Member and OTC Clear; and

(2) OTC Clear shall release that Collateral from the security interests granted in favour OTC Clear pursuant to the Deed of Charge between the Transferor Clearing Member and OTC Clear, such that the Transferee Clearing Member becomes entitled to redeem that Collateral pursuant to any equities of redemption assigned to it pursuant to sub-paragraph (1) above.

Transfer of Contracts between Client Accounts and House Accounts

836. (1) If at any time an early termination date (howsoever described) occurs in respect of the relevant Client Clearing Agreement between a Clearing Member and a Client, and at the time of such early termination date such Clearing Member is not a Defaulting Clearing Member, such Clearing Member may instruct OTC Clear to transfer all Contracts relating to the Corresponding Client Transactions between such Clearing Member and such Client from its Client Position Account relating to such Client to its House Position Account and to transfer the Collateral recorded in the corresponding Client Collateral Account to its House Collateral Account, and OTC Clear will, subject to Clearing Rule 837 below, arrange such transfer of Contracts and Collateral within 24 hours of its receipt of such instructions together with receipt to its satisfaction of the following documents:

(2) Each Clearing Member shall indemnify OTC Clear, its Affiliate and a recognized exchange controller which is the controller of OTC Clear and keep OTC Clear, its Affiliate and a recognized exchange controller which is the controller of OTC Clear indemnified from and against any loss, cost (including cost of enforcement), interests, liability (including any tax or other fiscal liability), claim or Damage which OTC Clear, its Affiliate and a recognized exchange controller which is the controller of OTC Clear, incurred or suffered in connection with any transfer of Contracts and Collateral set out in Clearing Rule 836(1).

837. In the event that the transfer set out in Clearing Rule 836(1) will lead to a requirement for the relevant Clearing Member to post additional Collateral to OTC Clear for the account of its House Collateral Account (after taking into account any Collateral that will be transferred from the relevant Client Collateral Account to the House Collateral Account as part of such transfer), the Clearing Member shall ensure that it has posted sufficient additional Collateral to OTC Clear prior to the transfer set out in Clearing Rule 836(1). If the relevant Clearing Member has failed to post such additional Collateral to OTC Clear by the transfer time specified in Clearing Rule 836(1), OTC Clear will continue to

arrange for the transfer of Contracts and Collateral in accordance with Clearing Rule 836(1) but shall have the right to demand for such additional Collateral in accordance with the Clearing Procedures.

838. Clearing Members who have adhered to relevant Compression Documentation with a Compression Service Provider may participate in a Multilateral Compression Cycle in respect of all Eligible Compression Contracts registered to their House Position Account.

839. Contracts registered to a Clearing Member's Client Position Account are not eligible for compression.

840. In respect of each Multilateral Compression Cycle, OTC Clear will effect the compression or decompression of Eligible Compression Contracts by terminating certain offsetting or redundant Contracts, amending the terms of certain Contracts by increasing the notional amount or converting the reference rate and/or registering one or more new Contracts, all in accordance with the Unwind Proposal generated in respect of that Multilateral Compression Cycle. Any new Contract created pursuant to a Multilateral Compression Cycle is entered into by OTC Clear for the purpose of clearing and settlement of the relevant Compression Clearing Member's House Business. Any Contract, as created, amended or terminated pursuant to a Multilateral Compression Cycle, shall be a "market contract" as defined in, and for the purposes of, the SFO, as described in Clearing Rule 811(1).

841. When OTC Clear intends to run a Multilateral Compression Cycle, it shall nominate a Compression Service Provider to facilitate such Multilateral Compression Cycle. OTC Clear and the relevant Compression Service Provider shall then notify Clearing Members meeting the criteria set out in Clearing Rule 838 above of the Transaction Category(ies) of Eligible Compression Contracts forming part of that Multilateral Compression Cycle and implement the processes set out in the relevant Compression Documentation. For the avoidance of doubt, OTC Clear may, at its sole and absolute discretion, exclude Eligible Compression Contracts in any number of Transaction Category(ies) from a Multilateral Compression Cycle.

842. In any Multilateral Compression Cycle, compression shall only take place in accordance with the terms of an Unwind Proposal which has been accepted by all participating Compression Clearing Members.

843. Each participating Compression Clearing Member agrees and acknowledges that the Compression Service Provider's confirmation to OTC Clear that such Compression Clearing Member has confirmed its acceptance of the Unwind Proposal to the Compression Service Provider, shall constitute a binding acceptance of the Unwind Proposal by such Compression Clearing Member to OTC Clear. Upon a Compression Clearing Member's acceptance of an Unwind Proposal in the manner set out in the relevant Compression Documentation, such Compression Clearing Member shall be irrevocably bound to the terms of that Unwind Proposal and shall be obligated to settle in full by the time set out in the relevant Compression Documentation, such Compression Clearing Member's increased Initial Margin requirements (if applicable), the

845. OTC Clear may, at its sole and absolute discretion, at any time prior to the Compression Time, agree to proceed (or decline to proceed) with the implementation of the accepted Unwind Proposal. For the avoidance of doubt, the irrevocable acceptance of an Unwind Proposal by participating Compression Clearing Members shall not bind or require OTC Clear to implement such Unwind Proposal.

846. Save for the Compression Cash Settlement Payments which shall be due to or payable by OTC Clear as settlement of the unrealised value of the Eligible Compression Contracts that are proposed to be amended, terminated and/or replaced under each accepted Unwind Proposal, OTC Clear shall have no involvement in and accepts no responsibility or liability in relation to any Multilateral Compression-related balancing, termination or ancillary payments or fees that participating Compression Clearing Members may agree between themselves in accordance with the relevant Compression Documentation or otherwise. In the event OTC Clear agrees to participate in the processing of ancillary payments or fees pursuant to the relevant Compression Documentation, OTC Clear accepts no liability to any Compression Clearing Member or third party in connection with or related to the processing of such ancillary payments or fees.

847. Without prejudice to any other provisions of these Clearing Rules, or any Compression Documentation, OTC Clear and its Affiliates shall not have any liability whatsoever to any Compression Clearing Member or to any other person in contract, tort (including, without limitation, negligence), trust, as a fiduciary or under any other cause of action in respect of any damages, losses, costs or expenses of whatsoever nature suffered or incurred by a Compression Clearing Member or any other person, as the case may be:

(1) as a result of any action OTC Clear takes under the Clearing Rules or the relevant Compression Documentation, whether in accordance with an Unwind Proposal, in reliance on information provided by Compression Clearing Members or any Compression Service Provider or otherwise;

(2) in relation to a Multilateral Compression Cycle, as a result of any action or omission of a Compression Service Provider, including, without limitation, any error or omission in the terms of any Unwind Proposal; or

10A06. Any Standard Rates Derivatives Contract entered into pursuant to Clearing Rule 10A04 as a Compensating Swap shall be deemed to satisfy any registration requirements under the Clearing Rules, including but not limited to being deemed to be registered in accordance with Clearing Rule 806.

10A07. The Discounting Switch Supplement may give rise to one or more payment obligations being owed by OTC Clear to a Clearing Member or by a Clearing Member to OTC Clear (each, an "**Interest Rate Change Payment**"). The calculation of each Interest Rate Change Payment and the due date for payment of such Interest Rate Change Payment in each case shall be on the terms set out in the Discounting Switch Supplement.

Chapter 11 Tax

Tax

1101. In the event that any payment made by a Clearing Member to OTC Clear under the Clearing Documentation or any Contract is subject to deduction or withholding (either at the time of such payment or in the future) for or on account of any Tax and/or any Withholding Tax, then the Clearing Member shall pay to OTC Clear an amount (the "**Additional Amount**"), in addition to the payment to which OTC Clear is otherwise entitled under the Clearing Documentation or any Contract, necessary to ensure that the net amount actually received by OTC Clear (free and clear of any such deduction or withholding for or on account of any such Tax and/or Withholding Tax), will be equal to the full amount OTC Clear would have received in the absence of any such deduction or withholding.

1102. OTC Clear shall make any payments due to a Clearing Member under the Clearing Documentation or any Contract net of any deduction or withholding for or on account of any Tax it is required to make from such payments and (to the extent required by the Tax Information Exchange Framework or Applicable Laws) net of any Withholding Tax, and OTC Clear shall have no obligation to gross-up any such payment or to pay any additional amount as a result of such deduction, withholding or payment of any such Tax or any such Withholding Tax.

1103. If:

(1) a Clearing Member is required by any Applicable Law, as modified by the practice of any relevant Governmental Authority, to make any deduction or withholding from any payment made to OTC Clear under the Clearing Documentation or any Contract for or on account of any Tax, in respect of which the Clearing Member would be required to pay an Additional Amount to OTC Clear under Clearing Rule 1101;

(2) the Clearing Member does not so deduct or withhold; and

(3) a liability resulting from such Tax is assessed directly against OTC Clear, then, except to the extent the Clearing Member has satisfied or then satisfies the liability resulting from such Tax, the Clearing Member will promptly pay to OTC Clear the amount of such liability (including any related liability for interest, penalties and costs).

1104. Each Clearing Member will pay any stamp, registration, documentation, excise, sales or value added Tax or any other similar Tax levied or imposed upon it or in respect of its execution or performance of any agreement, contract or transaction in connection with the Clearing Documentation and will indemnify OTC Clear against any such stamp, registration, documentation, excise, sales or value added Tax (to the extent that OTC Clear is not able, in OTC Clear's commercially reasonable judgment, to reclaim or recover such value added Tax) or any other similar Tax levied or imposed upon OTC Clear or in respect of OTC Clear's execution or performance of any agreement, contract or transaction in connection with the Clearing Documentation. Any payment required to be made by a Clearing Member to OTC Clear under this Clearing Rule 1104 shall include an additional amount equal to any Tax levied or imposed on OTC Clear as a result of the receipt of any payment under this Clearing Rule 1104.

1105. Each Clearing Member shall provide OTC Clear with sufficient Information so as to enable OTC Clear to determine whether any payments to be made by it under the Clearing Documentation or any Contract are withholdable payments pursuant to the Tax Information Exchange Framework and to enable OTC Clear to meet any applicable obligations relating to the Tax Information Exchange Framework.

PART IV RISK MANAGEMENT AND DEFAULT PROCEDURES

Chapter 12 Margin

Margin and Collateral

1201. Each Clearing Member shall, in respect of each Contract registered in its name, pay or provide, on demand by OTC Clear, Collateral in respect of Margin in such amounts, in such forms and at such times in accordance with the Clearing Procedures.

1202. OTC Clear will determine the amount of Initial Margin, Additional Margin and Variation Margin payable by or (in some cases in respect of Variation Margin) to each Clearing Member in accordance with the Clearing Procedures.

1203. Margin (including Initial Margin, Additional Margin and Variation Margin) in respect of the House Position Account and each Client Position Account, if any, of a Clearing Member will be calculated by OTC Clear separately and shall be satisfied by a Clearing Member in the manner set out in the Clearing Procedures.

Initial Margin, Additional Margin, Variation Margin, and Intra-day Variation Margin

1204. Each Clearing Member shall deliver sufficient Collateral as Margin as a pre-condition for (i) the registration of an Original Transaction by OTC Clear and (ii) the implementation of an Unwind Proposal by OTC Clear.

1205. OTC Clear shall calculate and, where appropriate, demand Initial Margin on each OTC Clear Clearing Day and Compression Execution Date, as applicable. In addition, OTC Clear may, from time to time, in its absolute discretion and on any OTC Clear Clearing Day and Compression Execution Date, make an intra-day call for Initial Margin.

1206. OTC Clear shall calculate the Variation Margin payable by or to a Clearing Member on each OTC Clear Clearing Day. If such calculation indicates an increase in the Variation Margin payable by a Clearing Member, OTC Clear will be entitled to demand additional Collateral from such Clearing Member.

1207. OTC Clear may on any OTC Clear Business Day demand Routine Intra-day Variation Margin from one or more Clearing Members. In addition, OTC Clear may on any OTC Clear Clearing Day demand from, or pay to, a Clearing Member Ad Hoc Intra-day Variation Margin. The amount of any Routine Intra-day Variation Margin or Ad Hoc Intra-day Variation Margin shall be calculated by OTC Clear using such methods as prescribed in the Clearing Procedures.

1208. OTC Clear may impose Additional Margin requirements on any Clearing Member in the circumstances described in section 4.5 of the Clearing Procedures, and may, at its discretion amend or withdraw any such Additional Margin requirements on any Clearing Member.

Margin Settlement

1209. Save where the Clearing Procedures require otherwise, Initial Margin and Additional Margin requirements (other than Notional Exchange Failure Margin requirements) may be satisfied by payment in cash in any Eligible Currency, or

by delivery of non-cash assets specified pursuant to section 7.3 of the Clearing Procedures.

1210. Save where the Clearing Procedures require otherwise, and subject to Clearing Rule 1211, Variation Margin requirements must be satisfied by payments in cash in the relevant Contractual Currency of each Contract pursuant to the relevant Contract Terms of such Contract.

1211. Notwithstanding Clearing Rule 1210, for the purpose of satisfying a Routine Intra-day VM Call and Ad Hoc Intra-day VM Call, a Clearing Member may, in lieu of payment of cash in an Eligible Currency, deliver to OTC Clear non-cash Collateral as is acceptable to OTC Clear in the manner and at or prior to the time specified in the Clearing Procedures. Any Collateral (cash or non-cash) delivered by a Clearing Member for satisfaction of a Routine Intra-day VM Call and Ad Hoc Intra-day VM Call on an OTC Clear Business Day shall not be taken into account when OTC Clear performs its end-of-day Variation Margin and/or Ad Hoc Intra-day VM Call calculation on such day. If, subsequent to the end-of-day Variation Margin calculation on such day, a Clearing Member delivers cash in the relevant Contractual Currency in full satisfaction of its end-of-day Variation Margin requirement determined for such day, such Clearing Member shall be entitled to request OTC Clear to redeliver any Collateral previously delivered by the relevant Clearing Member to satisfy a Routine Intra-day VM Call and Ad Hoc Intra-day VM Call under this Clearing Rule 1211 as Excess Margin provided that if it has opted to utilize its Excess Margin under Clearing Rule 1218A, it may only request such redelivery after it has notified OTC Clear in the manner described in section 3.9.1 or section 3.10.2, as the case may be, of the Clearing Procedures.

1212. If any Margin falls due and the Margin Balance of the relevant Clearing Member is insufficient to cover its Margin requirements as determined by OTC Clear, such Clearing Member shall deliver such Collateral in such form and manner and at or prior to the time specified in the Clearing Procedures.

1213. Cash delivered by Clearing Members to OTC Clear for satisfaction of their Margin requirements will be held by OTC Clear in accordance with the Clearing Procedures. Nothing in these Clearing Rules intends to create in favour of OTC Clear any mortgage, charge, lien, pledge, encumbrance or other security interest in any cash Collateral transferred by a Clearing Member to OTC Clear pursuant to these Clearing Rules. OTC Clear has the power to invest any cash Collateral delivered to it in accordance with its investment policy. OTC Clear may perform any such investment itself as it sees fit, or it may engage an independent third party to perform such investment.

A Clearing Member who intends to transfer non-cash Collateral for purposes of satisfying its Margin requirements shall execute all necessary documentation as may be required by OTC Clear in order to create, and perfect, a valid security interest over the relevant assets. OTC Clear will not re-use, rehypothecate or re-invest any non-cash Collateral delivered by Clearing Members as Margin. If OTC Clear accepts non-cash Collateral from Clearing Members as Margin, then the manner in which OTC Clear will hold such non-cash Collateral will be set out in the Clearing Procedures.

Acceptable Collateral for Margin and Rates and FX Contribution

1214. OTC Clear may restrict or add to the types of Eligible Currencies and acceptable Collateral, or modify any valuation procedures or haircuts set out in Chapter 7 of the Clearing Procedures, or impose a maximum on the amount of each type of Eligible Currency or Collateral which OTC Clear may accept for purposes of satisfying Margin requirements or Rates and FX Liability. In respect of any eligible non-cash Collateral, OTC Clear will only accept delivery of such non-cash Collateral if it is delivered in minimum tradable board lot size applicable to such non-cash Collateral and acceptable to OTC Clear's custodians. OTC Clear will use reasonable endeavours to provide Clearing Members with three-month's advance written notice prior to removing any Collateral from the then existing list of Eligible Currencies and acceptable Collateral. For the avoidance of doubt, OTC Clear may add to the types of Eligible Currencies and acceptable Collateral, or modify any valuation procedures or haircuts set out in the Clearing Procedures, at any time as it thinks fit. The value of any instruments which are not Eligible Currencies or acceptable Collateral will not be taken into account in determining the Margin Balance of such Clearing Member.

1215. OTC Clear may at any time, in its sole and absolute discretion, require a Clearing Member to transfer cash in other Eligible Currencies or other types of Collateral to it in substitution for any Collateral already transferred to it.

1216. OTC Clear may charge Clearing Members accommodation charges, administrative costs and/or commitment fees for credit lines in respect of any non-cash Collateral provided to it as Margin at a rate determined by OTC Clear and set out in the Fees Schedule (see Appendix I to the Clearing Procedures).

1216A. OTC Clear may incur charges or costs or receive negative interest rates when investing any Rates and FX Contribution delivered in the form of cash by Clearing Members. If it does so, OTC Clear shall be entitled to demand reimbursement of such amounts from the relevant Clearing Members.

1217. A Clearing Member may provide Collateral in excess of the Initial Margin and/or Additional Margin requirements applicable to any of its Position Account(s). Any such Collateral provided by a Clearing Member will be credited to the Collateral Account designated by the Clearing Member and shall form part of the Margin Balance relating to such Collateral Account. In addition, any Collateral provided for the purpose of satisfying Routine Intra-day VM Call and Ad Hoc Intra-day VM Call on an OTC Clear Business Day pursuant to Clearing Rule 1211 will not be taken into account when OTC Clear performs its end-of-day Variation Margin calculation in respect of the relevant Position Account on such day, and such Collateral shall form part of the Margin Balance relating to the relevant Collateral Account of such Clearing Member.

1218. A Clearing Member may request OTC Clear to redeliver Collateral in equivalent form and currency as any Collateral it has delivered to OTC Clear as Margin in a value not exceeding the Excess Margin; provided that if it has opted to utilize its Excess Margin under Clearing Rule 1218A, it may only request such redelivery after it has notified OTC Clear in the manner described in section 3.9.1 or section 3.10.2, as the case may be, of the Clearing Procedures. A Clearing

Member shall specify the exact form and currency of the relevant Collateral requested to be redelivered. Following receipt of such request, OTC Clear will deliver to such Clearing Member (in the manner described in section 4.7 of the Clearing Procedures) Collateral in equivalent form and currency as requested in an amount not exceeding the Excess Margin, except that OTC Clear may deliver Collateral in other form or currency determined by OTC Clear if:

(1) with respect to a Defaulting Clearing Member only, the relevant Collateral is delivered prior to any DMP Event and such Collateral or part thereof was applied in such DMP Event; or

(2) any part of the Collateral is of a type or currency that is subject to any foreign exchange or other settlement risk or disruption, as determined by OTC Clear, at the time such Collateral is due to be redelivered to Clearing Members.

1218A. A Clearing Member may opt to utilize its Excess Margin to reduce the Expected Uncollateralized Loss in respect of any of its Position Account(s), where Expected Uncollateralized Loss has the meaning given to it in section 6.1.1(4) of the Clearing Procedures (and as modified by section 6.1.1(8) of the Clearing Procedures if Client Clearing Services are provided by such Clearing Member) by giving OTC Clear no less than five Business Days' notice or such shorter notice period as determined by OTC Clear in its absolute discretion, provided that the Excess Margin to reduce the Expected Uncollateralized Loss for such Clearing Member shall not exceed 30% of the Rates and FX Guarantee Fund as calculated on the immediately preceding Rates and FX Contribution Determination Date. OTC Clear reserves the right at its absolute discretion to impose a lower cap on the Excess Margin that may be utilized to reduce the Expected Uncollateralized Loss for each Clearing Member. The Collateral provided in respect of such Excess Margin will be taken into account as part of the Margin Balance as recorded in the corresponding Collateral Account when OTC Clear performs its Rates and FX Guarantee Fund calculation in respect of the relevant Position Account.

Rights relating to Collateral in respect of Margin and Rates and FX Contribution and Representations of Clearing Members

1219. Unless otherwise stated in Clearing Rules 817 and 1310, OTC Clear will take no account of any right or interest which any Person other than the Clearing Member may have in any Collateral provided by, or on behalf of, such Clearing Member to OTC Clear. The operations of section 56(1) of the SFO shall be modified by this Clearing Rule 1219 as permitted under section 56(2) of the SFO.

1220. Each Clearing Member represents and warrants to OTC Clear that:

(1) immediately prior to delivery of the Collateral to OTC Clear, the Clearing Member is the sole legal and beneficial owner of all Collateral delivered to OTC Clear;

(2) any Collateral delivered to OTC Clear pursuant to these Clearing Rules is not subject to any Encumbrance whatsoever save for:

(a) any Encumbrance in favour of OTC Clear;

(b) any liens granted to the clearing systems through which the Collateral is being transferred;

(c) in the case of a Clearing Member who is a Rule-Based Clearing Member, the right of its Client to receive any Client Entitlement from OTC Clear under Clearing Rules 1308A and 1309; and

(d) in the case of a Clearing Member who is a Non Rule-Based Clearing Member, any Encumbrance created pursuant to a Security Deed;

(3) in delivering the Collateral to OTC Clear pursuant to these Clearing Rules, the Clearing Member is not in breach of any of its contractual obligations towards any third party or under any Applicable Laws;

(4) all filings and registrations necessary for the purpose of the creation, perfection, protection and maintenance of any security conferred or intended to be conferred on OTC Clear by or pursuant to any Deed of Charge between OTC Clear and the Clearing Member have been effected and are in full force and effect; and

(5) any Deed of Charge between OTC Clear and the Clearing Member creates in favour of OTC Clear the security which it is expressed to create with the ranking and priority it is expressed to have.

The representations and warranties made by a Clearing Member pursuant to this Clearing Rule 1220 shall be deemed to be repeated by such Clearing Member on each day Collateral is delivered to OTC Clear pursuant to these Clearing Rules.

1220A. Each Non Rule-Based Clearing Member represents and warrants to OTC Clear that:

(1) all filings and registrations necessary for the purpose of the creation, perfection, protection and maintenance of any security conferred or intended to be conferred on each Client by or pursuant to any Security Deed have been effected and are in full force and effect; and

(2) any Security Deed creates in favour of each Client identified therein security over the relevant Client Entitlement in respect of such Client that is legal, valid, binding and enforceable, in accordance with the terms of such deed.

The representations and warranties made by a Non Rule-Based Clearing Member pursuant to this Clearing Rule 1220A shall be deemed to be repeated by such Clearing Member on each day on which an Original Transaction is submitted for registration as part of such Clearing Member's Client Clearing Services and each day on which Collateral is delivered to OTC Clear pursuant to these Clearing Rules and in connection with such Clearing Member's Client Clearing Services.

1221. A Clearing Member shall be liable to OTC Clear for any Damage incurred by OTC Clear as a result of OTC Clear possessing, holding, perfecting the title to or

otherwise being associated with, any Collateral delivered by such Clearing Member.

Position Limits and Notional Exchange Risk Limits

1222. Pursuant to section 4.6.1 of the Clearing Procedures, unless with the prior written approval from OTC Clear, each Clearing Member is required to impose a House Account Limit in respect of its House Position Account and a Client Account Limit in respect of each of its Client Position Accounts, provided that OTC Clear may, at any time and from time to time, in its absolute discretion, in respect of each Position Account, override, amend or revoke any such Position Limits and/or impose an Absolute Risk Limit and/or a Notional Exchange Risk Limit.

1223. If a Clearing Member exceeds any Position Limits or Notional Exchange Risk Limits imposed, that Clearing Member must immediately notify OTC Clear and take appropriate steps to ensure that, within such period as OTC Clear may specify, it is in compliance with such Position Limits or Notional Exchange Risk Limits, as the case may be. In addition, OTC Clear may, at its discretion:

(1) require a Clearing Member to enter into risk-reducing Contracts, including, without limitation, the measures described in section 3.20 of the Clearing Procedures with respect to any exceedance of a Notional Exchange Risk Limit;

(2) demand such Additional Margin as OTC Clear in its discretion determines including, without limitation, Additional Margin be provided in specific settlement currency(ies) with respect to any exceedance of a Notional Exchange Risk Limit; and/or

(3) take such other action as OTC Clear in its discretion determines.

As further described in section 4.6.1 of the Clearing Procedures, OTC Clear will not register any Original Transactions submitted by a Clearing Member (or by a Designated Person on its behalf) if registration of any such Original Transactions will result in a breach of any Position Limits applicable to such Clearing Member.

1224. If the Clearing Member fails to comply with any requirement imposed on it pursuant to Clearing Rule 1223, the Clearing Member shall be in breach of these Clearing Rules and, without limitation, OTC Clear may, at its discretion, in respect of the Clearing Member concerned:

(1) declare an Event of Default under Clearing Rule 1301;

(2) suspend or terminate Membership of the Clearing Member;

(3) terminate or liquidate such Contracts as OTC Clear at its discretion selects on behalf of the Clearing Member;

(4) instigate an investigation or disciplinary proceedings under Chapter 14 of these Clearing Rules;

(5) impose such other requirements on the Clearing Member as it sees fit; and/or

(6) take such other action as OTC Clear in its discretion determines.

Chapter 13 Default Procedures

Clearing Member Event of Default

1301. In these Clearing Rules, an "**Event of Default**" shall mean any event or circumstance which leads OTC Clear to determine that a Clearing Member is or appears to be unable, or likely to become unable, to meet its obligations in respect of the Clearing Documentation and/or one or more Contracts to which it is party. Without prejudice to the generality of the immediately foregoing, OTC Clear may take the occurrence of any one or more of the following events or circumstances as sufficient ground for determining that a Clearing Member is or appears to be unable, or likely to become unable, to meet such obligations:

(1) failure by a Clearing Member to pay or deliver any amounts when due under the Clearing Documentation, including, without limitation, failure by a Clearing Member to pay any Remaining Balance in accordance with the time frame set out in, and under, Clearing Rule 1534 or failure by a Successful Bidder to pay any Auction Payment or Margin required following the completion of the auction of the relevant Auction Portfolio under Clearing Rule 1923;

(2) failure by a Clearing Member to comply with the Regulatory Capital Requirement;

(3) failure by a Clearing Member to maintain Capital in an amount not less than the Minimum Capital Requirement and such failure continues and is existing upon the expiry of the Minimum Capital Requirement Breach Period and the related Non-Default Unwind is not completed within 10 OTC Clear Business Days following the expiry of the Minimum Capital Requirement Breach Period;

(4) a Clearing Member makes a material misstatement or omission (whether in the Membership Agreement or otherwise) or misleads or attempts to mislead OTC Clear, a recognized exchange controller which is the controller of OTC Clear or their respective employees or officers;

(5) failure by a Clearing Member, within any required time period, to take any action required by OTC Clear to ensure compliance with the Clearing Documentation, including, without limitation, failure by a Clearing Member who is subject to disciplinary proceedings to commence the Non-Default Unwind following the expiry of the relevant Appeal Period pursuant to the terms of Clearing Rule 1409(1);

(6) in respect of a Clearing Member which is also a participant or member of any clearing and settlement system operated by HKEX or any of its Affiliates:

(a) failure to meet any obligation owed by it to the central counterparty or operator of such system;

(b) breach of the rules or terms of participation or membership of such system;

(c) declaration of default by, or suspension or expulsion from participation or membership of such system;

(7) the occurrence of a default, event of default or other similar condition or event (however described) in respect of the Clearing Member under one or more agreements or instruments relating to Indebtedness;

(8) breach of the rules or regulations of a Regulatory Authority to which it is subject or its authorization, licence or approval by a Regulatory Authority is suspended or withdrawn;

(9) the occurrence of Insolvency Proceedings with respect to a Clearing Member;

(10) the occurrence of a Financial Emergency with respect to a Clearing Member;

(11) a Clearing Member is convicted of any criminal offence relating to fraud, dishonesty or any act of bad faith under any Applicable Laws;

(12) a Clearing Member fails to comply with any actions prescribed by OTC Clear under Clearing Rule 1223;

(13) breach of any obligations, undertakings or representations by a Clearing Member under the Membership Agreement to which it is a party; or

(14) the occurrence of any of the above events in respect of (a) any Affiliate of the Clearing Member which in the opinion of OTC Clear has a material adverse effect on the ability of the Clearing Member to meet its obligations under the Clearing Documentation and/or one or more Contract to which it is a party, or (b) a person who has guaranteed or provided an indemnity in favour of OTC Clear in respect of any of the obligations of the Clearing Member.

For the events described in sub-paragraphs (1), (8) and (9) above and, to the extent analogous to sub-paragraphs (8) and (9) above, the event described in sub-paragraph (14) above, OTC Clear may, in its own right, determine whether or not an Event of Default has occurred pursuant to the relevant provisions. In all other cases, in determining whether an Event of Default has occurred with respect to a Clearing Member, OTC Clear will endeavour to consult the Risk Management Committee. Where OTC Clear endeavours to consult the Risk Management Committee but the Risk Management Committee is not available or cannot be convened sufficiently promptly in the circumstances, OTC Clear will consult the chief executive of OTC Clear, provided that if the chief executive of OTC Clear is unavailable at the time for any reason, any Representative of OTC Clear designated by the OTC Clear Board from time to time for purposes of the applicable determination may make such determination.

1302. A Clearing Member shall immediately give notice to OTC Clear if it is, or if it suspects that it is likely to become, unable to meet its obligations under the Clearing Documentation and/or one or more Contracts to which it is party.

Termination following a Clearing Member Event of Default

1303. OTC Clear may from time to time notify Clearing Members specific criteria (including but not limited to the jurisdiction of incorporation of a Clearing

Member) according to which the occurrence of an event described in paragraph (1), (3), (4), (5), (6) or, to the extent analogous thereto, (8) under the definition of Insolvency Proceedings with respect to a Clearing Member will constitute an "**Automatic Early Termination Event**" in respect of such Clearing Member. Where an Automatic Early Termination Event has occurred with respect to a Clearing Member as a result of an event described in paragraph (1), (3), (5), (6) or, to the extent analogous thereto, (8) under the definition of Insolvency Proceedings, an Early Termination Date in respect of all Contracts then registered in the name of such Clearing Member shall occur immediately upon the occurrence of the relevant event; and where an Automatic Early Termination Event has occurred with respect to a Clearing Member as a result of an event described in paragraph (4) or, to the extent analogous thereto, (8) under the definition of Insolvency Proceedings, an Early Termination Date in respect of all Contracts then registered in the name of such Clearing Member shall occur immediately preceding the institution of the relevant proceeding or the presentation of the relevant petition, and in each case, without the need for any other or prior notice or determination by OTC Clear. With effect from, and including, the date on which an Early Termination Date occurs with respect to all Contracts registered in a name of a Clearing Member as a result of an Automatic Early Termination Event, such Clearing Member shall become a Defaulting Clearing Member.

1304. Where an Event of Default has occurred and is continuing with respect to a Clearing Member but such Event of Default does not constitute an Automatic Early Termination Event, OTC Clear may exercise such rights it may have under these Clearing Rules (including without limitation any rights of suspension of Membership) and/or may send to the relevant Clearing Member a default notice declaring such Event of Default (the "**Notice of Default**"). With effect from, and including, the date on which such Clearing Member receives the Notice of Default, the Clearing Member shall become a Defaulting Clearing Member. OTC Clear will notify Non-Defaulting Clearing Members, the SFC and also members of the public following the occurrence of an Automatic Early Termination Event or declaration of an Event of Default with respect to a Clearing Member.

1305. Upon the occurrence of an Automatic Early Termination Event or delivery of a Notice of Default with respect to a Defaulting Clearing Member, OTC Clear may take such steps with respect to such Defaulting Clearing Member as in the circumstances appear to it, in its absolute discretion, best calculated:

(1) to discharge the Defaulting Clearing Member's rights, obligations and liabilities under or in respect of one or more or all Contracts to which the Defaulting Clearing Member is party;

(2) to minimize losses or the potential for losses to OTC Clear as a result of the default of the Defaulting Clearing Member; or

(3) without the need for any prior notice to or consent of such Defaulting Clearing Member:

(a) (where an Automatic Early Termination Event has not occurred) to terminate any Contract of the Defaulting Clearing Member by

designating an Early Termination Date in respect of such Contract;

(b) to apply any Collateral in the form of cash, and arranging for the liquidation of any non-cash Collateral and applying the proceeds of the realization of non-cash Collateral, for the absorption of losses incurred by OTC Clear as a result of the default of the Defaulting Clearing Member;

(c) to obtain any advice or assistance from the Defaulting Clearing Member and/or any third party as OTC Clear may deem necessary for any matter arising out of or in connection with an Event of Default and at the expense of the Defaulting Clearing Member, and/or

(d) to complete the process set out in Clearing Rules 1306, 1306A, 1306B, 1306C and 1307 in relation to such Defaulting Clearing Member,

in each case, acting in consultation with the Default Management Group and in accordance with the Default Management Process.

Upon the occurrence of any of (i) an Automatic Early Termination Event, (ii) the delivery of a Notice of Default in respect of a Clearing Member or (iii) any failure to pay by a Clearing Member (except, for the avoidance of doubt, to the extent that such payment is discharged by a Sponsored Settlement Member), OTC Clear shall not be obliged to: (a) pay any Notional Exchange Failure Adjustment Amount payable by it in respect of such Clearing Member; or (b) make any further payments or deliveries in respect of any Contract registered in the name of such Clearing Member, in either case which would otherwise have fallen due on or after such time, and upon the occurrence of an Early Termination Date in respect of such Contracts, any obligations to pay such Notional Exchange Failure Adjustment Amount or to make such further payments or deliveries and any amounts that are due but unpaid in respect of such Contracts shall be satisfied by the payment by, or to, the Defaulting Clearing Member of a single net sum to be determined in accordance with Clearing Rules 1306, 1306A, 1306B, 1306C and 1307, provided that if a Rates and FX Clearing Termination Event occurs at any time prior to the completion of the Default Management Process with respect to a Defaulting Clearing Member, no net sum shall be payable in accordance with Clearing Rules 1306, 1306A, 1306B, 1306C and 1307 and the applicable termination amounts shall instead be determined in accordance with Clearing Rules 1531 to 1540.

Calculations of Net Payment following a Clearing Member Event of Default

1306. Where the Defaulting Clearing Member has one House Position Account and one or more Client Position Account(s), each Position Account of the Defaulting Clearing Member shall constitute a separate “capacity” pursuant to Part 5 of Schedule 3 to the SFO so that no Client Position Account of the Defaulting Clearing Member shall be combined with any other Position Account of the Defaulting Clearing Member, and the process set out in Clearing Rules 1306A, 1306B, 1306C and 1307 shall be applied to each such capacity separately.

1306A Subject to Clearing Rules 1530 to 1540, subsequent to the completion of the Default Management Process with respect to a Defaulting Clearing Member (including, for the avoidance of doubt, the processes described in Clearing Rules 1516(1), 1516(2) and 1914) and the occurrence of an Early Termination Date in respect of all of the Defaulting Clearing Member's Contracts, for the purposes of Part 5 of Schedule 3 to the SFO, the single net sum payable by OTC Clear to such Defaulting Clearing Member, or by such Defaulting Clearing Member to OTC Clear, in respect of each capacity of the Defaulting Clearing Member relating to the House Account(s) and the Client Accounts of Non-Porting Clients shall be determined as follows:

(1) OTC Clear will determine the aggregate trade value in respect of all of the Contracts in the relevant Position Account in accordance with Clearing Rule 1307. Such aggregate trade value may be zero, positive or negative. A positive aggregate trade value indicates an overall sum being payable by OTC Clear to the Defaulting Clearing Member in respect of such capacity; and a negative aggregate trade value indicates an overall sum being payable by the Defaulting Clearing Member to OTC Clear in respect of such capacity;

(2) if the aggregate trade value determined pursuant to sub-paragraph (1) above is a negative number, such value shall be netted against the value (expressed as a positive number) of all Collateral (including the proceeds of the realization of such Collateral) held by OTC Clear in respect of such capacity as Initial Margin, Additional Margin, Routine Intra-day Variation Margin and Ad Hoc Intra-day Variation Margin in respect of the relevant Position Account and comprising the Margin Balance of the corresponding Collateral Account and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Defaulting Clearing Member, each as at the Early Termination Date, reflecting the application of such resources towards (i) Unpaid Amounts in respect of the relevant Position Account pursuant to Clearing Rules 1516(1)(a) or 1516(2)(a), as applicable, (ii) the Auction Losses and/or Contract Termination Losses relating to the relevant Position Account pursuant to Clearing Rule 1914(1) and (iii) in the case of the House Position Account, General Losses pursuant to Clearing Rule 1516(1)(a). If the aggregate trade value determined pursuant to sub-paragraph (1) above is zero or a positive number, such value shall be aggregated with the value (expressed as a positive number) of all Collateral (including any proceeds of the realization of such Collateral) held by OTC Clear in respect of such capacity as Initial Margin, Additional Margin, Routine Intra-day Variation Margin and Ad Hoc Intra-day Variation Margin in respect of the relevant Position Account and comprising the Margin Balance of the corresponding Collateral Account and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Defaulting Clearing Member, each as at the Early Termination Date;

(3) if the net sum determined pursuant to sub-paragraph (2) above in respect of the House Position Account is a positive number (a "**House Credit**"), such House Credit shall be used to set off against each

negative net sum determined pursuant to sub-paragraph (2) above for a Client Account of Non-Porting Client(s) (a "**Non-Porting Client Deficit**"), by applying such House Credit to each Non-Porting Client Deficit in the proportion that the absolute value of the Non-Porting Client Deficit of each particular Client Account bears to the absolute value of the aggregate of the Non-Porting Client Deficits for all Client Accounts of Non-Porting Clients of the Defaulting Clearing Member; and

(4) if the net sum determined pursuant to sub-paragraphs (1) to (2) above for a Client Account of a Non-Porting Client(s) is a positive number, such amount (the "**Non-Porting Client Credit**") shall form part of the Client Entitlement to be returned to the Client(s) pursuant to Clearing Rule 1309. If the net sum determined pursuant to sub-paragraph (3) above for a Client Account of a Non-Porting Client(s) remains a negative number (a "**Remaining Non-Porting Client Deficit**"), such amount shall be further netted as set out in Clearing Rule 1306B below. At the end of the processes referred to in sub-paragraphs (1) to (3) above, in respect of each Client Account of Non-Porting Client(s), OTC Clear shall certify a single net sum as being payable by OTC Clear to the Defaulting Clearing Member (in the case of Client Accounts with a Non-Porting Client Credit) or by the Defaulting Clearing Member to OTC Clear (in the case of Client Accounts with a Remaining Non-Porting Client Deficit) or, if there is no such net sum (in the case of Client Accounts where a Non-Porting Client Deficit becomes zero), OTC Clear shall certify that fact.

1306B. If the net sum determined pursuant to Clearing Rule 1306A(2) in respect of the House Position Account is a negative number or, in the case of a Client Account with a Remaining Non-Porting Client Deficit:

(1) such negative sum shall then be further netted against the value (expressed as a positive number) of all Collateral (including the proceeds of the realization of such Collateral) held by OTC Clear as,

(a) the Rates and FX Contribution Balance recorded in such Defaulting Clearing Member's GF Account as at the Early Termination Date to the extent that any Rates and FX Losses are allocated to such Defaulting Clearing Member in accordance with Clearing Rules 1516(1)(b), 1516(2)(b) 1914(2) and 1916(2), and in the amount of such Rates and FX Losses allocated; and

(b) any remaining Rates and FX Contribution Balance relating to such Defaulting Clearing Member that is not allocated pursuant to sub-paragraph (1)(a) above after taking into account any application of such remaining Rates and FX Contribution Balance by OTC Clear pursuant to Clearing Rule 1548,

so as to produce a single net sum (if any) payable by or to the Defaulting Clearing Member;

(2) (i) the net sum of the House Account and each Client Account of Non-Porting Client(s) determined pursuant to sub-paragraph (1) above and (ii) any unused Rates and FX Contribution Balance recorded in such Defaulting Clearing Member's GF Account after being applied pursuant

to Clearing Rules 1516(1)(b), 1516(2)(b) and 1914(2) and taking into account the operation of Clearing Rule 1548 shall be aggregated to arrive at a further net sum. If the further net sum determined is a positive number, then OTC Clear shall pay such net sum to the Defaulting Clearing Member, and if the further net sum determined is a negative number, then the Defaulting Clearing Member shall pay such net sum to OTC Clear;

(3) any property which has been provided by the Defaulting Clearing Member as market collateral shall cease to be market collateral (for the purpose of this sub-paragraph, the term "market collateral" bears the meaning set out in section 18 of the SFO); and

(4) OTC Clear shall certify the net sum referred to in this Clearing Rule 1306B as being payable by OTC Clear to the Defaulting Clearing Member or by the Defaulting Clearing Member to OTC Clear, or, if there is no such net sum, OTC Clear shall certify that fact.

1306C. If the net sum determined pursuant to Clearing Rule 1306A(2) in respect of the House Position Account is zero, if there is a House Credit and no Non-Porting Client Deficits or, if there is a surplus after applying the House Credit to each Non-Porting Client Deficit pursuant to Clearing Rule 1306A(3), then:

(1) such amount shall then be aggregated with the value (expressed as a positive number) of all Collateral (including the proceeds of the realization of such Collateral) held by OTC Clear as,

(a) the Rates and FX Contribution Balance recorded in such Defaulting Clearing Member's GF Account as at the Early Termination Date to the extent that any Rates and FX Losses are allocated to such Defaulting Clearing Member in accordance with Clearing Rules 1516(1)(b), 1516(2)(b), 1914(2) and 1916(2), and in the amount of such Rates and FX Losses allocated; and

(b) any remaining Rates and FX Contribution Balance relating to such Defaulting Clearing Member that is not allocated pursuant to sub-paragraph (1)(a) above after taking into account any application of such remaining Rates and FX Contribution Balance by OTC Clear pursuant to Clearing Rule 1548,

so as to produce a single net sum (if any) payable to the Defaulting Clearing Member.

Any property which has been provided by the Defaulting Clearing Member as market collateral shall cease to be market collateral (for the purpose of this sub-paragraph, the term "market collateral" bears the meaning set out in section 18 of the SFO); and

(2) OTC Clear shall certify the net sum referred to in this Clearing Rule 1306C as being payable by OTC Clear to the Defaulting Clearing Member or, if there is no such net sum, OTC Clear shall certify that fact.

1307. Subject to Clearing Rules 1914(1)(c) and 1914(1)(d), the aggregate trade value in respect of all Contracts in a Position Account for the purposes of Clearing

Rule 1306A(1) above shall be an amount equal to the aggregate of the following (without double-counting): (i) the aggregate Auction Payments relating to that Position Account (if any), (ii) minus the aggregate Auction Losses relating to that Position Account (if any), (iii) plus the Unpaid Amounts due from OTC Clear to the Defaulting Clearing Member in respect of all Contracts in that Position Account (if any), (iv) minus the Unpaid Amounts due from the Defaulting Clearing Member to OTC Clear in respect of all Contracts in that Position Account (if any), (v) plus the Unsettled VM Amount in respect of the Auction Contracts and Auction Failed Positions of that Position Account (to the extent that such Unsettled VM Amount is payable by OTC Clear to the Defaulting Clearing Member (if any)), (vi) plus the aggregate Contract Termination Net Payments payable by Non-Defaulting Clearing Members to OTC Clear as a result of a Contract Termination Event relating to that Position Account (if any), (vii) minus the aggregate Contract Termination Losses as a result of a Contract Termination Event relating to that Position Account (if any), and (viii) in the case of the House Position Account only, minus the aggregate General Losses relating to that Position Account (if any).

OTC Clear will determine such aggregate trade value in the Base Currency, and for the purpose of the calculations under Clearing Rule 1306 to Clearing Rule 1309, OTC Clear may convert any amounts denominated in other currencies into the Base Currency at such rate prevailing at the time of the calculation as it shall reasonably select.

A certificate issued by OTC Clear under Clearing Rules 1306A, 1306B and 1306C in respect of a separate capacity of the Defaulting Clearing Member shall be conclusive as to the discharge of the Defaulting Clearing Member's rights and liabilities in respect of the Contracts registered in its name in such capacity, and OTC Clear and the Defaulting Clearing Member shall duly pay any net sums certified under Clearing Rules 1306A, 1306B and 1306C to each other at the time and in such manner prescribed in these Clearing Rules. If OTC Clear does not have sufficient Base Currency to satisfy any net sum payable under Clearing Rules 1306A, 1306B and 1306C, OTC Clear may satisfy such net sum payable to the Defaulting Clearing Member in any other Eligible Currency such that the overall payment made by OTC Clear to the Defaulting Clearing Member will be equal to the Base Currency value determined pursuant to Clearing Rules 1306A, 1306B and 1306C. Pursuant to Clearing Rule 823(2) and section 3(c) of Part 5 of Schedule 3 to the SFO, a Clearing Member's House Credit may be applied by OTC Clear to set-off any liabilities of that Clearing Member to OTC Clear, including such Clearing Member's Non-Porting Client Deficits.

The process described in Clearing Rules 1306A, 1306B and 1306C with respect to each Defaulting Clearing Member and each of their capacities will only be performed upon the expiry of the Capped Liability Period relating to the relevant DMP Event. Upon the completion of the process in Clearing Rules 1306A, 1306B and 1306C, OTC Clear will make a report as required by section 47(1)(a) of the SFO.

(3) OTC Clear shall on, or as soon as reasonably practicable after, the Early Termination Date, calculate a net sum payable by or to each Clearing Member separately in relation to each Position Account registered in the name of such Clearing Member. In determining such net sum, OTC Clear will take into account the close-out values established for each Contract pursuant to sub-paragraph (1) above, and the value of all other amounts which is due to OTC Clear from the Clearing Member under these Clearing Rules or which is due to it from OTC Clear (other than OTC Clear's obligation to return any unused Margin Balance, any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the relevant Clearing Member or Former Clearing Member and/or Rates and FX Contribution Balance to the relevant Clearing Member or Former Clearing Member), in each case, whether future, liquidated or unliquidated, actual or contingent. There shall be no combining or set-off between any House Position Account and Client Position Account(s), or between two or more Client Position Accounts. OTC Clear will determine any such net sum payable by, or to, a Clearing Member in the Base Currency. For the purpose of the determination under this sub-paragraph (3), OTC Clear may convert any amounts denominated in any other currency into the Base Currency at such rate prevailing at the time of the calculation as it shall reasonably select;

(4) If, pursuant to sub-paragraph (3) above, a net sum is determined to be payable by a Clearing Member to OTC Clear with respect to one or more of its Position Accounts, OTC Clear shall reduce each such sum by application of the Outright Transfer Margin Balance, if any, relating to the relevant Position Account. With respect to each Clearing Member and each of its Position Account(s), after application of the Outright Transfer Margin Balance relating to the relevant Position Account:

(a) if there remains a balance payable by the Clearing Member to OTC Clear for such Position Account (the "**CM Payable Balance**"), OTC Clear will, as soon as reasonably practicable, notify the relevant Clearing Member of the CM Payable Balance, and the relevant Clearing Member shall pay OTC Clear the CM Payable Balance within three OTC Clear Business Days following receipt of such notification; and

(b) if the Clearing Member fails to pay the CM Payable Balance within the time frame set out in sub-paragraph (4)(a) above, OTC Clear may declare an Event of Default in respect of such Clearing Member. OTC Clear may, in satisfaction of any due but unpaid CM Payable Balance in respect of a Position Account, apply the proceeds of enforcement of any non-cash Collateral comprising the

Margin Balance of the corresponding Collateral Account and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by such Clearing Member;

(5) if, pursuant to sub-paragraph (3) above, a net sum is determined to be payable by OTC Clear to a Clearing Member with respect to one or more of its Position Accounts, each such sum shall form part of an OTC Clear Default CM Receivable with respect to the relevant Position Account;

(6) with respect to each Clearing Member and each of its Position Account(s), taking into account (if applicable) the operation of sub-paragraph (4) above:

(a) any unused Outright Transfer Margin Balance and, if applicable, any remaining proceeds of enforcement of non-cash Collateral further to the application of sub-paragraph (4)(b) above for such Position Account shall be returned to the Clearing Member; and

(b) any non-cash Collateral provided to OTC Clear on a security interest basis and comprising the Margin Balance of the Collateral Account corresponding to such Position Account and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Clearing Member shall be redelivered to the Clearing Member in accordance with the relevant security document;

(7) following the completion of the processes described in sub-paragraphs (4) to (6) above:

(a) OTC Clear shall, with respect to each Position Account (without regard to its obligation to return any unused Rates and FX Contribution Balance to the relevant Clearing Member or Former Clearing Member), determine the resulting net sum payable by a Clearing Member to OTC Clear for such Position Account (such sum, an "OTC Clear Default Interim CM Payable"), or the resulting net sum payable by OTC Clear to a Clearing Member for such Position Account (such sum, an "**OTC Clear Default CM Receivable**");

(b) OTC Clear shall notify the relevant Clearing Member of its OTC Clear Default Interim CM Payable(s) or OTC Clear Default CM Receivable(s). Each Clearing Member that receives a notice to pay any OTC Clear Default Interim CM Payable shall pay each such amount to OTC Clear in full within three OTC Clear Business Days following receipt of such notification;

(c) if a Clearing Member fails to pay any OTC Clear Default Interim CM Payable in full within the time frame set out in sub-paragraph (7)(b) above, regardless of whether such OTC Clear Default Interim CM Payable arises out of a House Position Account or Client Position Account belonging to such Clearing Member, OTC Clear may apply any unused Rates and FX Contribution Balance then held by OTC

Clear in respect of such Clearing Member against the unpaid OTC Clear Default Interim CM Payable;

(d) with respect to a Clearing Member and each of its Position Account(s) with an OTC Clear Default Interim CM Payable, following the application of any unused Rates and FX Contribution Balance as described in sub-paragraph (7)(c) above, OTC Clear shall determine the final net sum payable by the Clearing Member, if any (each a "**OTC Clear Default Final CM Payable**") with respect to such Position Account, and notify such Clearing Member of the same. Each Clearing Member that receives a notice to pay any OTC Clear Default Final CM Payable shall pay each such amount to OTC Clear in full at or prior to the time specified by OTC Clear; and

(e) for the avoidance of doubt, a Clearing Member may have an OTC Clear Default Interim CM Payable or OTC Clear Default Final CM Payable in respect of one Position Account registered in its name, but an OTC Clear Default CM Receivable in respect of another Position Account registered in its name;

(8) with respect to each Clearing Member who has an OTC Clear Default CM Receivable, and each Clearing Member or Former Clearing Member with any unused Rates and FX Contribution Balance (taking into account the operation of sub-paragraph (7)(c) above), OTC Clear shall pay each such Clearing Member or Former Clearing Member in proportion to the value of their respective claims on OTC Clear under sub-paragraph (7) above in the following manner:

(a) OTC Clear shall, until the time specified in sub-paragraph (9) below, take reasonable steps to recover any unpaid OTC Clear Default Final CM Payables. and may deduct from such amounts any reasonable costs in connection with such recovery;

(b) following receipt of all or some (if any Clearing Member defaults in its payment of the relevant OTC Clear Default Final CM Payable) OTC Clear Default Final CM Payables, OTC Clear will calculate a percentage ("**OTC Clear Default Applicable Percentage**") equal to the lesser of:

(A) 100%; and

(B) (I) the aggregate value of (i) the Rates and FX Guarantee Resources then held by OTC Clear, (ii) any Margin Balance and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Clearing Members or Former Clearing Members applied pursuant to Clearing Rules 1324(3) and/or 1324(4)(b) and (iii) all OTC Clear Default Final CM Payables received; divided by

(II) the aggregate value representing the sum of (i) all OTC Clear Default CM Receivables and (ii) any unused Rates and FX Contribution Balance then held by OTC Clear in

respect of all Clearing Members or Former Clearing Members (taking into account the operation of subparagraph (7)(c) above);

(c) OTC Clear shall pay each Clearing Member with an OTC Clear Default CM Receivable an amount equal to the OTC Clear Default Applicable Percentage of such OTC Clear Default CM Receivable;

(d) OTC Clear shall pay each Clearing Member or Former Clearing Member with unused Rates and FX Contribution Balance an amount equal to the OTC Clear Default Applicable Percentage of such unused Rates and FX Contribution Balance, provided that the aggregate sum payable by OTC Clear in respect of unused Rates and FX Contribution Balance for all Clearing Member(s) and Former Clearing Member(s) shall never exceed the value of the Rates and FX Guarantee Resources then held by OTC Clear. Once the Rates and FX Guarantee Resources have been exhausted, the unpaid balance of any unused Rates and FX Contribution Balance shall be extinguished; and

(e) all payments made under this sub-paragraph (8) shall be made in the Base Currency provided that if OTC Clear does not have sufficient Base Currency to satisfy such payment, it may satisfy such payment obligation in any other Eligible Currency. For this purpose OTC Clear shall be entitled to convert any amounts denominated in the Base Currency into any other Eligible Currency (or vice versa) at such rate prevailing at the time of settlement as it shall reasonably select;

(9) if OTC Clear determines that no further amounts in respect of any OTC Clear Default Final CM Payables are likely to be recovered and notifies the same to the relevant Clearing Member(s) and Former Clearing Member(s), then the unpaid balance of any OTC Clear Default CM Receivable and/or unused Rates and FX Contribution Balance shall thereafter be extinguished and the relevant Clearing Member(s) and Former Clearing Member(s) shall have no further recourse to OTC Clear (its Affiliates, a recognized exchange controller which is the controller of OTC Clear, or any of their respective Representatives) in respect thereof; and

(10) OTC Clear will, as soon as reasonably practicable, inform the SFC of the occurrence of an OTC Clear Failure to Pay Event or OTC Clear Insolvency Event upon becoming aware of the same.

1325. The obligations of a Clearing Member to pay any amounts due and payable to OTC Clear pursuant to the Clearing Documentation shall survive the Membership Termination Date relating to such Clearing Member.

Chapter 14 Disciplinary Actions and Proceedings

Situations Calling for Disciplinary Action

1401. OTC Clear may commence disciplinary proceedings against a Clearing Member:

(1) if the Clearing Member contravenes any provisions of the Clearing Documentation or any conditions attached to its Membership, including any breach of its obligations, undertakings or representations by the Clearing Member under the Membership Agreement to which it is a party;

(2) if the Clearing Member commits any act or omits to commit any act relating to its clearing activities which may adversely affect the reputation of OTC Clear, or the soundness or integrity of OTC Clear as a recognized clearing house;

(3) if OTC Clear has determined that an Event of Default (excluding an Automatic Early Termination Event) has occurred in relation to that Clearing Member;

(4) if the Clearing Member fails to provide information requested by an exchange, clearing house, Regulatory Authority or an organization with whom HKEX or OTC Clear has entered into an information sharing agreement;

(5) if the Clearing Member fails to participate in the Default Management Process when required to do so under the Clearing Documentation or OTC Clear, after consultation with the Risk Management Committee, determines that the Clearing Member participated in the Default Management Process in bad faith;

(6) if a Clearing Member is subject to an adverse finding by any Governmental Authority, Clearing Organization or Regulated Exchange in respect of its activities as a Clearing Member;

(7) if the Clearing Member refuses to answer fully questions or produce books, records or other documents as may be required at or during the course of any disciplinary investigation or proceedings, or testifies falsely;

(8) if the Clearing Member refuses to appear before the Disciplinary Committee, the Disciplinary Appeals Committee or any other committee of OTC Clear duly constituted under these Clearing Rules to deal with disciplinary matters, at or during the course of any disciplinary investigation or proceedings; or

(9) if the Clearing Member fails to meet or comply with any disciplinary sanction or other requirement imposed on it.

OTC Clear will notify the relevant Regulatory Authority of a Remotely Regulated Entity in case any disciplinary proceedings have been commenced by OTC Clear against such Remotely Regulated Entity.

1402. An initial election by OTC Clear to commence disciplinary proceedings against a Clearing Member with respect to whom an Event of Default (excluding Automatic Early Termination Event) has occurred shall not prejudice, or otherwise affect, OTC

Clear's right to subsequently deliver a Notice of Default, provided that an Event of Default is then in existence and continuing (regardless of whether such event constitutes the same, or different, ground of Event of Default which leads to the disciplinary action taken by OTC Clear pursuant to Clearing Rule 1401(3)).

Co-operation

1403. In any investigation into a disciplinary matter or into circumstances possibly giving rise to a disciplinary matter, every Clearing Member shall co-operate with OTC Clear, the OTC Clear Board, the Disciplinary Committee, the Disciplinary Appeals Committee, a recognized exchange controller which is the controller of OTC Clear, the SFC and any other Person or body of Persons to whom the investigation may be entrusted.

Notification

1404. Any proposal to take disciplinary proceedings, and the outcome of any disciplinary proceedings, shall be notified to the SFC.

Disciplinary Actions

1405. Without prejudice to any other rights OTC Clear may have, following the conclusion of disciplinary proceedings carried out against a Clearing Member pursuant to Clearing Rules 1406 to 1408, the Disciplinary Committee may impose no disciplinary action or any of the following disciplinary actions:

(1) to terminate the Membership of a Clearing Member;

(2) to call upon a Clearing Member, by written notice, to resign pursuant to Clearing Rule 604. If the relevant Clearing Member fails to tender its notice of resignation within seven days of receipt of such notice from OTC Clear, OTC Clear may exercise its power to terminate the Membership of such Clearing Member;

(3) to suspend a Clearing Member from Membership pursuant to Clearing Rules 601 to 603 on such terms and for such period as OTC Clear shall think fit;

(4) to impose a fine on a Clearing Member;

(5) to censure publicly or privately a Clearing Member;

(6) to issue a warning, including, as appropriate, a requirement that certain actions be taken (which may include a requirement that the Clearing Member cease and desist from certain actions) within the period specified in the warning and specifying the sanction (including a fine, suspension or revocation) in the event that such actions are not taken within the specified period;

(7) to require for rectification or other remedial action or restitutionary measures to be taken by the Clearing Member within a stipulated period, including, if appropriate, the appointment of independent accountants, solicitors, consultants or other professionals in connection therewith;

(8) to notify the matter to any competent authority to which a Clearing Member is subject; or

(9) to take such other disciplinary action as the Disciplinary Committee shall consider appropriate in the circumstances.

The Disciplinary Appeals Committee may, following the conclusion of appeal hearings carried out pursuant to Clearing Rules 1409 and 1410, overturn any decision made by the Disciplinary Committee or impose any of the disciplinary actions set out in sub-paragraphs (1) to (8) above or take such other disciplinary action as the Disciplinary Appeals Committee shall consider appropriate in the circumstances.

Procedures relating to Disciplinary Committee

1406. If OTC Clear proposes to commence disciplinary proceedings against a Clearing Member in respect of any situation set out in Clearing Rule 1401, it shall provide the Clearing Member and the Disciplinary Committee a notice (the "**Notice of Disciplinary Committee Hearing**") at least 10 OTC Clear Business Days prior to the proposed date of the hearing, and the Notice of Disciplinary Committee Hearing shall include:

(1) the statement of case which shall comprise the charge(s), a summary of the facts to be relied on alleged to give rise to that situation;

(2) a copy of the documents in the possession of OTC Clear which are relied on to support the facts alleged, as well as a copy of any document in the possession of OTC Clear which contradicts the alleged facts; and

(3) the date, time and place of the hearing,

provided that OTC Clear shall have the power (either on its own initiative or upon a request received from the Clearing Member) to postpone or adjourn such hearing to a date, time and place to be determined by OTC Clear. In case of such proposed postponement or adjournment, OTC Clear shall notify the Clearing Member at least 10 OTC Clear Business Days prior to the date on which such proposed or adjourned hearing is due to take place.

1407. The Clearing Member shall have the right to attend the hearing of the Disciplinary Committee and to make representations, and may be legally represented at such hearing. A representative of OTC Clear may also make representations on behalf of OTC Clear.

1408. The Disciplinary Committee will communicate the outcome of such hearing, including any action to be taken by OTC Clear, and/or order as to costs by way of provision of a notice (the "**Initial Order Notice**") to the relevant Clearing Member. Such Initial Order Notice shall set out in reasonable detail the reasons for the conclusions of the Disciplinary Committee.

Appeals to the Disciplinary Appeals Committee

1409. Following receipt of the Initial Order Notice, a Clearing Member may appeal to the Disciplinary Appeals Committee on one of the grounds set out in Clearing Rule 1411 within the Appeal Period, where the "**Appeal Period**" means:

(1) three OTC Clear Business Days from the date of receipt of the Initial Order Notice by a Clearing Member if the Initial Order Notice indicates that such Clearing Member's Membership shall be terminated. If the relevant Clearing Member does not appeal within the Appeal Period, it shall commence the

Non-Default Unwind immediately and its Membership Termination Date shall fall on the OTC Clear Clearing Day on which each of the:

(a) Initial Margin requirements (in respect of each Position Account of such Clearing Member) shown on the end-of-day Margin report published on such day; and

(b) the net notional of all Contracts recorded in the name of such Clearing Member,

becomes zero.

Failure by a Clearing Member to commence the Non-Default Unwind following the expiry of the Appeal Period pursuant to this Clearing Rule 1409(1) shall constitute an Event of Default with respect to such Clearing Member; and

(2) 10 OTC Clear Business Days from the date of receipt of the Initial Order Notice by a Clearing Member if the Initial Order Notice indicates that OTC Clear will take disciplinary measures against the relevant Clearing Member other than termination of its Membership. If no appeal is brought by the Clearing Member prior to the expiry of the Appeal Period, then OTC Clear may, at the end of the Appeal Period, immediately enforce the proposed disciplinary action as set out in the Initial Order Notice against such Clearing Member.

A Clearing Member shall clearly indicate the ground(s) of appeal in its request to appeal. An appeal shall be deemed invalid if a Clearing Member fails to clearly indicate the ground(s) of appeal in its request to appeal within the Appeal Period.

1410. If an appeal on one of the grounds set out in Clearing Rule 1411 is lodged by a Clearing Member within the Appeal Period, then OTC Clear will provide such Clearing Member and the Disciplinary Appeals Committee a notice (the "**Notice of Disciplinary Appeals Committee Hearing**") stating the date, time and place where the appeal hearing will take place, provided that OTC Clear shall have the power (either on its own initiative or upon a request received from the Clearing Member) to postpone or adjourn such hearing to a date, time and place to be determined by OTC Clear. In case of such proposed postponement or adjournment, OTC Clear shall notify the Clearing Member at least 10 OTC Clear Business Days prior to the date on which such proposed or adjourned hearing is due to take place.

Grounds for Appeal

1411. The Disciplinary Appeals Committee shall hear and determine appeals against a decision of the Disciplinary Committee on the following grounds:

(1) that the Disciplinary Committee misdirected or misconducted itself contrary to these Clearing Rules or the rules of natural justice;

(2) that the Disciplinary Committee's decision was one which no reasonable Disciplinary Committee could have reached;

(3) that the Disciplinary Committee's decision was based on an error of law or a gross misinterpretation of these Clearing Rules; or

(4) that any disciplinary action or penalty imposed by the Disciplinary Committee is unduly excessive,

provided that in each case, the onus of proof lies with the Clearing Member who appeals against the decision of the Disciplinary Committee as set out in the Initial Order Notice.

1412. The Clearing Member shall have the right to attend the hearing of the Disciplinary Appeals Committee and to make representations and shall be permitted to be legally represented at such hearing. A representative of OTC Clear may also make representations on behalf of OTC Clear.

1413. Unless otherwise determined by OTC Clear or the Disciplinary Appeals Committee, pending the outcome of any appeal to the Disciplinary Appeals Committee, the decision being appealed against shall be stayed from the date on which the appeal is lodged by the Clearing Member.

1414. The decision of the Disciplinary Appeals Committee on an appeal made to it pursuant to these Clearing Rules shall be final and conclusive. The Disciplinary Appeals Committee will issue and communicate the outcome of such hearing including any action to be taken by OTC Clear and/or order as to costs by way of provision of a notice (the "**Final Order Notice**") to the relevant Clearing Member.

Order as to Costs

1415. Where disciplinary proceedings are commenced against a Clearing Member, the Disciplinary Committee or Disciplinary Appeals Committee, as appropriate, may order any party to the disciplinary proceedings to pay or share such costs and expenses including, without limitation, the remuneration and expenses of the members of the Disciplinary Committee and/or the Disciplinary Appeals Committee adjudicating at the hearing, legal costs, administration costs and expenses, and costs and expenses incurred in the investigation, preparation and presentation of the case.

1416. Subject to Clearing Rule 1417, any costs awarded against a Clearing Member at any disciplinary hearing shall be payable within 10 OTC Clear Business Days of the delivery of the Initial Order Notice (if not appealed) or the Final Order Notice, as applicable and the determination of the amount of the costs.

1417. The Disciplinary Appeals Committee may affirm or reassess any order of costs made by the Disciplinary Committee whether or not an appeal is allowed, dismissed or withdrawn, and such order as to costs made by the Disciplinary Appeals Committee, if any, shall come into effect on the service of the Final Order Notice on the Clearing Member.

Chapter 15 Rates and FX Guarantee Resources

Rates and FX Guarantee Resources Purpose

1501. The purpose of the Rates and FX Guarantee Resources is to provide resources to support the obligations of OTC Clear as a counterparty under Contracts in respect of the Rates and FX Clearing Service but not for any other clearing service that OTC Clear may from time to time offer, and shall only be used in accordance with these Clearing Rules. The Rates and FX Guarantee Resources comprise the Rates and FX Guarantee Fund, Rates and FX Assessments and OTC Clear Contribution.

1502. Each Clearing Member agrees and acknowledges that, for the purpose of securing its liabilities (including to indemnify OTC Clear in the circumstances described in Clearing Rule 1316), it shall provide Collateral on an outright transfer basis in respect of its CM Funded Contribution Amount and CM Unfunded Contribution Amount, each in an amount determined by OTC Clear in accordance with the Clearing Procedures. With respect to a Defaulting Clearing Member, for the purpose of securing its liabilities to OTC Clear in connection with the settlement of its Contracts, the Rates and FX Contribution Balance of such Defaulting Clearing Member shall be taken into account by OTC Clear when determining the net sum payable by, or to, such Defaulting Clearing Member in accordance with Clearing Rules 1306B and 1306C. With respect to a Non-Defaulting Clearing Member, for the purpose of securing its liabilities to indemnify OTC Clear in the circumstances described in Clearing Rule 1316(2), the Rates and FX Contribution Balance of each Non-Defaulting Clearing Member may be applied in accordance with Clearing Rule 1549. Unless otherwise specified in Clearing Rule 1508(1)(a), each Clearing Member must satisfy a demand for CM Funded Contribution Amount and/or CM Unfunded Contribution Amount within one OTC Clear Business Day following the receipt of such demand from OTC Clear.

Calculations relating to the Rates and FX Guarantee Fund, Rates and FX Assessments and Rates and FX Contribution Balance

1503. Subject to Clearing Rule 1508, OTC Clear shall calculate the Rates and FX Guarantee Fund and Rates and FX Assessments and resize the CM Funded Contribution Amount and CM Unfunded Contribution Amount for each Clearing Member, in each case as detailed in section 6.1 of the Clearing Procedures, on each Rates and FX Contribution Determination Date. A "**Rates and FX Contribution Determination Date**" will occur on:

(1) the first or second OTC Clear Business Day of each calendar month, as may be notified by OTC Clear;

(2) on any date if the Max EUL calculated on such date changes by more than 20% from the Max EUL calculated on the immediately preceding Rates and FX Contribution Determination Date, where "Max EUL" has the meaning given to it in section 6.1.1(6) and as modified by section 6.1.1(8) of the Clearing Procedures if Client Clearing Services are provided by one or more Clearing Members on OTC Clear Clearing Days falling within the GF Calculation Period relating to such Rates and FX Contribution Determination Date; and

(3) upon expiry of a Capped Liability Period pursuant to Clearing Rule 1508(2).

The Rates and FX Contribution Balance will be valued by OTC Clear daily in accordance with section 7.5.3 of the Clearing Procedures.

Initial Rates and FX Contribution

1504. A Clearing Member shall, upon receipt of a notice of approval of its application to become a Clearing Member, deliver Collateral with an aggregate value, determined by OTC Clear in accordance with Chapter 7 of the Clearing Procedures, equal to the Rates and FX Minimum Contribution Amount plus such other amount as OTC Clear may determine at its discretion based on projected clearing activity of such Clearing Member as its initial contribution to the Rates and FX Guarantee Fund. OTC Clear will set out any such additional amount required from a Clearing Member as part of its initial contribution to the Rates and FX Guarantee Fund in the notice of approval to become a Clearing Member. A Clearing Member shall satisfy its initial contribution to the Rates and FX Guarantee Fund in full no later than five OTC Clear Business Days from the date of receipt of notice of approval, or if earlier, the day prior to it submitting its first Original Transaction to OTC Clear for registration.

Further Rates and FX Contribution

1505. Following each Rates and FX Contribution Determination Date, each Clearing Member will be notified of its CM Funded Contribution Amount and CM Unfunded Contribution Amount in the Base Currency, each as determined by OTC Clear in the manner set out in Chapter 6 of the Clearing Procedures and calculated as at such Rates and FX Contribution Determination Date. The demand will be issued on the relevant Rates and FX Contribution Determination Date and will specify the amount of any additional Collateral required or any Rates and FX Contribution Excess. Each Clearing Member must satisfy the demand for additional Collateral one OTC Clear Business Day following receipt of such demand.

Rates and FX Assessments Demand

1506. Each Clearing Member agrees and acknowledges that, for the purpose of securing its liabilities in connection with the settlement of its Contracts pursuant to Clearing Rules 1306, 1306A, 1306B, 1306C and 1307 and to indemnify OTC Clear in the circumstances described in Clearing Rule 1316(2), it has an unconditional obligation to pay its CM Unfunded Contribution Amount in cash to the Rates and FX Guarantee Resources if required to do so by OTC Clear pursuant to Clearing Rule 1507.

1507. If, following the occurrence of a DMP Event with respect to one or more Clearing Members:

(1) the Rates and FX Contribution Balance of all Clearing Members (for the avoidance of doubt, excluding any amounts applied by OTC Clear in connection with the DMP Event, but including the value of any Rates and FX Contribution in respect of any earlier demand of Rates and FX Assessments) falls below, or is expected to fall below, 75% of the last calculated value of the Rates and FX Guarantee Fund; or

(2) OTC Clear determines in its sole discretion that all cash or liquid resources comprising the Rates and FX Guarantee Fund then held by it have been utilized in full, or are expected to be utilized in full, regardless of whether the value of the Rates and FX Contribution Balance of all Clearing

Members (for the avoidance of doubt, excluding any amounts applied by OTC Clear in connection with the DMP Event, but including the value of any Rates and FX Contribution in respect of any earlier demand of Rates and FX Assessments) have fallen below 75% of the last calculated value of the Rates and FX Guarantee Fund,

OTC Clear may issue a Rates and FX Assessments demand to each Non-Defaulting Clearing Member demanding it to contribute its CM Unfunded Contribution Amount to bring the total Rates and FX Contribution Balance of all Clearing Members to 100% of the last calculated value of the Rates and FX Guarantee Fund. If a Rates and FX Assessments demand is issued by OTC Clear under this Clearing Rule 1507, unless otherwise specified in Clearing Rule 1508(1)(a), each Clearing Member has an unconditional obligation to deliver its CM Unfunded Contribution Amount so demanded within one OTC Clear Business Day following receipt of such demand from OTC Clear. OTC Clear may issue multiple Rates and FX Assessments demands under this Clearing Rule 1507 following a DMP Event, provided that no such Rates and FX Assessments demands shall cause the Rates and FX Liability in respect of a Clearing Member to exceed its Maximum Current Liability set out in Clearing Rule 1544.

Rates and FX Contribution due to Recalculations or Replenishments

1508. (1) Subject to sub-paragraph (2) below, if the Rates and FX Contribution Balance in respect of a Clearing Member is less than the then current Rates and FX Liability of that Clearing Member, OTC Clear will notify such Clearing Member of the updated CM Funded Contribution Amount in the Base Currency, and:

(a) if the shortfall arises as a result of either market movement affecting the value of such Collateral or change in the applicable Collateral Haircut, or if OTC Clear determines there are wrong-way risk concerns, the Clearing Member shall deliver additional Collateral required to meet such shortfall to OTC Clear within one hour following receipt of such demand;

(b) in all other cases, the Clearing Member shall deliver additional Collateral required to meet such shortfall to OTC Clear within one OTC Clear Business Day following receipt of such demand;

(2) save and except for the circumstance described in Clearing Rule 1510(2), following the occurrence of any DMP Event, any recalculation of the Rates and FX Guarantee Fund and Rates and FX Assessments shall be suspended until after the expiry of the relevant Capped Liability Period. Upon the expiry of a Capped Liability Period, OTC Clear will recalculate the Rates and FX Guarantee Fund, the Rates and FX Assessments and with respect to each Non-Defaulting Clearing Member, the Rates and FX Contribution Balance and the Rates and FX Liability relating to each such Non-Defaulting Clearing Member. In any such recalculation, and with respect to each Non-Defaulting Clearing Member, OTC Clear shall take into account any reduction in the Rates and FX Contribution Balance relating to such Non-Defaulting Clearing Member by the amount applied during the Default Management Process in respect of such Capped Liability Period in accordance with Clearing Rule 1516. If the Default Management

Process(es) in respect of any DMP Event(s) relating to such Capped Liability Period has not been completed at the time of recalculation, OTC Clear shall, for the purpose of determining the Rates and FX Contribution Balance in sub-paragraph (1) above only, and only for so long as the relevant Default Management Process(es) have not been completed, treat the Rates and FX Contribution Balance prior to the end of the Capped Liability Period as having been applied in full regardless of whether such Rates and FX Contribution Balance have in fact been so applied, in whole or in part. Following completion of the relevant Default Management Process(es), OTC Clear will determine the reduction in the Rates and FX Contribution Balance with respect to each Clearing Member, and a Clearing Member may request the redelivery of Collateral in respect of any Rates and FX Contribution Excess in accordance with Clearing Rule 1546. Subject to sub-paragraph (3) below, any Rates and FX Contribution delivered by any Clearing Member following the expiry of such Capped Liability Period shall not be applied in respect of any Rates and FX Loss arising out of any DMP Event occurring prior to the expiry of such Capped Liability Period; and

(3) notwithstanding sub-paragraph (2) above, following the expiry of a Capped Liability Period, OTC Clear may apply any Rates and FX Contribution delivered to it prior to the end of such Capped Liability Period and may demand additional Rates and FX Assessments up to the Maximum Current Liability relating to such Capped Liability Period, in each case, for application in accordance with Clearing Rule 1516 in respect of DMP Event(s) relating to such Capped Liability Period.

1509. Unless otherwise specified in Clearing Rule 1508(1)(a), each Clearing Member shall deliver additional Collateral in respect of its Rates and FX Liability as notified to it by OTC Clear within one OTC Clear Business Day following receipt of demand from OTC Clear. For the avoidance of doubt, in respect of any Rates and FX Contribution Determination Date falling after the occurrence of the DMP Event with respect to a Defaulting Clearing Member, such Defaulting Clearing Member will not be included for the purpose of recalculation of the Rates and FX Guarantee Fund and Rates and FX Assessments by OTC Clear on any such Rates and FX Contribution Determination Date, notwithstanding the fact that the Membership Termination Date of such Defaulting Clearing Member may fall on or after any such Rates and FX Contribution Determination Date.

1510. Notwithstanding the operation of Clearing Rule 1508, if OTC Clear determines that:

(1) the Expected Uncollateralized Loss (“EUL”) with respect to a Clearing Member on any two consecutive OTC Clear Clearing Days during the period between two Rates and FX Contribution Determination Dates exceeds its largest EUL within the GF Calculation Period relating to the earlier of the two Rates and FX Contribution Determination Date by 10% or more, and the EUL for such Clearing Member exceeds 50% of the Rates and FX Guarantee Fund, where Expected Uncollateralized Loss has the meaning given to it in section 6.1.1(4) of the Clearing Procedures (and as modified by section 6.1.1(8) of the Clearing Procedures if Client Clearing Services are provided); or

(2) the EUL with respect to a Clearing Member on any two consecutive OTC Clear Clearing Days during a Capped Liability Period exceeds its largest EUL within the GF Calculation Period relating to the Rates and FX Contribution Determination Date immediately preceding the start of such Capped Liability Period by 10% or more, and the EUL for such Clearing Member exceeds 50% of the Rates and FX Guarantee Fund

(such excess, the "**Increased Risk**"),

then OTC Clear has the right to demand additional Collateral from such Clearing Member in an amount equal to the Increased Risk determined on the relevant second consecutive OTC Clear Clearing Day. The relevant Clearing Member shall provide additional Collateral to OTC Clear on the immediately following OTC Clear Business Day following receipt of OTC Clear's notice. Thereafter, the requirement on additional Collateral will be determined by OTC Clear on a daily basis according to the latest calculation of Increased Risk less the amount of additional Collateral collected under this Clearing Rule 1510. Any additional Collateral provided by the relevant Clearing Member pursuant to this Clearing Rule 1510 shall be treated as part of such Clearing Member's Additional Margin. Additional Collateral provided by a Clearing Member pursuant to a demand made by OTC Clear under this Rule 1510 one day before the later Rates and FX Contribution Determination Date will still be required by OTC Clear as Additional Margin under this Clearing Rule 1510 until the receipt of any additional Collateral demanded by OTC Clear pursuant to Clearing Rule 1505 to reflect the new CM Funded Contribution Amount of such Clearing Member as calculated on the later Rates and FX Determination Date. The Maximum Current Liability determined in respect of a Non-Defaulting Clearing Member during a Capped Liability Period pursuant to Clearing Rule 1513 will not be increased by virtue of the application of this Clearing Rule 1510.

1511. Following the occurrence of any DMP Event, and completion of the related Default Management Process, provided that there is no ongoing Default Management Process relating to other DMP Events taking place at the relevant time, OTC Clear will determine any reduction in the OTC Clear Contribution by the amount applied during the Default Management Process in accordance with Clearing Rule 1516. If prior to the completion of a Default Management Process, a subsequent DMP Event occurs, OTC Clear will only determine any reduction in the OTC Clear Contribution at the time where all relevant Default Management Processes have been completed. To the extent that the OTC Clear First Contribution and/or OTC Clear Second Contribution have been utilized as a result of the operation of the Default Management Process(es), OTC Clear will replenish each of the OTC Clear First Contribution and OTC Clear Second Contribution to its original value using its retained earnings, provided that OTC Clear will only replenish the OTC Clear Second Contribution if the OTC Clear First Contribution has first been replenished in full to its original value. In either case, OTC Clear shall only replenish if and to the extent that OTC Clear's working capital after such replenishment shall not fall below the amount required for its continuous operation for the following 12 months (including but not limited to OTC Clear's ability to meet all its other actual, contingent or anticipated future liabilities (taking into account for these purposes the obligation of OTC Clear to redeliver Collateral in respect of Margin provided in the form of cash and any Rates and FX Liability to the relevant Clearing Members)).

Changes to Calculations relating to the Rates and FX Guarantee Fund and Rates and FX Assessments

1512. Any changes to the methodology for calculating the Rates and FX Guarantee Fund and Rates and FX Assessments that result in an increase to the Rates and FX Guarantee Fund and Rates and FX Assessments of 20% or more shall be effective on the 20th OTC Clear Business Day following the date OTC Clear provides notice to Clearing Members of such change, provided that in respect of any such changes due to a change of requirement in Applicable Laws, rules, regulations or a request of a Regulatory Authority, such changes to the methodology shall be effective on the day as required by the Applicable Laws, rules or regulations, or the day specified in the relevant request of the Regulatory Authority, as applicable (in each case, a "**GF Increase Effective Date**"). Clearing Members shall deliver any additional Collateral required on or prior to the date such change is effective. OTC Clear will not initiate a change to the calculation methodology during a Capped Liability Period unless such change is required or mandated by a change of requirement in Applicable Laws, the rules or regulations or a request of a Regulatory Authority. For the avoidance of doubt, this Clearing Rule 1512 does not apply to any increase to the Rates and FX Guarantee Fund and Rates and FX Assessments resulting from periodic recalculations and not resulting from changes to the methodology.

1513. A Clearing Member who resigns pursuant to Clearing Rule 604 as a result of the increase to the Rates and FX Guarantee Fund and Rates and FX Assessments of 20% or more but who fails to complete the Non-Default Unwind in respect of all of its House Business and Client Clearing Services (if any) prior to the relevant GF Increase Effective Date will be subject to the increased Rates and FX Guarantee Fund and Rates and FX Assessments with effect from (and including) the relevant GF Increase Effective Date, provided that such increased requirement will only apply in respect of the Contracts then registered in the name of such Clearing Member (excluding those which the Clearing Member has successfully unwound as part of its Non-Default Unwind prior to the GF Increase Effective Date).

For the avoidance of doubt, the Maximum Current Liability determined in respect of a Non-Defaulting Clearing Member during a Capped Liability Period will not be increased by virtue of the application of Clearing Rule 1512 and this Clearing Rule 1513.

OTC Clear Use of the Rates and FX Guarantee Resources

1514. Amounts standing to the credit of the Rates and FX Guarantee Resources may only be applied in accordance with Clearing Rule 1516 following the occurrence of a DMP Event or in the following limited circumstances:

(1) to satisfy any amount due to OTC Clear by the Defaulting Clearing Member as a result of the occurrence of a DMP Event (including but not limited to Margin, amounts due pursuant to Contract Terms, fees, dues, assessments, fines and any costs and expenses of recovery against the Defaulting Clearing Member); or

(2) for the purposes described in Clearing Rules 1520 and 1521.

Reduction of Losses on a DMP Event and Application of the Rates and FX Guarantee Resources

1515. The total losses suffered by OTC Clear as a result of the occurrence of a DMP Event relating to a Defaulting Clearing Member (the "**Rates and FX Loss**") are:

(1) all Auction Losses or Contract Termination Losses relating to each Auction Portfolio constructed as a result of such DMP Event;

(2) any other general losses suffered by OTC Clear as a result of such DMP Event which is not attributable to a specific Auction Portfolio or Contract Termination Losses (the "**General Losses**"), including but not limited to any costs involved in entering into Hedging instruments pursuant to Rule 1803 which do not form part of the Auction Portfolio, porting Affected Contracts registered in the name of such Defaulting Clearing Member to the Replacement Clearing Member, the losses or costs incurred by OTC Clear in liquidating any non-cash Collateral, for purchasing equivalent assets for the redelivery of the Rates and FX Contribution Balance to a Clearing Member to the extent utilised pursuant to Clearing Rule 1516, for currency conversion, or as a result of payment of any interest on liquidity facilities, in each case, with respect to the Default Management Process relating to such DMP Event; and

(3) Unpaid Amounts due from such Defaulting Clearing Member to OTC Clear, excluding, for the avoidance of doubt, losses in respect of Contracts relating to Porting Clients.

1516. OTC Clear shall be entitled to apply its resources, in any manner or order including for the avoidance of doubt in an order which is different from the order described hereunder, for satisfaction of the Rates and FX Loss during a Default Management Process invoked as a result of the occurrence of a DMP Event with respect to a Defaulting Clearing Member, provided that upon completion of a successful Auction or the occurrence of a Contract Termination Event (as applicable) in respect of all Auction Portfolios relating to such DMP Event, it shall perform the loss allocation process set out below:

(1) OTC Clear shall first determine the General Losses suffered by it as a result of the DMP Event and the extent to which there are any Unpaid Amounts due from such Defaulting Clearing Member to OTC Clear in respect of Contracts recorded in such Defaulting Clearing Member's House Position Account, and reduce or bear such General Losses and Unpaid Amounts by application of the following resources in descending order as follows:

(a) first, the aggregate of (i) all Auction Payments (if any) received by OTC Clear with respect to one or more House Auction Portfolios constructed as a result of such DMP Event, (ii) any Unpaid Amounts due from OTC Clear to such Defaulting Clearing Member in respect of Contracts recorded in such Defaulting Clearing Member's House Position Account, (iii) the Unsettled VM Amount in respect of the Auction Contracts and/or Auction Failed Positions comprised in House Auction Portfolio(s) (to the extent that such Unsettled VM Amount is payable by OTC Clear to the relevant Defaulting Clearing Member) (if any), (iv) the Margin Balance recorded to the House

Collateral Account, any income and redemption proceeds on any non-cash Collateral recorded to the House Collateral Account and any proceeds of realization of any such non-cash Collateral that have not already been paid to or withdrawn by the Defaulting Clearing Member and (v) the aggregate Contract Termination Net Payments payable by Non-Defaulting Clearing Members to OTC Clear as a result of a Contract Termination Event;

(b) second, the Rates and FX Contribution Balance of the Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1548);

(c) third, the OTC Clear First Contribution;

(d) fourth, the aggregate value of the Rates and FX Contribution Balance in respect of the CM Funded Contribution Amount of each Non-Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1517);

(e) fifth, the OTC Clear Second Contribution; and

(f) sixth, the aggregate value of the Rates and FX Contribution Balance in respect of the CM Unfunded Contribution Amount of each Non-Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1517);

(2) To the extent that there are any Unpaid Amounts due from such Defaulting Clearing Member to OTC Clear in respect of Contracts recorded in such Defaulting Clearing Member's Client Position Account(s), OTC Clear shall reduce or bear each such Unpaid Amounts by application of the following resources in descending order as follows. In respect of such Unpaid Amounts due in respect of a Client Position Account:

(a) first, the aggregate of (i) all Auction Payments (if any) received by OTC Clear with respect to one or more Client Auction Portfolios constructed as a result of such DMP Event which relate to such Client Position Account, (ii) any Unpaid Amounts due from OTC Clear to such Defaulting Clearing Member in respect of Contracts recorded in such Client Position Account, (iii) the Unsettled VM Amount in respect of the Auction Contracts and/or Auction Failed Positions comprised in Client Auction Portfolio(s) which relate to Contracts recorded in such Client Position Account (to the extent that such net amount is payable by OTC Clear to the relevant Defaulting Clearing Member) (if any), (iv) the Margin Balance recorded to the Client Collateral Account attributed to such Client Position Account, (v) any income and redemption proceeds on any non-cash Collateral recorded to the Client Collateral Account attributed to such Client Position Account and any proceeds of realization of any such non-cash Collateral that have not already been paid to or withdrawn by the Defaulting Clearing Member and (vi) the aggregate Contract Termination Net Payments payable by Non-Defaulting Clearing Members to OTC Clear as a result of a

Contract Termination Event relating to Contracts recorded in such Client Position Account;

(b) second, the Rates and FX Contribution Balance of the Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1548);

(c) third, the OTC Clear First Contribution;

(d) fourth, the aggregate value of the Rates and FX Contribution Balance in respect of the CM Funded Contribution Amount of each Non-Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1517);

(e) fifth, the OTC Clear Second Contribution; and

(f) sixth, the aggregate value of the Rates and FX Contribution Balance in respect of the CM Unfunded Contribution Amount of each Non-Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1517);

(3) for the purposes of sub-paragraph (2)(a) above, the amount of Auction Payments in the form of risk concessions that shall be treated as "relating to" a Client Position Account shall be an amount equal to the product of:

(A) with respect to an Auction Portfolio, the hypothetical Initial Margin with respect to the Contracts of that Client Position Account comprised in the relevant Auction Portfolio (calculated on a portfolio margining basis assuming that such Contracts were booked into a single separate hypothetical Client Position Account) divided by the aggregate of the hypothetical Initial Margin of all Client Position Accounts comprised in such Auction Portfolio (where such Auction Portfolio comprises Contracts originally booked to more than one Client Position Account, but the entire Client Position Account is not comprised in such Auction Portfolio, the hypothetical Initial Margin for each such partial Client Position Account shall be calculated on a portfolio margining basis disregarding the fact that such Client Position Account is not whole; for the avoidance of doubt, where such Auction Portfolio comprises Contracts originally booked to more than one Client Position Account and each entire Client Position Account is comprised in such Auction Portfolio, the Initial Margin of such Client Position Accounts shall be aggregated), in each case, such Initial Margin being calculated by OTC Clear in its sole and absolute discretion as at the latest practicable time immediately preceding the occurrence of the relevant DMP Event; and

(B) the amount of Auction Payments in the form of risk concessions relating to the relevant Auction Portfolio referred to in sub-paragraph (3)(A) above; and

(4) upon completion of the process described in sub-paragraphs (1) and (2) above, OTC Clear shall determine the Auction Losses or Contract Termination Losses with respect to each Auction Portfolio constructed as a result of the DMP Event, and shall reduce or bear such losses in accordance with Clearing Rules 1914 to 1916, and

with respect to each DMP Event, the aggregate value of the resources described in sub-paragraphs (1)(a) to (1)(f) and (2)(a) to (2)(f) above is the "**Total Available Resources**" with respect to such DMP Event. The Total Available Resources, together with any Gainer VM Flow Adjustment and/or Voluntary Recap Amount received by OTC Clear pursuant to Clearing Rules 1524(2) and 1542, respectively, shall be the sole source of funds for satisfaction of the Rates and FX Loss arising out of the relevant DMP Event.

1517. OTC Clear will satisfy its claim under the indemnities given by each Non-Defaulting Clearing Member pursuant to Clearing Rule 1316(2) in respect of the Rates and FX Loss, by setting off the amount of loss calculated under Clearing Rules 1516(1)(d), 1516(1)(f), 1516(2)(d), 1516(2)(f), 1913A(4), 1913A(6), 1913B(4) and 1913B(6) against OTC Clear's obligation to pay the amount specified in Clearing Rule 1549.

1518. OTC Clear will notify the affected Clearing Members of any amounts applied pursuant to Clearing Rule 1516 and, where applicable, notify Clearing Members of any obligations to deliver additional Collateral in respect of their respective Rates and FX Liability pursuant to Clearing Rule 1509.

Accounts of Rates and FX Guarantee Resources

1519. OTC Clear shall maintain a separate record of all amounts of the Rates and FX Guarantee Resources from time to time, clearly identifying the amount and type(s) of Collateral provided by each Clearing Member in respect of their respective Rates and FX Liability in the relevant GF Account. In addition, OTC Clear shall maintain a separate account in respect of all the Rates and FX Contribution made (and not reinvested by OTC Clear under Clearing Rule 1520) or required to be made by each Clearing Member to the Rates and FX Guarantee Resources. OTC Clear undertakes to all Clearing Members from time to time to maintain amounts equal to the OTC Clear Contribution in a separate account from its other assets and to use such amounts only for the purposes of investment under Clearing Rule 1520, or meeting shortfalls arising directly or indirectly from Events of Default or a Rates and FX Clearing Termination Event in accordance with this Chapter 15. Simultaneously, with the annual audit of its accounts, OTC Clear shall request its auditors to prepare a report on the Rates and FX Guarantee Resources for circulation to the SFC and, upon request, to Clearing Members.

1520. OTC Clear has the power to invest any cash amount contributed to the Rates and FX Guarantee Resources in accordance with its investment policy. OTC Clear may perform any such investment itself as it sees fit, or it may engage an independent third party to perform such investment. OTC Clear's power to invest any cash amount contributed to the Rates and FX Guarantee Resources shall be suspended in case of occurrence of an OTC Clear Failure to Pay Event or OTC Clear Insolvency Event. OTC Clear may not exercise its power of investment under this Clearing Rule 1520 in respect of any non-cash asset contributed to the Rates and FX Guarantee Resources, provided that in the case of any DMP Event, OTC Clear may sell, liquidate, transfer or create any security or other third party right or

interest in or over any non-cash asset contributed to the Rates and FX Guarantee Resources for the purpose of ensuring that OTC Clear shall in its determination have sufficient liquid resources available to meet its payment obligations in a timely manner as they fall due. For the avoidance of doubt, notwithstanding any such sale, liquidation, transfer or creation of right or interest, OTC Clear shall remain liable to redeliver Rates and FX Contribution in equivalent form and currency to the relevant Clearing Member at the time and to the extent required under Clearing Rules 1546 and 1547.

1521. OTC Clear may apply any amounts contributed to the Rates and FX Guarantee Resources which are in the opinion of OTC Clear surplus to the Rates and FX Guarantee Fund (the reference to "surplus" in the immediately preceding sentence shall mean any gains arising out of the investment of the Rates and FX Guarantee Fund) in such manner as OTC Clear thinks fit. OTC Clear may appropriate such monies out of the Rates and FX Guarantee Resources temporarily or permanently for the following purposes including, but not limited to:

(1) payment of any amount representing interest or money obligations as may be determined from time to time by OTC Clear in respect of Rates and FX Contribution; and

(2) payment for costs and expenses incurred in establishing, maintaining, managing, administering and terminating any arrangements such as bank facilities and policies of insurance as OTC Clear may from time to time consider appropriate for the purpose of providing additional resources to the Rates and FX Guarantee Fund.

Recoveries

1522. If any amount paid out of the Rates and FX Guarantee Fund pursuant to Clearing Rule 1516 is subsequently recovered by OTC Clear, OTC Clear may use such amount (less any costs and expenses of recovery) to refund the relevant Clearing Members or itself in the reverse order of application under Clearing Rule 1516.

Loss Distribution Process

1523. On each OTC Clear Clearing Day during the Loss Distribution Period, OTC Clear will determine whether the Rates and FX Loss resulting from a DMP Event will exceed the Total Available Resources and any relevant Voluntary Recap Amount received or to be received under Clearing Rule 1541 relating to such DMP Event. If it does, then OTC Clear will consult with the SFC and will either invoke the "**Loss Distribution Process**" set out in this Clearing Rule 1523 to Clearing Rule 1528 or invoke the limited recourse wind down with respect to OTC Clear as set out in Clearing Rules 1529 to 1539.

1524. If the Loss Distribution Process applies, then on each OTC Clear Clearing Day during the Loss Distribution Period:

(1) OTC Clear will determine whether a Position Account registered in the name of a Non-Defaulting Clearing Member is a Position Account Gainer or a Position Account Loser;

(2) if the Position Account registered in the name of a Non-Defaulting Clearing Member is a Position Account Gainer, and the Gainer VM Flow Adjustment calculated for a Currency Payment in respect of that Position Account for

that OTC Clear Clearing Day is a positive number, the relevant Non-Defaulting Clearing Member shall pay an amount equal to such Gainer VM Flow Adjustment to OTC Clear. If the Position Account registered in the name of a Non-Defaulting Clearing Member is a Position Account Gainer and the Gainer VM Flow Adjustment calculated for a Currency Payment in respect of that Position Account for that OTC Clear Clearing Day is a negative number, OTC Clear shall pay to the relevant Non-Defaulting Clearing Member an amount equal to the absolute value of such Gainer VM Flow Adjustment; and

(3) if the Position Account registered in the name of a Non-Defaulting Clearing Member is a Position Account Loser, OTC Clear shall pay to the relevant Non-Defaulting Clearing Member an amount equal to the absolute value of such negative Loser VM Flow Adjustment calculated for a Currency Payment in respect of that Position Account for that OTC Clear Clearing Day.

For the purpose of the calculations and adjustments conducted under the Loss Distribution Process, each Position Account of a Non-Defaulting Clearing Member will be treated separately.

If an OTC Clear Clearing Day is not a Currency Day for a Currency Payment, OTC Clear will perform the calculations and adjustment required under the Loss Distribution Process on such OTC Clear Clearing Day, but payment of the relevant Currency Payment, as adjusted by the Gainer VM Flow Adjustment or Loser VM Flow Adjustment, as the case may be, will be deferred to the immediately following Currency Day for such Currency Payment.

1525. On each OTC Clear Clearing Day during the Loss Distribution Period, OTC Clear will apply the Latest Exchange Rate determined on the relevant OTC Clear Clearing Day in making the calculations required to be made under the Loss Distribution Process, including components which relate to payments made, or falling due, on previous days.

1526. On each Loss Distribution Day, OTC Clear shall apply set-off with respect to any payment or receipt of any VM Flow Adjustment on such day against any payments denominated in the same currency as such VM Flow Adjustment payable to, or receivable from, the relevant Clearing Member.

1527. Without prejudice to the operation of Clearing Rule 1531, in the absence of manifest error, any VM Flow Adjustment determined by OTC Clear shall be final and conclusive. Any application of a Gainer VM Flow Adjustment resulting in a reduction of Currency Payment by OTC Clear to a Non-Defaulting Clearing Member shall not constitute a failure to pay by OTC Clear.

1528. Subsequent to the completion of the Loss Distribution Process by OTC Clear, if OTC Clear receives any amounts from the Defaulting Clearing Member, or any other amounts howsoever obtained or recovered during the Default Management Process relating to the Defaulting Clearing Member, OTC Clear shall reimburse the Non-Defaulting Clearing Members (regardless of whether the relevant Non-Defaulting Clearing Member remains a Clearing Member at the time of recovery) on a pro-rata basis by reference to the resources which have been applied pursuant to

Clearing Rule 1516 after deducting any costs or expenses incurred by OTC Clear during the process of such recovery.

For the avoidance of doubt, nothing in this Clearing Rule 1528 shall oblige OTC Clear to pursue any action to recover the amounts contemplated above.

Rates and FX Clearing Service Limited Recourse

1529. The Total Available Resources, together with any Gainer VM Flow Adjustment and/or Voluntary Recap Amount received by OTC Clear pursuant to Clearing Rules 1524(2) and 1542, respectively, shall be the sole source of funds available to cover any Rates and FX Loss arising from a DMP Event. In the event OTC Clear determines that utilization of such resources in their entirety will be insufficient to cover payments due to one or more Clearing Members arising out of such DMP Event, all Contracts will be closed-out in accordance with the procedures set out in Clearing Rules 1530 to 1540 without any further recourse to the capital or any other assets of OTC Clear. As from the occurrence of a Rates and FX Clearing Termination Event, neither OTC Clear nor any Clearing Member shall be required to pay any further amount in respect of any Contract, and any right to receive any further amount in respect of any Contract shall be satisfied by settlement (by payment, set-off or otherwise) of the Limited Recourse Final CM Payable or the Limited Recourse Applicable Percentage of the Limited Recourse CM Receivable payable relating to the Position Account to which such Contract is registered under Clearing Rule 1538. Neither the Clearing Members nor their respective Clients shall have any recourse to any other funds or any other entity, including without limitation any Affiliate or recognized exchange controller which is the controller of OTC Clear once the Total Available Resources, together with any Gainer VM Flow Adjustment and/or Voluntary Recap Amount received by OTC Clear, have been exhausted. In particular, no Clearing Members or Clients shall be entitled to institute steps for the winding-up of, or the appointment of a receiver to, OTC Clear.

Winding Down of the Rates and FX Clearing Services

1530. If OTC Clear determines at any stage that:

(1) (a) the Rates and FX Loss(es) resulting from one or more DMP Events occurring within the same Capped Liability Period will exceed the Total Available Resources with respect to all such DMP Events and decides not to issue a Voluntary Recap Request Notice pursuant to Clearing Rule 1541;

(b) notwithstanding a Voluntary Recap Request Notice has been issued pursuant to Clearing Rule 1541, it has not received any Voluntary Recap Amount within the period set out therein; or

(c) the Rates and FX Loss(es) exceed the Voluntary Recap Amount received by OTC Clear; or

(2) OTC Clear has determined to withdraw the Rates and FX Clearing Services, including without limitation the circumstance contemplated by Clearing Rules 1320(2) and 1321(2) but excluding any temporary suspension of the Rates and FX Clearing Services in accordance with Clearing Rule 210(5),

then a "**Rates and FX Clearing Termination Event**" shall occur and OTC Clear shall notify all Clearing Members of the occurrence of such Rates and FX Clearing Termination Event, and the Rates and FX Clearing Service will be wound down in accordance with Clearing Rules 1531 to 1540. For the avoidance of doubt, a declaration of a Rates and FX Clearing Termination Event shall be irrevocable.

1531. Upon the occurrence of a Rates and FX Clearing Termination Event, with respect to each Clearing Member, all obligations of OTC Clear and such Clearing Member in respect of any Contract between them shall cease to exist and be replaced with the obligation to pay the termination amounts determined under Clearing Rules 1531 to 1540. The close-out value for each Contract shall be determined in accordance with section 10.1(i) of the Clearing Procedures, provided that OTC Clear may also take into account any unpaid amounts that have become due and payable in respect of any Contract on or prior to the occurrence of the Rates and FX Clearing Termination Event, including without limitation, any Gainer VM Flow Adjustment made during the Loss Distribution Period to which the Rates and FX Clearing Termination Event relates.

1532. Following the declaration of a Rates and FX Clearing Termination Event, any unused Margin Balance then held by OTC Clear in respect of one or more Clearing Members and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Clearing Member(s) shall be returned to the relevant Clearing Members in accordance with Clearing Rule 1536; and any unused Rates and FX Contribution Balance then held by OTC Clear in respect of one or more Clearing Members or Former Clearing Members shall be returned to the relevant Clearing Members or Former Clearing Members in accordance with Clearing Rule 1538(4).

1533. As soon as reasonably practicable following a Rates and FX Clearing Termination Event, OTC Clear shall calculate a net sum payable by or to each Clearing Member separately in relation to each Position Account registered in the name of such Clearing Member. In determining such net sum, OTC Clear will take into account the close-out values established for each Contract pursuant to Clearing Rule 1531, and the value of all other amounts which is due to OTC Clear from the Clearing Member under these Clearing Rules, or which is due to the Clearing Member from OTC Clear (other than OTC Clear's obligation to return (i) any unused Margin Balance, (ii) any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the relevant Clearing Member or Former Clearing Member and/or (iii) Rates and FX Contribution Balance to the relevant Clearing Member or Former Clearing Member), in each case, whether future, liquidated or unliquidated, actual or contingent. There shall be no combining or set-off between any House Position Account and Client Position Account(s), or between two or more Client Position Accounts. OTC Clear will determine any such net sum payable by, or to, a Clearing Member in the Base Currency. For the purpose of the determination under this Clearing Rule 1533, OTC Clear may convert any amounts denominated in any other currency into the Base Currency at such rate prevailing at the time of the calculation as it shall reasonably select.

1534. If, pursuant to Clearing Rule 1533, a net sum is determined to be payable by a Clearing Member to OTC Clear with respect to one or more of its Position Accounts, OTC Clear shall reduce each such sum by application of the Outright

Transfer Margin Balance, if any, relating to the relevant Position Account. With respect to each Clearing Member and each of its Position Account(s), after application of the Outright Transfer Margin Balance relating to the relevant Position Account:

(1) if there remains a balance payable by the Clearing Member to OTC Clear for such Position Account (the "**Remaining Balance**"), OTC Clear will, as soon as reasonably practicable, notify the relevant Clearing Member of the Remaining Balance, and the relevant Clearing Member shall pay OTC Clear the Remaining Balance within two OTC Clear Business Days following receipt of such notification; and

(2) if the Clearing Member fails to pay the Remaining Balance within the time frame set out in sub-paragraph (1) above, OTC Clear may declare an Event of Default in respect of such Clearing Member. OTC Clear may, in satisfaction of any due but unpaid Remaining Balance in respect of a Position Account, apply the proceeds of enforcement of any non-cash Collateral comprising the Margin Balance of the corresponding Collateral Account and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by such Clearing Member, and if any of the Remaining Balance remains unsatisfied following such application, the unsatisfied amount shall form part of the Limited Recourse Interim CM Payable with respect to the relevant Position Account.

1535. If, pursuant to Clearing Rule 1533, a net sum is determined to be payable by OTC Clear to a Clearing Member with respect to one or more of its Position Accounts, each such sum shall form part of the Limited Recourse CM Receivable with respect to the relevant Position Account.

1536. With respect to each Clearing Member and each of its Position Account(s), taking into account (if applicable) the operation of Clearing Rule 1534:

(1) any unused Outright Transfer Margin Balance and, if applicable, any remaining proceeds of enforcement of non-cash Collateral further to the application of Clearing Rule 1534(2) for such Position Account shall be returned to the Clearing Member; and

(2) any non-cash Collateral provided to OTC Clear on a security interest basis and comprising the Margin Balance of the Collateral Account corresponding to such Position Account and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Clearing Member shall be redelivered to the Clearing Member in accordance with the relevant security document.

1537. Following the completion of the processes described in Clearing Rules 1534 to 1536:

(1) OTC Clear shall, with respect to each Position Account (without regard to its obligation to return any unused Rates and FX Contribution Balance to the relevant Clearing Member or Former Clearing Member), determine the resulting net sum payable by a Clearing Member to OTC Clear for such Position Account (such sum, a "**Limited Recourse Interim CM Payable**"),

or the resulting net sum payable by OTC Clear to a Clearing Member for such Position Account (such sum, a "**Limited Recourse CM Receivable**");

(2) OTC Clear shall notify the relevant Clearing Member of its Limited Recourse Interim CM Payable(s) or Limited Recourse CM Receivable(s). Each Clearing Member that receives a notice to pay any Limited Recourse Interim CM Payable shall pay each such amount to OTC Clear in full within two OTC Clear Business Days following receipt of such notification;

(3) if a Clearing Member fails to pay any Limited Recourse Interim CM Payable in full within the time frame set out in sub-paragraph (2) above, regardless of whether such Limited Recourse Interim CM Payable arises out of a House Position Account or Client Position Account belonging to such Clearing Member, OTC Clear will apply any unused Rates and FX Contribution Balance then held by OTC Clear in respect of such Clearing Member against the unpaid Limited Recourse Interim CM Payable;

(4) with respect to a Clearing Member and each of its Position Account(s) with a Limited Recourse Interim CM Payable, following the application of any unused Rates and FX Contribution Balance as described in sub-paragraph (3) above, OTC Clear shall determine the final net sum payable by the Clearing Member, if any (each a "**Limited Recourse Final CM Payable**") with respect to such Position Account, and notify such Clearing Member of the same. Each Clearing Member that receives a notice to pay any Limited Recourse Final CM Payable shall pay each such amount to OTC Clear in full at or prior to the time specified by OTC Clear; and

(5) for the avoidance of doubt, a Clearing Member may have a Limited Recourse Interim CM Payable or Limited Recourse Final CM Payable in respect of one Position Account registered in its name, but a Limited Recourse CM Receivable in respect of another Position Account registered in its name.

1538. With respect to each Clearing Member who has a Limited Recourse CM Receivable (and, for the avoidance of doubt, subject to Rule 1539), and each Clearing Member or Former Clearing Member with any unused Rates and FX Contribution Balance (taking into account the operation of Clearing Rule 1537(3)), OTC Clear shall pay each such Clearing Member or Former Clearing Member in proportion to the value of their respective claims on OTC Clear under Clearing Rule 1537 in the following manner:

(1) OTC Clear shall, until the time specified in Clearing Rule 1540, take reasonable steps to recover any unpaid Limited Recourse Final CM Payables, and may deduct from such amounts any reasonable costs in connection with such recovery;

(2) following receipt of all or some (if any Clearing Member defaults in its payment of the relevant Limited Recourse Final CM Payable) Limited Recourse Final CM Payables, OTC Clear will calculate a percentage ("**Limited Recourse Applicable Percentage**") equal to the lesser of:

(a) 100%; and

(b) (A) the aggregate value of (I) the Rates and FX Guarantee Resources then held by OTC Clear, (II) any Margin Balance and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Clearing Members or Former Clearing Members applied pursuant to Clearing Rules 1533 and/or 1534(2) and (III) all Remaining Balance, Limited Recourse Interim CM Payables and/or Limited Recourse Final CM Payables received by OTC Clear; divided by

(B) the aggregate value representing the sum of (I) all Limited Recourse CM Receivables and (II) any unused Rates and FX Contribution Balance then held by OTC Clear in respect of all Clearing Members or Former Clearing Members (taking into account the operation of Clearing Rule 1537(3));

(3) subject to Clearing Rule 1539, OTC Clear shall pay each Clearing Member with a Limited Recourse CM Receivable an amount equal to the Limited Recourse Applicable Percentage of such Limited Recourse CM Receivable;

(4) OTC Clear shall pay each Clearing Member or Former Clearing Member with unused Rates and FX Contribution Balance an amount equal to the Limited Recourse Applicable Percentage of such unused Rates and FX Contribution Balance, provided that the aggregate sum payable by OTC Clear in respect of unused Rates and FX Contribution Balance for all Clearing Member(s) and Former Clearing Member(s) shall never exceed the value of the Rates and FX Guarantee Resources then held by OTC Clear. Once the Rates and FX Guarantee Resources have been exhausted, the unpaid balance of any unused Rates and FX Contribution Balance shall be extinguished; and

(5) all payments made under this Clearing Rule 1538 shall be made in the Base Currency provided that if OTC Clear does not have sufficient Base Currency to satisfy such payment, it may satisfy such payment obligation in any other Eligible Currency.

1539. Where a Limited Recourse CM Receivable relates to a Client Position Account of one or more Non-Porting Clients of a Defaulting Clearing Member, and subject to entering into relevant documentation between OTC Clear and the relevant Non-Porting Client(s) (which may, without limitation, include an indemnity (secured or otherwise) to OTC Clear in respect of any loss or liability arising from the legal invalidity of any payment of the relevant Limited Recourse CM Receivable to the Client(s)), OTC Clear shall pay any amount payable by it under Clearing Rule 1538(3) in relation to such Limited Recourse CM Receivable directly to the relevant Non-Porting Client(s) as Client Entitlement in accordance with Clearing Rules 1308A and 1309. For the purpose of this Clearing Rule 1539, OTC Clear may take into account any Non-Porting Client's interest in any Collateral or proceeds thereof pursuant to Clearing Rules 1308A and 1309 and, if applicable, any relevant Security Deed, and the operations of section 56(1) of the SFO shall be modified by this Clearing Rule 1539, as permitted under section 56(2) of the SFO.

1540. If OTC Clear determines that no further amounts in respect of any Limited Recourse Final CM Payables are likely to be recovered and notifies the same to the relevant Clearing Member(s) and Former Clearing Member(s), then the unpaid balance of any Limited

Recourse CM Receivable and/or unused Rates and FX Contribution Balance shall thereafter be extinguished and the relevant Clearing Member(s) and Former Clearing Member(s) shall have no further recourse to OTC Clear (its Affiliates, a recognized exchange controller which is the controller of OTC Clear, or any of their respective Representatives) in respect thereof.

Voluntary Recapitalisation

1541. If OTC Clear determines at any stage that the Rates and FX Loss resulting from a DMP Event will exceed the Total Available Resources relating to such DMP Event determined under Clearing Rule 1516, it has absolute discretion in determining whether to declare a Rates and FX Clearing Termination Event or to issue a written notice (the "**Voluntary Recap Request Notice**") requesting each Non-Defaulting Clearing Member to make a payment of funds (each a "**Voluntary Recap Amount**") to OTC Clear.

1542. Upon receipt of the Voluntary Recap Request Notice, each Non-Defaulting Clearing Member may, but is not obliged to, provide its Voluntary Recap Amount to OTC Clear within one OTC Clear Business Day following receipt of the Voluntary Recap Request Notice. Any Voluntary Recap Amount made by a Non-Defaulting Clearing Member to OTC Clear may not be withdrawn.

1543. Any Voluntary Recap Amount received by OTC Clear from a Non-Defaulting Clearing Member shall form part of the Rates and FX Contribution Balance relating to such Non-Defaulting Clearing Member, and the usage of the same will be subject to Clearing Rule 1514.

1543A. If, on any OTC Clear Business Day, OTC Clear in its sole discretion determines that any Voluntary Recap Amount that OTC Clear expects to receive from a Non-Defaulting Clearing Member, when aggregated with the Total Available Resources and any Voluntary Recap Amounts that OTC Clear expects to receive from other Non-Defaulting Clearing Members, is insufficient to meet any outstanding obligations and liabilities in relation to the DMP Event, that Voluntary Recap Amount (i) shall not form part of the Rates and FX Contribution Balance relating to that Non-Defaulting Clearing Member, (ii) shall be refunded to the relevant Clearing Member on the next OTC Clear Business Day and (iii) shall in no circumstances be available to pay any other creditor of OTC Clear.

Multiple DMP Events

1544. In respect of one or more DMP Event(s) occurring within a Capped Liability Period, the maximum current liability of a Non-Defaulting Clearing Member to contribute to the Rates and FX Guarantee Resources in respect of such Capped Liability Period shall be capped at the aggregate of the CM Funded Contribution Amount and the CM Unfunded Contribution Amount allocated to such Non-Defaulting Clearing Member on the immediately preceding Rates and FX Contribution Determination Date falling prior to the start of such Capped Liability Period (the "**Maximum Current Liability**").

1545. In the event of multiple DMP Events occurring within a Capped Liability Period, then:

(1) the loss allocation process described in Clearing Rule 1516 will only commence upon completion of the Default Management Processes with respect to all such DMP Events;

(2) multiple Default Management Processes will be invoked as a result of multiple DMP Events occurring within the same Capped Liability Period. Notwithstanding the immediately foregoing, however, "Total Available Resources" and "Rates and FX

Losses" shall be construed to mean the aggregate sum of the Total Available Resources and Rates and FX Losses relating to each such DMP Event, and OTC Clear will consolidate any Loss Distribution Process described in Clearing Rules 1523 to 1528 invoked during such Capped Liability Period into one single process, and will only issue one Voluntary Recap Request Notice during such Capped Liability Period; and

(3) with respect to any Clearing Member who has delivered its Rates and FX Contribution during such Capped Liability Period and who subsequently becomes a Defaulting Clearing Member within the same Capped Liability Period, the entirety of its Rates and FX Contribution Balance shall be applied and utilized in accordance with Clearing Rules 1516(1)(b) and 1516(2)(b), notwithstanding that at the time of provision of such CM Funded Contribution Amount and/or CM Unfunded Contribution Amount, no DMP Event has yet occurred with respect to the relevant Clearing Member.

Terms of Redelivery or Repayment of Rates and FX Contribution

1546. Subject to Clearing Rules 1324, 1530 to 1540, 1548 and 1549, if a Clearing Member's Rates and FX Contribution Balance exceeds its then current Rates and FX Liability, it may request OTC Clear to redeliver Collateral in equivalent form and currency as any Collateral it has delivered to OTC Clear as CM Funded Contribution Amount and/or CM Unfunded Contribution Amount in a value not exceeding the Rates and FX Contribution Excess. A Clearing Member shall specify the exact form and currency of the relevant Collateral requested to be redelivered. Following receipt of such request, OTC Clear shall redeliver Collateral in respect of such Rates and FX Contribution Excess in equivalent form and currency as requested in an amount not exceeding the Rates and FX Contribution Excess, provided that:

(1) if and only to the extent that any Rates and FX Losses are allocated to such Clearing Member in accordance with Clearing Rules 1516 and 1914, then OTC Clear's obligation to redeliver Collateral in equivalent form and currency shall be converted into an obligation to pay an amount equal to the value of the Rates and FX Contribution Balance as determined by OTC Clear; or

(2) in the event that OTC Clear is unable to obtain Collateral in equivalent form and currency for such redelivery, including but not limited to the case where the relevant Rates and FX Contribution is of a type or currency that is the subject of foreign exchange or other settlement risk or disruption, as determined by OTC Clear, at the time such redelivery is due, then OTC Clear may deliver Collateral in other forms or currency determined by OTC Clear.

OTC Clear may apply set-off with respect to any Collateral to be redelivered to a Clearing Member against any obligation such Clearing Member owes to OTC Clear, and OTC Clear may withhold any Collateral to be redelivered to a Clearing Member if such Clearing Member is not in compliance with any of these Clearing Rules.

1547. Subject to Clearing Rules 1306, 1306A,1306B, 1306C, 1307, 1324, 1548 and 1549, OTC Clear will redeliver to a Former Clearing Member Collateral, in equivalent form and currency to the Rates and FX Contribution recorded on the relevant GF Account of such Clearing Member, 21 calendar days after its Membership Termination Date, provided that OTC Clear is satisfied that such Former Clearing Member has no outstanding liability or sums owing to OTC Clear (including pursuant to Clearing Rules 606 and 609), and OTC

Clear's obligation to redeliver any such Collateral (whether in the form of cash or non-cash) will be subject to the relevant custodian being able to process any such withdrawal or release request at the relevant time, provided further that OTC Clear may deliver such Collateral in other forms or currency determined by OTC Clear:

(1) if and only to the extent that any Rates and FX Losses are allocated to such Clearing Member in accordance with Clearing Rules 1516 and 1914, then OTC Clear's obligation to redeliver Collateral in equivalent form and currency shall be converted into an obligation to pay an amount equal to the value of the Rates and FX Contribution Balance as determined by OTC Clear; or

(2) in the event that OTC Clear is unable to obtain Collateral in equivalent form and currency for such redelivery, including but not limited to the case where the relevant Rates and FX Contribution is of a type or currency that is the subject of foreign exchange or other settlement risk or disruption, as determined by OTC Clear, at the time such redelivery is due,

and provided further that OTC Clear may deduct:

(a) any amount in respect of which it is indemnified by a Former Clearing Member pursuant to these Clearing Rules; and

(b) an amount determined by OTC Clear to be adequate to satisfy any outstanding contingent liabilities of a Former Clearing Member.

To the extent that assets of the Rates and FX Guarantee Fund in excess of a Former Clearing Member's Rates and FX Contribution Balance are applied in discharging the rights and liabilities in respect of any Contracts to which it was party, OTC Clear may recover in full the amount so applied from that Clearing Member as a debt due to OTC Clear from it.

This Clearing Rule 1547 shall not be applicable in the occurrence of a Rates and FX Clearing Termination Event. In the event of the occurrence of a Rates and FX Clearing Termination Event, OTC Clear's obligation to return any unused Rates and FX Contribution Balance attributable to a Clearing Member shall be converted into an obligation to pay an amount in respect of such unused Rates and FX Contribution and be returned to such Clearing Member in the manner set out in Clearing Rules 1530 to 1540.

1548. Upon the occurrence of a DMP Event with respect to a Defaulting Clearing Member, OTC Clear's obligation to redeliver Collateral in equivalent form and currency shall be converted into an obligation to pay an amount equal to the value of such Defaulting Clearing Member's Rates and FX Contribution Balance as determined by OTC Clear, and such amount may be applied by OTC Clear in good faith if and only to the extent that any Rates and FX Losses are allocated to such Defaulting Clearing Member pursuant to Clearing Rules 1516(1)(b), 1516(2)(b) and 1914(2). Any remaining Rates and FX Contribution Balance relating to such Defaulting Clearing Member shall be applied by OTC Clear in accordance with Clearing Rules 1516 and 1914 in connection with any other DMP Events occurring in the relevant Capped Liability Period. Upon OTC Clear being satisfied that such Defaulting Clearing Member has no outstanding liability or sums owing to OTC Clear, the remaining value of its Rates and FX Contribution Balance as determined by OTC Clear shall be taken into account by OTC Clear in determining the net sum payable by, or to, such Defaulting Clearing Member in accordance with Clearing Rule 1306B(2).

1549. Upon the occurrence of a DMP Event, in respect of each Non-Defaulting Clearing Member, if and only to the extent that any Rates and FX Losses are allocated to such Non-Defaulting Clearing Member in accordance with Clearing Rules 1516 and 1914, any obligation of OTC Clear to return the Rates and FX Contribution to the Non-Defaulting Clearing Member shall be converted into an obligation of OTC Clear to pay an amount in respect of its Rates and FX Contribution equal to the sum(s) allocated to such Non-Defaulting Clearing Member in accordance with Clearing Rules 1516 and 1914. Such payment shall discharge OTC Clear's obligation to pay the amount set out in Clearing Rule 1546 to the extent of the amount paid, and such Non-Defaulting Clearing Member's GF Account and Rates and FX Contribution Balance shall be adjusted by OTC Clear in good faith accordingly.

Chapter 15A Default relating to a Sponsored Settlement Member

Default relating to a Sponsored Settlement Member

15A01. If a potential Event of Default occurs in respect of a Clearing Member as a result of a Sponsored Settlement Member failing to pay amounts equal to (and in the same currency as) any SSM Payment Amount to OTC Clear (a "**SSM Failure to Pay Event**"):

(1) if OTC Clear determines that the relevant Sponsored Settlement Member is not insolvent or likely to become insolvent and (other than an SSM Failure to Pay Event) no Event of Default has occurred or is likely to occur in respect of the relevant Clearing Member, then OTC Clear may decide at its sole discretion not to deliver a Notice of Default in respect of the Clearing Member for a period of up to 5 OTC Clear Clearing Days ("**SSM Payment Failure Grace Period**"), provided that OTC Clear may charge the relevant Clearing Member default interest on the due but unpaid SSM Payment Amount and any costs, fees and expenses incurred by OTC Clear during the SSM Payment Failure Grace Period attributable to such failure to pay;

(2) if an early termination date (howsoever described) occurs in respect of the relevant Client Clearing Agreement between a Clearing Member and a Client and the transfer of Contracts is effected under Clearing Rule 836(1), and the SSM Failure to Pay Event is continuing, OTC Clear may decide at its sole discretion not to deliver a Notice of Default in respect of the Clearing Member for a period of up to 5 OTC Clear Clearing Days from the date of the termination of the Client Clearing Agreement ("**Early Termination Grace Period**"), provided that the aggregate of any SSM Payment Failure Grace Period (if applicable) and Early Termination Grace Period does not exceed a period of 5 OTC Clear Clearing Days; and

(3) if OTC Clear determines that the SSM Payment Failure Grace Period has expired and the SSM Failure to Pay Event is continuing, then such failure to pay shall constitute an Event of Default in respect of the Clearing Member.

15A02. If a potential Event of Default has occurred or is likely to occur in respect of a sponsoring Clearing Member that has one or more Clients who are Sponsored Settlement Members, but OTC Clear determines that the relevant Sponsored Settlement Member is not insolvent or likely to become insolvent, OTC Clear may deliver a Notice of Default in respect of the relevant Clearing Member and the Default Management Process shall apply, except that OTC Clear may (prior to any porting or termination of the relevant Contracts in accordance with the Default Management Process) continue to pay to the Sponsored Settlement Member amounts equal to (and in the same currency as) the SSM Payment Amounts payable by OTC Clear to the Clearing Member in accordance with Clearing Rule 7A01 (or any SSM Tripartite Agreement with that Sponsored Settlement Member and Clearing Member where applicable) for so long as the Sponsored Settlement Member has paid to OTC Clear amounts equal to (and in the same currency as) the SSM Payment Amounts due to OTC Clear pursuant to Clearing Rule 7A03 (or any SSM Tripartite Agreement with that Sponsored Settlement Member and Clearing Member where applicable).

PART V DEFAULT MANAGEMENT PROCESS

Chapter 16 Default Management Process

Default Management Process

1601. The "**Default Management Process**" means the provisions set out in this PART V of these Clearing Rules and Chapter 8 of the Clearing Procedures, or the process described therein, as applicable, which shall be carried out by OTC Clear, in consultation with, and with the assistance of, the Default Management Group. The Default Management Process shall commence:

(1) immediately following the occurrence of an Automatic Early Termination Event or the delivery of a Notice of Default with respect to one or more Clearing Members;

(4) to execute measures in order to mitigate the risks associated with the DMP Event by putting on Hedging transactions for OTC Clear's own account in accordance with the Hedging strategy proposed by the Default Management Group and approved by OTC Clear, as further described in Chapter 18 of these Clearing Rules; and 以清算所自有账户进行对冲交易

(5) to complete the Auction process as further described in Chapter 19 of these Clearing Rules. 进行拍卖

The provisions set out in Chapter 17, Chapter 18 and Chapter 19 of these Clearing Rules are implemented pursuant to Clearing Rule 1601 upon the occurrence of a DMP Event.

1603. Each Clearing Member must participate in the Default Management Process to the extent specified in the Clearing Rules, and take all steps and execute all documents necessary or desirable in relation thereto, including but not limited to executing relevant agreement(s) each in a form prescribed by OTC Clear for the purpose of execution of a Hedging transaction between a Non-Defaulting Clearing Member and OTC Clear.

1604. Whenever the Default Management Process is implemented by OTC Clear in respect of a Defaulting Clearing Member, OTC Clear will, with the assistance of the Default Management Group, provide such ongoing information to the Non-Defaulting Clearing Members as OTC Clear deems reasonably appropriate in respect of the progress of the Default Management Process, provided that OTC Clear is not under any obligation to disclose information in respect of the Default Management Process which, in the reasonable opinion of OTC Clear, may be subject to obligations of confidentiality, may constitute market sensitive data or is, in OTC Clear's reasonable opinion, inappropriate for disclosure to Clearing Members.

Default Management Group

1605. The Default Management Group shall convene:

(1) immediately following the occurrence of a DMP Event, and at sufficiently frequent intervals thereafter for a period so long as may be necessary to assist OTC Clear in the implementation of the Default Management Process relating to such DMP Event; or

(2) at such other time as OTC Clear may deem appropriate and/or necessary from time to time.

1606. The Default Management Group shall be made up of representatives from both OTC Clear and Clearing Members.

1607. Upon request by OTC Clear, a Defaulting Clearing Member shall provide a representative to participate in the Default Management Group.

1608. The terms of reference of the Default Management Group will be published on HKEX website. Any amendment to the terms of reference of the Default Management Group will be subject to the approval of the OTC Clear Board. OTC Clear Board will, if it deems necessary, consult with the Risk Management Committee prior to approving any such proposed amendment.

Undertaking by Clearing Members

1609. Each Clearing Member agrees, and shall procure, that:

(1) it shall, at all times, provide representatives (each a "**DMG Delegate**") to participate in the processes described in Clearing Rules 1611 and 1612. The exact number of DMG Delegates that a Clearing Member shall provide, and the skill and expertise required from each such DMG Delegate will be notified by OTC Clear to each Clearing Member from time to time;

(2) if OTC Clear requests a substitute where it believes a Clearing Member's nominated representative in the Default Management Group, as appropriate, is conflicted for its role as a DMG Member, or does not have the requisite skills or expertise, it shall provide such substitute;

(3) its DMG Member will be fully available, at any time and for such periods of time as OTC Clear may require during the Default Management Process, to perform his function as a member of the Default Management Group including attending meetings in person or by telephone, considering and advising OTC Clear on the Default Management Process. The Clearing Member shall ensure that its DMG Member's other work commitments will not affect his availability for this purpose;

(4) to take all steps to respect the confidential capacity in which its DMG Member receives information through the Default Management Group and to establish adequate procedures to prevent the disclosure or use for any purpose outside the scope of the Default Management Process of any such confidential information by it or its DMG Member. Such procedures shall normally include, without limitation, the establishment of Information Barriers within the Clearing Member; and

(5) to be bound by and to ensure that it and any of its executives, directors or employees serving on the Default Management Group complies with the provisions set out in Chapter 20 and Chapter 21 of these Clearing Rules.

Each DMG Member, in performing its role in the Default Management Process, shall act in the best interests of OTC Clear only and each Clearing Member agrees that it shall not require its DMG Member to undertake any obligations to it which would result in that DMG Member being in breach of this duty.

Amendments to Default Management Process

1610. Notwithstanding any contrary provisions contained in these Clearing Rules, in the event that OTC Clear, after consultation with the Risk Management Committee, deems appropriate to amend the Default Management Process, OTC Clear or the Risk Management Committee may present the relevant proposed amendments to the OTC Clear Board, which shall have the power to amend the Default Management Process in accordance with Clearing Rule 201.

1611. The DMG Delegates shall:

(1) at least once a year, gather for the purpose of reviewing the provisions of the Default Management Process, and to the extent considered appropriate, recommend any amendment or revision to such provisions for consideration by the Risk Management Committee and the OTC Clear Board. The OTC Clear Board may, after consultation with the Risk Management Committee, approve any such proposed amendment or revision to the Default Management Process in accordance with Clearing Rule 201; and

(2) participate in each fire drill conducted by OTC Clear in relation to the Default Management Process. Fire drills in relation to the Default Management Process will be held at least once a year.

1612. If, during the implementation of the Default Management Process following the occurrence of a DMP Event with respect to a Clearing Member, OTC Clear, in consultation with the Default Management Group determines that it would be necessary or desirable for the efficient management of such default to deviate from, or supplement, the Default Management Process, it may, without prior notice to the Clearing Members, implement the Default Management Process in such modified manner or timetable as it sees fit, provided that OTC Clear, with the assistance of the Default Management Group shall promptly notify the Risk Management Committee of such decision. OTC Clear and the Default Management Group shall take into account interest of the investing public, the Non-Defaulting Clearing Members and OTC Clear in determining whether it is necessary or desirable to deviate from, or supplement, the Default Management Process.

Chapter 17 Porting

Porting

1701. An Affected Contract will not be subject to Hedging, and will not form part of the Auction Book, until such time as OTC Clear has determined that the Affected Contract in question will not be ported as described in this Chapter 17.

1702. In respect of each Client Position Account established by a Defaulting Clearing Member with OTC Clear, OTC Clear shall:

(1) calculate the balance of the Client Collateral Account in respect of such Client Position Account;

(2) in respect of each Client Clearing Category 1 Client who has appointed a Replacement Clearing Member, in the absence of an Event of Default with respect to such Replacement Clearing Member, provide to the Replacement Clearing Member details relating to the Affected Contracts registered in the name of such Defaulting Clearing Member in respect of such Client, and the balance of the Client Collateral Account relating to each such Client; and

(3) in respect of all Client Clearing Category 2 Clients sharing one single Client Clearing Category 2 Position Account, provided that all such Client Clearing Category 2 Clients have appointed the same Replacement Clearing Member, provide to the Replacement Clearing Member details relating to the Affected Contracts and the balance of the related Client Clearing Category 2 Collateral Account registered in the name of the Defaulting Clearing Member.

1703. In respect of all Affected Contracts registered in the name of a Defaulting Clearing Member in respect of a Client Clearing Category 1 Position Account relating to a Client, provided that OTC Clear is reasonably satisfied that (i) the Replacement Clearing Member has been appointed prior to the occurrence of the relevant DMP Event, (ii) it has received completed Porting Instructions by 5:00pm (Hong Kong time) on the OTC Clear Clearing Day immediately following the occurrence of such DMP Event, (iii) it has further received the consent of the appointed Replacement Clearing Member to accept the porting of all such Affected Contracts by 5:00pm (Hong Kong time) on the OTC Clear Clearing Day immediately following the occurrence of such DMP Event, (iv) no DMP Event has occurred with respect to the Replacement Clearing Member at the time of purported porting, and (v) the relevant margin and credit check relevant to the purported porting is successfully passed:

(1) if the relevant DMP Event with respect to the Defaulting Clearing Member is not an Automatic Early Termination Event, OTC Clear shall terminate and close-out such Affected Contracts at their market value (as determined by OTC Clear in its discretion) and enter into new Contracts on the same terms to such Affected Contracts with the appointed Replacement Clearing Member;

(1A) if the relevant DMP Event with respect to the Defaulting Clearing Member is an Automatic Early Termination Event:

(a) in respect of all such Affected Contracts that are Non-Porting AET Contracts:

(i) OTC Clear will determine the aggregate trade value in respect of all such Non-Porting AET Contracts as at the relevant Early Termination Date. Such aggregate trade value may be zero, positive or negative. A positive

aggregate trade value indicates a net sum being payable by OTC Clear to the Defaulting Clearing Member in respect of such Non-Porting AET Contracts; and a negative aggregate trade value indicates a net sum being payable by the Defaulting Clearing Member to OTC Clear in respect of such Non-Porting AET Contracts;

(ii) if the aggregate trade value determined pursuant to sub-paragraph (i) above is a positive number, such value shall be netted against any losses incurred by OTC Clear relating to such Non-Porting AET Contracts as a result of the default of the Defaulting Clearing Member. If the aggregate trade value determined pursuant to sub-paragraph (i) above is zero or a negative number, such value shall be aggregated with any such losses;

(iii) if the net sum determined pursuant to sub-paragraph (ii) is a negative number, the Outright Transfer Margin Balance, if any, relating to the relevant Client Clearing Category 1 Position Account and, if necessary, any proceeds of enforcement of any non-cash Collateral comprising the Margin Balance of the corresponding Collateral Account (and any income and redemption proceeds thereon that have not already been paid to or withdrawn by the Defaulting Clearing Member) shall be reduced by an amount equal to the absolute value of such net sum; and

(iv) if the net sum determined pursuant to sub-paragraph (ii) is a positive number, such net sum shall form part of the Client Entitlement to be returned to the relevant Client pursuant to Clearing Rule 1309A; and

(b) in respect of all such Affected Contracts that are Porting AET Contracts, OTC Clear shall enter into new Contracts with the appointed Replacement Clearing Member on the same terms as such Porting AET Contracts;

(2) pursuant to the terms of the Client Clearing Agreement between the Defaulting Clearing Member and such Client, OTC Clear shall transfer, on account of such Client, the Client Clearing Category 1 Account Balance relating to such Client (excluding any Collateral recorded in the Client Clearing Category 1 Collateral Account relating to such Client that is subject to a Deed of Charge between the Defaulting Clearing Member and OTC Clear in respect of the Client Collateral Account(s)) to the appointed Replacement Clearing Member;

(3) the amount due to be returned to the Defaulting Clearing Member in respect of such Client Clearing Category 1 Position Account and related Client Clearing Category 1 Collateral Account shall be reduced by an amount equal to the Client Clearing Category 1 Account Balance referred to in sub-paragraph (2) above; and

(4) in respect of any Collateral recorded in the Client Clearing Category 1 Collateral Account relating to such Client that is subject to a Deed of Charge between the Defaulting Clearing Member and OTC Clear in respect of the Client Collateral Account(s), porting shall be effected as follows:

(a) any equities of redemption held by the Defaulting Clearing Member in respect of that Collateral shall be assigned absolutely to the Replacement Clearing Member, such that those equities of redemption become subject to the security interests granted in favour of OTC Clear pursuant to the Deed of Charge between the Replacement Clearing Member and OTC Clear; and

(b) OTC Clear shall release that Collateral from the security interests granted in favour of OTC Clear pursuant to the relevant Deed of Charge between the Defaulting Clearing Member and OTC Clear, such that the Replacement Clearing Member becomes entitled to redeem that Collateral pursuant to any equities of redemption assigned to it pursuant to sub-paragraph (a) above.

1704. In respect of all Affected Contracts registered in the name of a Defaulting Clearing Member in respect of a Client Clearing Category 2 Position Account, provided that OTC Clear is reasonably satisfied that (i) the Replacement Clearing Member has been appointed by all Clients identified as sharing such Client Clearing Category 2 Position Account prior to the occurrence of the relevant DMP Event, (ii) all such Clients have appointed the same Replacement Clearing Member, (iii) it has received completed Porting Instructions from all of the Clients identified as sharing such Client Clearing Category 2 Position Account by 5:00pm (Hong Kong time) on the OTC Clear Clearing Day immediately following the occurrence of such DMP Event, (iv) OTC Clear has further received the consent of the appointed Replacement Clearing Member to accept the porting of all such Affected Contracts by 5:00pm (Hong Kong time) on the OTC Clear Clearing Day immediately following the occurrence of such DMP Event, (v) no DMP Event has occurred with respect to the Replacement Clearing Member at the time of purported porting, and (vi) the relevant margin and credit check relevant to the purported porting is successfully passed:

(1) if the relevant DMP Event with respect to the Defaulting Clearing Member is not an Automatic Early Termination Event, OTC Clear shall terminate and close-out such Affected Contracts at their market value (as determined by OTC Clear in its discretion) and enter into new Contracts on the same terms to such Affected Contracts with the appointed Replacement Clearing Member;

(1A) if the relevant DMP Event with respect to the Defaulting Clearing Member is an Automatic Early Termination Event:

(a) in respect of all such Affected Contracts that are Non-Porting AET Contracts:

(i) OTC Clear will determine the aggregate trade value in respect of all such Non-Porting AET Contracts as at the relevant Early Termination Date. Such aggregate trade value may be zero, positive or negative. A positive aggregate trade value indicates a net sum being payable by OTC Clear to the Defaulting Clearing Member in respect of such Non-Porting AET Contracts; and a negative aggregate trade value indicates a net sum being payable by the Defaulting Clearing Member to OTC Clear in respect of such Non-Porting AET Contracts;

(ii) if the aggregate trade value determined pursuant to sub-paragraph (i) above is a positive number, such value shall be netted against any losses incurred by OTC Clear relating to such Non-Porting AET Contracts as a result of the default of the Defaulting Clearing Member. If the aggregate trade value determined pursuant to sub-paragraph (i) above is zero or a negative number, such value shall be aggregated with any such losses;

(iii) if the net sum determined pursuant to sub-paragraph (ii) is a negative number, the Outright Transfer Margin Balance, if any, relating to the relevant Client Clearing Category 2 Position Account and, if necessary,

any proceeds of enforcement of any non-cash Collateral comprising the Margin Balance of the corresponding Collateral Account (and any income and redemption proceeds thereon that have not already been paid to or withdrawn by the Defaulting Clearing Member) shall be reduced by an amount equal to the absolute value of such net sum; and

(iv) if the net sum determined pursuant to sub-paragraph (ii) is a positive number, such net sum shall form part of the Client Entitlement to be returned to the relevant Client pursuant to Clearing Rule 1309A; and

(b) in respect of all such Affected Contracts that are Porting AET Contracts, OTC Clear shall enter into new Contracts with the appointed Replacement Clearing Member on the same terms as such Porting AET Contracts;

(2) pursuant to the terms of the Client Clearing Agreement between the Defaulting Clearing Member and each such Client, OTC Clear shall transfer, on account of all such Clients sharing the same Client Clearing Category 2 Position Account, the aggregate Client Clearing Category 2 Account Balances of such Clients (excluding any Collateral recorded in the Client Clearing Category 2 Collateral Account relating to that Client Clearing Category 2 Position Account that is subject to a Deed of Charge between the Defaulting Clearing Member and OTC Clear in respect of the Client Collateral Account(s)) to the appointed Replacement Clearing Member;

(3) the amount due to be returned to the Defaulting Clearing Member in respect of such Client Clearing Category 2 Position Account and such Client Clearing Category 2 Collateral Account shall be reduced by an amount equal to the Client Clearing Category 2 Account Balances referred to in sub-paragraph (2) above; and

(4) in respect of any Collateral recorded in such Client Clearing Category 2 Collateral Account that is subject to a Deed of Charge between the Defaulting Clearing Member and OTC Clear in respect of the Client Collateral Account(s), porting shall be effected as follows:

(a) any equities of redemption held by the Defaulting Clearing Member in respect of that Collateral shall be assigned absolutely to the Replacement Clearing Member, such that those equities of redemption become subject to the security interests granted in favour of OTC Clear pursuant to the Deed of Charge between the Replacement Clearing Member and OTC Clear; and

(b) OTC Clear shall release that Collateral from the security interests granted in favour of OTC Clear pursuant to the relevant Deed of Charge between the Defaulting Clearing Member and OTC Clear, such that the Replacement Clearing Member becomes entitled to redeem that Collateral pursuant to any equities of redemption assigned to it pursuant to sub-paragraph (a) above.

1704A. A Defaulting Clearing Member agrees to waive any of its rights or entitlements to object to the Affected Contracts registered in its name to be ported. In respect of each Affected Contract being ported at a Client's request and pursuant to these Clearing Rules, the Defaulting Clearing Member and the relevant Replacement Clearing Member shall co-operate with OTC Clear and the Client(s) and facilitate such porting arrangement, including:

(1) if the relevant DMP Event with respect to the Defaulting Clearing Member is not an Automatic Early Termination Event, closing-out each Affected Contract and re-establishing a new Contract on the same terms as the relevant Affected Contract with the relevant Replacement Clearing Member; or

(2) if the relevant DMP Event with respect to the Defaulting Clearing Member is an Automatic Early Termination Event, OTC Clear entering into new Contracts with the relevant Replacement Clearing Member on the same terms as such Affected Contracts that are Porting AET Contracts,

and any associated movement of Collateral relating to such Affected Contracts.

1704B. In respect of the porting of a Client's portfolio of Contracts registered with the Defaulting Clearing Member in the relevant Client Position Account from the Defaulting Clearing Member to the Replacement Clearing Member, no amounts shall be payable between and amongst the Defaulting Clearing Member, the Replacement Clearing Member and the Client solely as a result of the change in the net present value of such Contracts.

1705. OTC Clear is entitled to rely on the Porting Instructions or any other document relating thereto reasonably believed by it to be genuine, correct and appropriately authorised, and OTC Clear shall be deemed to have acted in good faith if it has conducted the porting in accordance with the Porting Instructions.

1706. It is the obligation of a Clearing Member to duly advise and inform its Clients that:

(1) if no Replacement Clearing Member has been appointed (or, in the case of a Client Clearing Category 2 Position Account, if all of the Clients identified as sharing such Client Clearing Category 2 Position Account have not appointed the same Replacement Clearing Member or if that Replacement Clearing Member does not accept porting of all of the Clients identified as sharing such Client Clearing Category 2 Position Account), then following designation of such Clearing Member as a Defaulting Clearing Member, any Affected Contracts registered in the name of such Clearing Member will not be ported; and

(2) if a Replacement Clearing Member has been appointed in respect of all Affected Contracts registered in the name of such Clearing Member in respect of a Client Position Account, subsequent to such Clearing Member becoming a Defaulting Clearing Member, whilst OTC Clear will, in accordance with Clearing Rule 1703, arrange for all such Affected Contracts to be ported, whether or not such Affected Contracts will be successfully ported is dependant on whether the Replacement Clearing Member will accept the porting of all such Affected Contracts, or, in the case of a Client Clearing Category 2 Position Account, whether all of the Clients identified as sharing such Client Clearing Category 2 Position Account have appointed the same Replacement Clearing Member or whether the Replacement Clearing Member will accept porting of all of the Clients identified as sharing such Client Clearing Category 2 Position Account. OTC Clear may deem the purported porting of any Affected Contract to the relevant Replacement Clearing Member as having failed if such porting cannot be completed for any reason on or before 19:00 hours Hong Kong Time on the second OTC Clear Clearing Day following the occurrence of such DMP Event. Any Affected Contract that has not been successfully ported will form part of the Auction Book.

OTC Clear shall not have any liability including, but not limited to, any civil liability, whether arising in contract, tort, defamation, equity or otherwise for any Damage suffered or incurred directly or indirectly by a Client or any other Person as a result of a failure to port an Affected Contract registered in the name of the Defaulting Clearing Member.

1707. Each of the Defaulting Clearing Member and the Replacement Clearing Member shall jointly and severally indemnify OTC Clear, its Affiliate and a recognized exchange controller which is the controller of OTC Clear and keep OTC Clear, its Affiliate and a recognized exchange controller which is the controller of OTC Clear indemnified from and against any loss, cost (including cost of enforcement), interests, liability (including any tax or other fiscal liability), claim or Damage which OTC Clear, its Affiliate and a recognized exchange controller which is the controller of OTC Clear incurred or suffered in connection with the porting of any Contract and Collateral pursuant to any porting instruction.

1708. Clients in respect of whom porting has been successfully carried out pursuant to this Chapter 17 are referred to as "**Porting Clients**"; and Clients in respect of whom porting are not, or have not been successfully, carried out pursuant to this Chapter 17 are referred to as "**Non-Porting Clients**", and "**Porting Client**" and "**Non-Porting Client**" shall be construed accordingly.

1709. Pursuant to the power of OTC Clear to make rules under section 40(2A) of the SFO, if an Affected Contract has been successfully ported to the Replacement Clearing Member pursuant to this Chapter 17, any Corresponding Client Transaction corresponding to such Affected Contract may at the option of the Client be terminated with the Defaulting Clearing Member, re-established with, transferred or novated to the Replacement Clearing Member.

1710. References to Affected Contracts being "ported" pursuant to this Chapter 17 shall mean:

(1) in respect of Affected Contracts other than Affected AET Contracts, such Affected Contracts being terminated and OTC Clear entering into new Contracts on the same terms as such Affected Contracts with the relevant Replacement Clearing Member pursuant to Clearing Rule 1703(1) or Clearing Rule 1704(1); or

(2) in respect of Porting AET Contracts, OTC Clear entering into new Contracts with the relevant Replacement Clearing Member on the same terms as Porting AET Contracts pursuant to Clearing Rule 1703(1A)(b) or Clearing Rule 1704(1A)(b).

Chapter 18 Hedging

Hedging

1801. Following the occurrence of the relevant DMP Event in respect of a Defaulting Clearing Member, and subsequent to the completion of porting with respect to all Affected Contracts registered in the name of the Defaulting Clearing Member, provided that the Hedging strategies presented by the Default Management Group have been approved by OTC Clear, the Default Management Group will, on behalf of OTC Clear, conduct Hedging to mitigate, to the extent commercially practicable, any risk or economic exposure which arises as a result of the occurrence of the relevant DMP Event. Notwithstanding the immediately foregoing, OTC Clear has no obligation to conduct Hedging following the occurrence of a DMP Event. Neither OTC Clear nor the Default Management Group shall owe any fiduciary duty to any Clearing Member or any other Person in approving Hedging strategies or executing any such Hedging strategy.

1802. In executing Hedging transactions as part of the Default Management Process, the Default Management Group will take into account the risks introduced by the DMP Event to OTC Clear, other Non-Defaulting Clearing Members and the investing public, and shall at all times endeavour to obtain the best prevailing price and terms available, taking into account any constraints on the time available for execution of such Hedging.

1803. All Hedging shall be undertaken by OTC Clear for its own account. In respect of any Hedging transaction executed between OTC Clear and a Non-Defaulting Clearing Member as a hedge provider pursuant to this Chapter 18 which is intended to form part of an Auction Portfolio, OTC Clear shall register such Hedging transaction as a Contract. Upon completion of the Auction process, OTC Clear shall create and register a Contract between OTC Clear and the Successful Bidder, with equal but opposite terms to the relevant Hedging transaction referred to in this Clearing Rule 1803. In addition, for Hedging of Standard Cross-currency Rates Derivatives Contracts, other Hedging instruments may be considered by OTC Clear at its discretion for liquidity management and Hedging purposes. Such Hedging instruments shall be entered into by OTC Clear for its own account and may be entered into with entities that are not Clearing Members.

1804. For the avoidance of doubt, a single Hedging transaction cannot be split into more than one Auction Portfolio. In addition, any Hedging transactions with entities that are not Clearing Members should not be included in Auction Portfolios. Any losses or costs incurred as a result of the entering into of a Hedging transaction shall be allocated as part of the Auction Losses or Contract Termination Losses relating to the relevant Auction Portfolio.

Chapter 19 Auction

Auction Portfolios

1901. The purpose of the Auction process described in this Chapter 19 is to identify replacement Clearing Members who will enter into Contracts with OTC Clear with the same economic terms as Contracts registered in the name of the Defaulting Clearing Member (other than any Affected Contract that has been successfully ported pursuant to Chapter 17 of these Clearing Rules). The Auction process intends for OTC Clear to remain risk-neutral following the occurrence of a DMP Event, and to assist OTC Clear in determining the termination value of the portfolio of Contracts registered in the name of the Defaulting Clearing Member immediately prior to their termination (other than any Affected Contract that has been successfully ported pursuant to Chapter 17 of these Clearing Rules), which will be used in the calculations performed under Clearing Rules 1306, 1306A, 1306B, 1306C and 1307.

1902. OTC Clear will, in consultation with the Default Management Group, construct one or more Auction Portfolio(s) in respect of the Auction Positions on the Auction Book.

1903. OTC Clear and the Default Management Group will exercise their discretion in constructing Auction Portfolios consisting of Auction Positions with similar risk profile, with the aim to maximize the likelihood of achieving Successful Bids at a commercially reasonable price, provided that Contracts registered to a Defaulting Clearing Member's House Position Account shall not be included in the same Auction Portfolio as Contracts registered to a Defaulting Clearing Member's Client Position Accounts in respect of Non-Porting Clients.

1904. The construction of Auction Portfolios will be determined by OTC Clear, in consultation with the Default Management Group, separately in respect of each DMP Event and therefore may vary from one DMP Event to another.

Auction for Multiple Auction Portfolios

1905. Each Auction Portfolio shall be subject to its own Auction.

Conduct of Auction

1906. A Non-Defaulting Clearing Member must participate in the Auction for an Auction Portfolio if it has, on any day during the 20 OTC Clear Business Day-period immediately prior to such Auction, any Contract of a Transaction Category which is the same as any Contracts registered in the name of a Defaulting Clearing Member within that Auction Portfolio. Each Bidder agrees to enter into Contracts with OTC Clear on the same terms as the Auction Positions upon acceptance by OTC Clear of its Bid.

1907. A Non-Defaulting Clearing Member who, on any day during the 20 OTC Clear Business Day-period immediately prior to the Auction of an Auction Portfolio, does not have a Contract of a Transaction Category which is the same as any Contracts registered in the name of a Defaulting Clearing Member within such Auction Portfolio shall be entitled, but is not obliged, to participate in the Auction for such Auction Portfolio.

1908. Notwithstanding Clearing Rules 1906 and 1907, a resigning Clearing Member is not required to participate in the Auction if each of:

(1) the Initial Margin requirements (in respect of each of its House Position Account and Client Position Accounts (if any)) shown on the end-of-day Margin report published on an OTC Clear Clearing Day; and

(2) the net notional of all Contracts recorded to such resigning Clearing Member,

becomes zero prior to the commencement of the Auction process, provided that such resigning Clearing Member shall notify OTC Clear of the same no later than 5 OTC Clear Business Days prior to the commencement of the Auction.

1909. Each Bidder shall comply with the bidding process set out in these Clearing Rules.

Bidding

1910. Each Bidder shall specify the account to which any Auction Contract should be registered if the Bid is successful.

1911. A DMG Member shall not submit Bids for and on behalf of the Bidder of which it is representative and the identity of each Bidder shall be kept anonymous from the DMG Members.

1912. OTC Clear will oversee the bidding process and ensure that Bids represent fair value of the relevant Auction Portfolio on the basis of such factors as OTC Clear considers appropriate. OTC Clear may, but is not obliged, to consult with the Risk Management Committee prior to accepting any Bids, but OTC Clear will inform the Risk Management Committee regarding the progress of the Default Management Process.

Initial Allocation of Resources

1913. In respect of each Auction Portfolio, OTC Clear will, in consultation with the Default Management Group, determine the RAP and the Margin Allocation Percentage(s) for such Auction Portfolio. OTC Clear will, prior to the commencement of Auction, notify all Non-Defaulting Clearing Members of the RAP for each Auction Portfolio. On the basis of the RAP and the Margin Allocation Percentage(s) determined for an Auction Portfolio, OTC Clear will allocate a pool of resources for such Auction Portfolio (the "**Preliminary Available Resources**").

1913A. In respect of an Auction Portfolio in relation to Contracts registered to a Defaulting Clearing Member's House Position Account (a "**House Auction Portfolio**"), the resources set out in sub-paragraphs (1) to (6) below, to the extent not already applied in accordance with Clearing Rules 1516(1) and 1516(2), shall together constitute the Preliminary Available Resources allocated to such House Auction Portfolio for the purpose of satisfying any Auction Losses or Contract Termination Losses arising from such Auction Portfolio. OTC Clear shall be entitled to apply its resources, in any manner or order including for the avoidance of doubt in an order which is different from the order described hereunder, for satisfaction of the Auction Losses or Contract Termination Losses arising from such House Auction Portfolio, provided that upon completion of a successful Auction or the occurrence of a Contract Termination Event (as applicable) in respect of all Auction Portfolios relating to a DMP Event, it shall perform the loss allocation process set out in Clearing Rules 1914 to 1916:

(1) a pool of assets comprising the following (the "**Initial House Resources**"):

(a) all Auction Payments and Contract Termination Net Payments (if any) received by OTC Clear with respect to such House Auction Portfolio constructed as a result of such DMP Event;

(b) any Unpaid Amounts due from OTC Clear to the Defaulting Clearing Member in respect of Contracts recorded in such Defaulting Clearing Member's House Position Account;

(c) the Unsettled VM Amount in respect of the Auction Contracts and/or Auction Failed Positions comprised in such House Auction Portfolio (to the extent that such Unsettled VM Amount is payable by OTC Clear to the Defaulting Clearing Member) (if any); and

(d) a pool of assets the value of which represents the Margin Allocation Percentage for such House Auction Portfolio applied to the Margin Balance recorded to the House Collateral Account, any income and redemption proceeds on any non-cash Collateral recorded to the House Collateral Account and any proceeds of realization of any such non-cash Collateral that have not already been paid to or withdrawn by the Defaulting Clearing Member in respect of the Defaulting Clearing Member (the "**DCM Margin**");

(2) a pool of assets the value of which represents the RAP (assigned to such House Auction Portfolio) of the Rates and FX Contribution Balance recorded to the GF Account of the Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1548);

(3) a pool of assets the value of which represents the RAP (assigned to such House Auction Portfolio) of the OTC Clear First Contribution;

(4) a pool of assets the value of which represents the RAP (assigned to such House Auction Portfolio) of the aggregate Rates and FX Contribution Balance in respect of the CM Funded Contribution Amount of each Non-Defaulting Clearing Member and recorded to the GF Account of each such Non-Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1517) (the aggregate value of the CM Funded Contribution Amount of all Non-Defaulting Clearing Members is referred to as the "**NDCM GF**");

(5) a pool of assets the value of which represents the RAP (assigned to such House Auction Portfolio) of the OTC Clear Second Contribution; and

(6) a pool of assets the value of which represents the RAP (assigned to such House Auction Portfolio) of the aggregate value of the Rates and FX Contribution Balance in respect of the CM Unfunded Contribution Amount of each Non-Defaulting Clearing Member and recorded to the GF Account of each such Non-Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1517).

For the avoidance of doubt, this Clearing Rule 1913A does not apply to an Auction Portfolio in relation to Contracts registered to a Defaulting Clearing Member's Client Position Account(s) with respect to its Non-Porting Client(s) (a "**Client Auction Portfolio**"). The Preliminary Available Resources for a Client Auction Portfolio are determined as set out in Clearing Rule 1913B.

1913B. In respect of a Client Auction Portfolio, the resources set out in sub-paragraphs (1) to (6) below, to the extent not already applied in accordance with Clearing Rules 1516(1) and 1516(2), shall together constitute the Preliminary Available Resources allocated to such Client Auction Portfolio for the purpose of satisfying any Auction Losses or Contract Termination Losses arising from such Client Auction Portfolio. OTC Clear shall be entitled to apply its resources, in any manner or order including for the avoidance of doubt in an order which is different from the order described hereunder, for satisfaction of the Auction Losses or Contract Termination Losses arising from such Client Auction Portfolio, provided that upon completion of a successful Auction or the occurrence of a Contract Termination

Event (as applicable) in respect of all Auction Portfolios relating to a DMP Event, it shall perform the loss allocation process set out in Clearing Rules 1914 to 1916:

(1) a pool of assets comprising the following (the "**Initial Non-Porting Client Resources**"):

(a) all Auction Payments and Contract Termination Net Payments (if any) received by OTC Clear with respect to such Client Auction Portfolio constructed as a result of such DMP Event;

(b) any Unpaid Amounts due from OTC Clear to the Defaulting Clearing Member in respect of the Contracts corresponding to the Auction Contracts and/or Auction Failed Positions comprised in such Client Auction Portfolio;

(c) the Unsettled VM Amount in respect of the Auction Contracts and/or Auction Failed Positions comprised in such Client Auction Portfolio (to the extent that such Unsettled VM Amount is payable by OTC Clear to the Defaulting Clearing Member) (if any); and

(d) a pool of assets the value of which represents the aggregate of, for each Client Collateral Account corresponding to that Client Auction Portfolio, the Margin Allocation Percentage for that Client Collateral Account and Client Auction Portfolio applied to the aggregate of the Margin Balance recorded to that Client Collateral Account, any income and redemption proceeds on any non-cash Collateral recorded to that Client Collateral Account and any proceeds of realization of any such non-cash Collateral that have not already been paid to or withdrawn by the Defaulting Clearing Member in respect of the Non-Porting Client(s) (the "**Non-Porting Client Margin**");

(2) a pool of assets the value of which represents the RAP (assigned to such Client Auction Portfolio) of the Rates and FX Contribution Balance recorded to the GF Account of the Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1548);

(3) a pool of assets the value of which represents the RAP (assigned to such Client Auction Portfolio) of the OTC Clear First Contribution;

(4) a pool of assets the value of which represents the RAP (assigned to such Client Auction Portfolio) of the NDCM GF (by application in the manner set out in Clearing Rule 1517);

(5) a pool of assets the value of which represents the RAP (assigned to such Client Auction Portfolio) of the OTC Clear Second Contribution; and

(6) a pool of assets the value of which represents the RAP (assigned to such Client Auction Portfolio) of the aggregate value of the Rates and FX Contribution Balance in respect of the CM Unfunded Contribution Amount of each Non-Defaulting Clearing Member and recorded to the GF Account of each such Non-Defaulting Clearing Member (by application in the manner set out in Clearing Rule 1517).

1913C. With respect to each layer of Preliminary Available Resources set out in Clearing Rules 1913A and 1913B, to the extent that it comprises Collateral in more than one currency or form, OTC Clear has the sole discretion in allocating such Collateral, in any currency or form, or combination of currencies or forms and in whatever percentage, as part of the Preliminary Available Resources allocated to an Auction Portfolio. In performing the

immediately foregoing, OTC Clear will consult the Default Management Group, and take into account factors such as risk correlation or foreign exchange risk relating to the Auction Positions comprising the Auction Portfolio.

Loss Allocation

1914. Upon completion of a successful Auction or the occurrence of a Contract Termination Event (as applicable) with respect to all Auction Portfolios constructed as a result of the occurrence of a DMP Event with respect to the Defaulting Clearing Member, and provided that the process described in Clearing Rules 1516(1) and 1516(2) is completed, OTC Clear, in consultation with the Default Management Group, will perform the following loss allocation process with respect to each such Auction Portfolio:

(1) first:

(a) the Initial House Resources allocated to a House Auction Portfolio pursuant to Rule 1913A will be applied towards the Auction Losses or Contract Termination Losses relating to such House Auction Portfolio provided that:

(A) to the extent that the Initial House Resources allocated to such House Auction Portfolio exceed the Auction Losses or Contract Termination Losses relating to such Auction Portfolio, such excess shall be applied to satisfy any Auction Losses or Contract Termination Losses relating to other House Auction Portfolio(s) constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member, if any, on a pro-rata basis by reference to the amount of such remaining Auction Losses or Contract Termination Losses;

(B) to the extent that there are (i) any excess Initial House Resources of a Defaulting Clearing Member subsequent to the application of the same pursuant to sub-paragraph (A) above and (ii) any Auction Losses or Contract Termination Losses relating to Client Auction Portfolio(s) constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member after the application of the relevant Initial House Resources pursuant to subparagraph 1914(1)(b)(A) below, such excess Initial House Resources shall be applied to satisfy such Auction Losses or Contract Termination Losses relating to the Client Auction Portfolio(s) on a pro-rata basis by reference to the amount of such remaining Auction Losses or Contract Termination Losses; and

(C) to the extent that there is any excess DCM Margin of a Defaulting Clearing Member subsequent to the application of the same pursuant to sub-paragraph (A) and (B) above, such excess DCM Margin shall constitute Excess Margin of such Defaulting Clearing Member pursuant to Clearing Rule 1218;

For the avoidance of doubt, the Initial House Resources of a Defaulting Clearing Member shall not be applied towards any Auction Losses or Contract Termination Losses relating to Auction Portfolio(s) constructed as a result of the occurrence of a DMP Event with respect to any other Defaulting Clearing Member;

(b) the Initial Non-Porting Client Resources allocated to a Client Auction Portfolio pursuant to Clearing Rule 1913B will be applied towards the Auction Losses or Contract Termination Losses relating to such Client Auction Portfolio to the extent that such Auction Losses or Contract Termination Losses relate to the Client Position Account to which the Unsettled VM Amount or Unpaid Amount relates, or in the case of Non-Porting Client Margin, the Client Position Account attributed to the Client Collateral Account in which such Non-Porting Client Margin is recorded, provided that:

(A) subsequent to that application process, to the extent that there are any Initial Non-Porting Client Resources allocated to such Client Auction Portfolio pursuant to Clearing Rule 1913B which are not applied to the Auction Losses or Contract Termination Losses relating to such Auction Portfolio, such excess shall be applied to satisfy any Auction Losses or Contract Termination Losses relating to other Client Auction Portfolio(s) constructed as a result of the occurrence of a DMP Event in respect of the same corresponding Client Position Account(s), if any, on a pro-rata basis by reference to the amount of such remaining Auction Losses or Contract Termination Losses (to the extent that such remaining Auction Losses or Contract Termination Losses relate to the Client Position Account to which the Unsettled VM Amount or Unpaid Amount relates, or in the case of Non-Porting Client Margin, the Client Position Account attributed to the Client Collateral Account in which such excess Non-Porting Client Margin is recorded); and

(B) to the extent that there are any excess Initial Non-Porting Client Resources subsequent to the application of the same pursuant to sub-paragraph (A) above, such excess Initial Non-Porting Client Resources would form part of the Non-Porting Client Credit and, hence, the Client Entitlement of the relevant Client(s);

For the avoidance of doubt, any excess Initial Non-Porting Client Resources shall only form part of the Client Entitlement of the Client(s) to which such Initial Non-Porting Client Resources relate and shall not form part of the Client Entitlement of other Client(s);

(c) for the purposes of sub-paragraph (b)(A) above and Clearing Rule 1307, the amount of Auction Losses or Contract Termination Losses in the form of hedging costs or risk premia that shall be treated as “relating to” a Client Position Account shall be an amount equal to the product of:

(A) with respect to an Auction Portfolio, the hypothetical Initial Margin with respect to the Contracts of that Client Position Account comprised in the relevant Auction Portfolio (calculated on a portfolio margining basis assuming that such Contracts were booked into a single separate hypothetical Client Position Account) divided by the aggregate of the hypothetical Initial Margin of all Client Position Accounts comprised in such Auction Portfolio (where such Auction Portfolio comprises Contracts originally booked to more than one Client Position Account, but the entire Client Position Account is not

comprised in such Auction Portfolio, the hypothetical Initial Margin for each such partial Client Position Account shall be calculated on a portfolio margining basis disregarding the fact that such Client Position Account is not whole; for the avoidance of doubt, where such Auction Portfolio comprises Contracts originally booked to more than one Client Position Account and each entire Client Position Account is comprised in such Auction Portfolio, the Initial Margin of such Client Position Accounts shall be aggregated), in each case, such Initial Margin being calculated as at the latest practicable time immediately preceding the occurrence of the relevant DMP Event as determined by OTC Clear in its sole and absolute discretion (the "**Hypothetical IM Percentage**"); and

(B) the amount of Auction Losses or Contract Termination Losses in the form of hedging costs and risk premia relating to the relevant Auction Portfolio referred to in sub-paragraph (c)(A) above;

(d) for the purposes of sub-paragraph (b)(A) above and Clearing Rule 1307, the amount of Auction Payments or Contract Termination Net Payments in the form of risk concessions that shall be treated as "relating to" a Client Position Account shall be an amount equal to the product of:

(A) with respect to an Auction Portfolio, the Hypothetical IM Percentage for that Client Position Account calculated pursuant to sub-paragraph (c)(A) above; and

(B) the amount of Auction Payments in the form of risk concessions relating to the relevant Auction Portfolio referred to in sub-paragraph (d)(A) above;

For the avoidance of doubt, the process in this sub-paragraph (b) shall be repeated until all the Auction Losses or Contract Termination Losses relating to such Client Auction Portfolio have been applied to the Client Collateral Account(s) comprising the Initial Non-Porting Client Resources allocated to such Client Auction Portfolio pursuant to Clearing Rule 1913B.

(2) second, having utilized the Initial House Resources of the Defaulting Clearing Member in full, any remaining Auction Losses or Contract Termination Losses arising from such Auction Portfolio and attributable to such Defaulting Clearing Member will be satisfied using the RAP of the Rates and FX Contribution Balance of the Defaulting Clearing Member allocated to such Auction Portfolio pursuant to Rule 1913A or 1913B, as the case may be. In the event there is a DCM GF Surplus relating to an Auction Portfolio, such DCM GF Surplus will be applied towards any DCM GF Shortfall relating to other Auction Portfolios (constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member), on a pro-rata basis among all such Auction Portfolios by reference to the amount of such DCM GF Shortfall, until the earlier to occur of:

(a) the satisfaction in full of the Auction Losses or Contract Termination Losses with respect to all such Auction Portfolios; and

(b) the utilization of the DCM GF in full.

The above shall be without prejudice to the operation of Clearing Rule 1916.

(3) third, subsequent to the utilization of the Rates and FX Contribution Balance of the Defaulting Clearing Member in full (or, in the occurrence of multiple DMP Events within the same Capped Liability Period, taking into account the operation of Clearing Rule 1916, the utilization of the Rates and FX Contribution Balance of all Defaulting Clearing Members with respect to whom a DMP Event has occurred during the relevant Capped Liability Period), OTC Clear will satisfy the Auction Losses or Contract Termination Losses arising from such Auction Portfolio using the relevant proportion of the OTC Clear First Contribution allocated to such Auction Portfolio pursuant to Rule 1913A or 1913B, as the case may be. To the extent that the relevant proportion of the OTC Clear First Contribution allocated to such Auction Portfolio exceeds the Auction Losses or Contract Termination Losses relating to such Auction Portfolio, such excess shall be applied towards the Auction Losses or Contract Termination Losses relating to other Auction Portfolios (constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member) on a pro-rata basis by reference to the amount of such remaining Auction Losses or Contract Termination Losses, until the earlier to occur of:

(a) the satisfaction in full of the Auction Losses or Contract Termination Losses with respect to all such Auction Portfolios; and

(b) utilization of the OTC Clear First Contribution in full;

(4) subsequent to the utilization of the OTC Clear First Contribution in full, with respect to each Auction Portfolio (constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member) with remaining Auction Losses or Contract Termination Losses, OTC Clear will (i) in the case of Contract Termination Losses, apply the NDCM GF towards such Contract Termination Losses or (ii) in the case of Auction Losses, apply the relevant proportion of the NDCM GF in the following order:

(a) first, the relevant proportion of the Rates and FX Guarantee Fund of each Non-Bidder and Poor Bidder will be applied (the "**Junior Tranche**");

(b) second, the relevant proportion of the Rates and FX Guarantee Fund of each Lower Bidder will be applied (the "**Middle Tranche**"); and

(c) third, the relevant proportion of the Rates and FX Guarantee Fund of each Successful Bidder, Equal Bidder, Better Bidder and No Position NDCM will be applied (the "**Senior Tranche**", and together with the Junior Tranche and Middle Tranche, the "**Tranches**" and each a "**Tranche**"),

in each case, the relevant proportion of the Rates and FX Guarantee Fund of each Bidder will be applied on a pro-rata basis among each other Bidder within the same Tranche.

The methodology described in item (ii) above shall be referred to as the "**Tranching Methodology**".

In the event that there is an NDCM GF Shortfall relating to an Auction Portfolio, any NDCM GF Surplus relating to other Auction Portfolios (constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member) will be applied towards such NDCM GF Shortfall (in the case of Auction Losses, in accordance with the Tranching Methodology for the Auction Portfolio to which that

NDCM GF Surplus relates), on a pro-rata basis among all other Auction Portfolios (constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member) with an NDCM GF Shortfall by reference to the amount of such NDCM GF Shortfall, until the earlier to occur of:

(A) the satisfaction in full of the Auction Losses and Contract Termination Losses with respect to all such Auction Portfolios; and

(B) utilization of the NDCM GF in full;

(5) subsequent to the utilization of the NDCM GF in full, with respect to each Auction Portfolio with remaining Auction Losses or Contract Termination Losses, OTC Clear will satisfy such Auction Losses or Contract Termination Losses using the relevant proportion of the OTC Clear Second Contribution allocated to such Auction Portfolio pursuant to Rule 1913A or 1913B, as the case may be. To the extent that the relevant proportion of the OTC Clear Second Contribution allocated to such Auction Portfolio exceeds the Auction Losses or Contract Termination Losses relating to such Auction Portfolio, such excess shall be applied towards the Auction Losses or Contract Termination Losses relating to other Auction Portfolios (constructed as a result of the occurrence of a DMP Event with respect to such Defaulting Clearing Member) on a pro-rata basis by reference to the amount of such remaining Auction Losses or Contract Termination Losses, until the earlier to occur of:

(a) the satisfaction in full of the Auction Losses or Contract Termination Losses with respect to all such Auction Portfolios; and

(b) utilization of the OTC Clear Second Contribution in full; and

(6) subsequent to the utilisation of OTC Clear Second Contribution in full, with respect to each Auction Portfolio with remaining Auction Losses or Contract Termination Losses, OTC Clear will apply the relevant proportion of the Rates and FX Assessments of each Non-Defaulting Clearing Member (using, in the case of Auction Losses, the Tranching Methodology as set out in sub-paragraph (4) above and any references to NDCM GF therein shall be construed to mean Rates and FX Assessments).

The loss allocation process set out in this Clearing Rule 1914 shall be conducted in manner consistent with that set out in Clearing Rule 1517.

For the purpose of this Clearing Rule 1914 but without prejudice to the operation of Clearing Rule 1916, with respect to each DMP Event, any reference to a “Non-Defaulting Clearing Member” shall mean any Clearing Member other than the Defaulting Clearing Member with respect to whom such DMP Event has occurred.

1915. With respect to each layer of Preliminary Available Resources, to the extent that the Collateral of the same Clearing Member comprises more than one form of assets but all of which constitute the same layer of resources, OTC Clear shall have the discretion to utilize any form of such Clearing Member’s Collateral within the same layer of resources in any order and manner as it sees fit.

1916. In the event that more than one DMP Event occurs within the same Capped Liability Period, Clearing Rule 1545 shall apply. In addition, with respect to the Auction Losses

and/or Contract Termination Losses arising out of the DMP Events occurring within the same Capped Liability Period:

(1) OTC Clear may make such adjustments as are necessary in determining the Preliminary Available Resources and the RAP and the Margin Allocation Percentage(s) for each Auction Portfolio constructed as a result of each DMP Event occurring within the same Capped Liability Period. In doing so, OTC Clear will review the aggregate sum of all resources it has then to satisfy the Rates and FX Loss arising out of each such DMP Event, namely, the then Margin Balance held in respect of the Defaulting Clearing Members, any Unsettled VM Amount (to the extent that such Unsettled VM Amount is payable by OTC Clear to the Defaulting Clearing Members) and any income and redemption proceeds on any non-cash Collateral that have not already been paid to or withdrawn by the Defaulting Clearing Members, the OTC Clear Contribution, and the Rates and FX Contribution Balance then held in respect of by all Non-Defaulting Clearing Members; and

(2) (a) to the extent that the Auction Losses and/or Contract Termination Losses arising from all Auction Portfolios constructed for one single Defaulting Clearing Member do not require utilization in full of the Rates and FX Contribution of such Defaulting Clearing Member, any remaining Rates and FX Contribution of such Defaulting Clearing Member shall be utilized to satisfy any Auction Losses and/or Contract Termination Losses arising from one or more Auction Portfolios constructed for another Default Management Process in respect of another Defaulting Clearing Member;

(b) any excess Rates and FX Contribution of a Defaulting Clearing Member will be applied on a pro-rata basis based on the share of Rates and FX Contribution contributed by the relevant Defaulting Clearing Member; and

(c) OTC Clear will always ensure that the Rates and FX Contribution of all Defaulting Clearing Members whose DMP Events occurred within the same Capped Liability have been utilized in full prior to utilizing the OTC Clear First Contribution.

1917. OTC Clear will at all times observe Clearing Rule 823 in carrying out the loss allocation process described in Clearing Rules 1914 to 1916, and Initial Non-Porting Client Resources allocated to a Client Auction Portfolio of a Defaulting Clearing Member shall never be utilized to meet any losses arising out of such or other Defaulting Clearing Members' House Account.

Successive Auction

1918. If an Auction is unsuccessful in dealing with all Auction Positions in the relevant Auction Portfolio, further round(s) of Auction may be held. In order to facilitate the Auction process and/or if OTC Clear declares a Contract Termination Event affecting more than one Auction Portfolio, OTC Clear may, in consultation with the Default Management Group, decide to combine or sub-divide previously constructed Auction Portfolios for successive Auctions or for the purpose of allocating losses relating to a Contract Termination Event.

1918A. If, pursuant to Clearing Rule 1918, an Auction is held and is unsuccessful, and if OTC Clear reasonably believes that further round(s) of Auction will not be successful in dealing with all Auction Positions in one or more Auction Portfolio(s) within a reasonable time frame as determined by OTC Clear, OTC Clear may invoke the contract termination

process as provided for in this Clearing Rule in consultation with the SFC. OTC Clear shall determine which Contracts will be terminated, either in whole or in part, ("**Identified Contracts**") under this Clearing Rule, shall notify the relevant Clearing Members of the details of the relevant Identified Contracts, and shall declare the occurrence of a termination event in respect of such Identified Contracts, either in whole or in part, (a "**Contract Termination Event**"). In making this determination, OTC Clear may:

(i) select (a) those Contracts executed between OTC Clear and any Non-Defaulting Clearing Member for the purpose of Hedging the exposure of OTC Clear in relation to the Auction Failed Positions of the Defaulting Clearing Member and (b) those Contracts between OTC Clear and Non-Defaulting Clearing Members which have equal but opposite terms to the Auction Failed Positions in respect of the Defaulting Clearing Member; or

(ii) select (a) those Contracts executed between OTC Clear and any Non-Defaulting Clearing Member for the purpose of Hedging the exposure of OTC Clear in relation to the Auction Failed Positions of the Defaulting Clearing Member and (b) all Contracts which are of the same Transaction Category as the Contracts described in Clearing Rule 1918A(i)(b), regardless of whether such Contracts are on the same or equal but opposite terms to those of the Auction Failed Positions in respect of the Defaulting Clearing Member; or

(iii) select all Contracts registered at OTC Clear regardless of the Transaction Category of such Contracts.

The Identified Contracts shall be terminated as of the Final Settlement Cycle Determination Date for such Contract Termination Event as determined pursuant to section 10.5 of the Clearing Procedures.

1918B. On the Final Settlement Cycle Determination Date for a Contract Termination Event, all obligations of OTC Clear and the relevant Non-Defaulting Clearing Member in respect of each Identified Contract between them shall cease to exist and be replaced with the obligation of OTC Clear or the relevant Non-Defaulting Clearing Member, as the case may be, to pay a net sum in respect of all such Identified Contracts as between them (each a "**Contract Termination Net Payment**") equal to the change in net present value for each such Identified Contract between the last End-of Day Settlement Process immediately preceding the relevant Final Settlement Cycle Determination Date and 11.00 hours Hong Kong time on the Final Settlement Cycle Determination Date, as determined by OTC Clear in accordance with this Clearing Rule and sections 10.1(iv) and 10.5 of the Clearing Procedures. OTC Clear will, as soon as reasonably practicable on the Final Settlement Cycle Determination Date, notify the relevant Non-Defaulting Clearing Member of the Contract Termination Net Payment payable by it, and the relevant Non-Defaulting Clearing Member shall pay OTC Clear such amount within one OTC Clear Business Day after the Final Settlement Cycle Determination Date. Notwithstanding the above, if at any time during the Contract Termination Event process but prior to the effective date of termination of the relevant Identified Contracts, OTC Clear determines that the Contract Termination Net Payments would result in any of the events set out in Clearing Rule 1530(1), OTC Clear may, instead of proceeding with the Contract Termination Event, declare the occurrence of a Rates and FX Clearing Termination Event, and in such case the Identified Contracts shall not be terminated pursuant to this Clearing Rule 1918B but shall be terminated in accordance with Clearing Rule 1531 instead. Any Contract Termination Net Payment payable by OTC Clear to Non-Defaulting Clearing Members shall form part of the

Contract Termination Losses payable in accordance with Clearing Rules 1515 and 1516 by application of the Total Available Resources of OTC Clear.

1919. Upon the expiry of a Capped Liability Period, with respect to each Auction Portfolio constructed for the DMP Event(s) occurring within such Capped Liability Period that was the subject of a successful Auction, OTC Clear will notify all relevant Bidders the result of the application of the Tranching Methodology with respect to each such Auction Portfolio.

OTC Clear Financial Resources

1920. Following the completion of each Auction, OTC Clear shall determine whether its Total Available Resources are sufficient to meet its obligations arising from such Auction, including but not limited to the ability to credit all Successful Bidders with the relevant Auction Receivables. OTC Clear may only perform its obligations pursuant to Clearing Rules 1921 and 1922 in respect of all Auction Contracts arising from such Auction if it has reasonably determined that its Total Available Resources are sufficient. If OTC Clear determines that, even after exhausting the Total Available Resources, invoking the Loss Distribution Process described in Clearing Rules 1523 to 1528, declaring one or more Contract Termination Events, and/or taking into account any Voluntary Recap Amounts received from one or more Non-Defaulting Clearing Members, it will not be able to meet all the Successful Bids received in respect of all Auction Portfolios arising out of a completed Auction, then the procedure set out in Clearing Rules 1530 to 1540 shall take effect. In such event, OTC Clear shall notify all Bidders of the failure of the Auction and the occurrence of a Rates and FX Clearing Termination Event in accordance with the Clearing Procedures and, for the avoidance of doubt, no Bidder shall be deemed to have a Successful Bid in respect of such Auction and OTC Clear shall not be permitted to register any Auction Contract with any Successful Bidder.

Registration of Auction Contracts

1921. Following the completion of Auction or Contract Termination Event (as applicable) with respect to all Auction Portfolios constructed for a DMP Event, all Successful Bidders will be notified of their Successful Bids and the Auction Payment or Auction Receivable (as applicable) payable in connection the registration of Auction Contracts relating to such Successful Bids. OTC Clear will register the Auction Contracts to the account specified by each Successful Bidder. Auction Contracts will be registered in the name of the Successful Bidder by OTC Clear entering into the Auction Contracts with the Successful Bidder.

1922. Each Successful Bidder will be required to comply with such conditions as may be required by OTC Clear, after consultation with the Default Management Group, to effect the registration of the Auction Contracts. Upon the completion of the Auction(s):

(1) each Successful Bidder shall provide OTC Clear with Collateral to satisfy the Margin required for the registration of the Auction Contracts, such Collateral must be delivered by the Successful Bidder on or prior the relevant Auction Payment Date;

(2) each Successful Bidder shall also pay to OTC Clear any Auction Payment on or prior to the Auction Payment Date; and

(3) OTC Clear will pay any Auction Receivable payable to the relevant Successful Bidder(s) on or prior to the Auction Receivable Payment Date.

Failed Registration

1923. If a Successful Bidder for an Auction Contract fails to pay in full to OTC Clear the corresponding Auction Payment or fails to provide in full the corresponding required Margin to OTC Clear, in either case, on or prior to the relevant Auction Payment Date, such failure shall constitute an Event of Default with respect to the Successful Bidder pursuant to Clearing Rule 1301.

1924. (1) If OTC Clear fails to pay in full an Auction Receivable to a Successful Bidder on or prior to the relevant Auction Receivable Payment Date, such registration of the Auction Contract shall be deemed *void ab initio* and unenforceable against that Successful Bidder;

(2) OTC Clear shall not take such Auction Contract into account for the purpose of calculating that Successful Bidder's Margin requirement on an ongoing basis; and

(3) to the extent a demand for Margin has already been served upon that Successful Bidder, taking into account such Auction Contract, and the relevant Successful Bidder has transferred Collateral in satisfaction of such Margin requirement, the amount of Collateral called in respect of such Auction Contract shall be returned to that Successful Bidder on the second Auction Receivable Payment Date following the completion of the relevant Auction.

Chapter 20 Confidentiality Obligations relating to Receipt of DMP Information

2004. Nothing in these Clearing Rules shall prohibit disclosure or use of the DMP Information if and to the extent:

(1) it becomes publicly available otherwise than as a result of a breach of the provisions of these Clearing Rules by the Receiving Clearing Member and in particular the Default Management Process;

(2) the Receiving Clearing Member is required to do so by order of a court of competent jurisdiction which arises as a result of an application by a third party;

(3) the Clearing Member is required or requested to do so by any Regulatory Authority asserting jurisdiction over the Clearing Member; or

Relief

2008. Each Receiving Clearing Member expressly acknowledges and agrees that the DMP Information may contain commercially sensitive information which if used otherwise than in accordance with the Default Management Process or for the Permitted Purpose, may result in irreparable harm to OTC Clear which damages alone may not be an adequate remedy, and will result in it gaining an unfair commercial advantage over other Clearing Members. Accordingly, each Receiving Clearing Member acknowledges that OTC Clear may seek injunctive relief, whether interim or final, specific performance, other equitable reliefs or any other combination of these remedies against the Receiving Clearing Member in the event of any threatened or actual breach of the terms of use of DMP Information as set out in this Chapter 20 by it or any of its employees, officers, representatives, advisers or Affiliates, and no proof of special damages will be necessary to enforce its rights to such remedies.

2009. The rights of OTC Clear under Clearing Rule 2008 shall be in addition to OTC Clear's other rights in law or in equity specific performance, other equitable reliefs or any other combination of these remedies.

Chapter 21 Obligations, Undertaking and Liability of Clearing Members relating to Participation in the Default Management Group

In the event that OTC Clear has determined that a DMP Event has occurred, each Clearing Member acknowledges that OTC Clear may demand a Clearing Member to provide one DMG Member to be part of the Default Management Group and such DMG Member shall participate in the Default Management Process.

2102. Each Clearing Member shall procure its DMG Member to keep the DMG Information strictly confidential and secure. The DMG Member shall not disclose the DMG Information to any Person (including, for the avoidance of doubt, the Clearing Member who nominated the appointment of such DMG Member to the Default Management Group or any other employee, officer, representative, adviser or Affiliates of that Clearing Member) without the prior written approval of OTC Clear.

Section 4.8 of the ISDA Definitions and the FX Definitions (Section 4.8 of the ISDA Definitions and the FX Definitions together, the "**ISDA FX Definitions**") are incorporated by reference into these Deliverable FX Forward Contract Terms and Deliverable FX Swap Contract Terms. Unless otherwise specified, capitalized terms used in the Deliverable FX Forward Contract Terms and Deliverable FX Swap Contract Terms but not defined in the Clearing Documentation shall have the meanings given to them in the ISDA FX Definitions. In the event of any inconsistency between the ISDA FX Definitions and the Clearing Documentation, the Clearing Documentation will prevail.

2604. In respect of a Deliverable FX Forward Contract or Deliverable FX Swap Contract with one of the notional amounts denominated in CNY (offshore), the CNY (offshore) Disruption Provisions shall be incorporated by reference into the relevant Deliverable FX Forward Contract Terms or Deliverable FX Swap Contract Terms respectively.

2605. In deriving the Economic Terms of the Deliverable FX Forward Contract or Deliverable FX Swap Contract, as the case may be, from the Transaction Data of the corresponding Original Deliverable FX Forward Transaction or Original Deliverable FX Swap Transaction respectively, all references in the ISDA FX Definitions to an "**FX Transaction**" shall be deemed to be references to an "**Original Deliverable FX Forward Transaction**" or "**Original Deliverable FX Swap Transaction**" respectively.

2606. Subject to subsequent ISDA FX Deliverables Amendment adopted by OTC Clear pursuant to Clearing Rule 2607, the ISDA FX Definitions and the Deliverable FX Forward Contract Terms or Deliverable FX Swap Contract Terms applicable to a Deliverable FX Forward Contract or Deliverable FX Swap Contract respectively shall be those applicable as at the Registration Time of the relevant Deliverable FX Forward Contract or Deliverable FX Swap Contract.

notify all Clearing Members of the same. Any non-receipt of such notice by Clearing Members shall not invalidate the effectiveness of the adoption of ISDA FX Deliverables Amendment by OTC Clear.

2608. In respect of any adoption of ISDA FX Deliverables Amendment by OTC Clear, such adopted ISDA FX Deliverables Amendment shall govern the Deliverable FX Forward Contract Terms of each Deliverable FX Forward Contract and Deliverable FX Swap Contract Terms of each Deliverable FX Swap Contract, as the case may be, then registered with OTC Clear, and any prospective payment obligations arising out of each such Deliverable FX Forward Contract or Deliverable FX Swap Contract, as the case may be, shall be construed accordingly.

Supplement I

SOFR DISCOUNTING SWITCH SUPPLEMENT

1 Introduction

1.1 This Supplement effects a "Discounting Switch" (as defined in Clearing Rule 10A01) so as to change the USD discounting rate and the PAI calculation reference rate in respect of all Affected Derivatives Contracts from Fed Funds Rate to the Secured Overnight Financing Rate provided by the Federal Reserve Bank of New York, as administrator (or a successor administrator) ("**SOFR**") (the "**SOFR Discounting Switch**") (the "**SOFR Discounting Switch Supplement**"). This Supplement constitutes a "Discounting Switch Supplement" as defined in Clearing Rule 10A08, and supplements and forms part of Chapter 10A of the Clearing Rules.

1.2 The terms of this Supplement shall apply to all Affected Derivatives Contracts that are registered with OTC Clear as of the end of day on the Transition Date (SOFR) except as expressly set out herein. For the avoidance of doubt, (i) no other Contract shall be subject to, or affected by, the terms of this Supplement and each Contract shall remain in full force and effect, and (ii) except as expressly set out herein, the Contract Terms shall not be amended by the terms of this Supplement.

1.3 Capitalised terms used but not otherwise defined in this Supplement have the meaning given to them in the Clearing Rules.

2 Powers of OTC Clear

2.1 In exercising its powers under Chapter 10A of the Clearing Rules in connection with the change from the Fed Funds Rate to SOFR, OTC Clear sets out in this Supplement the method by which it will:

(a) for each Clearing Member's Position Account (including any Client Position Account(s), if applicable), calculate the Cash Compensation Amount (which shall be an "Interest Rate Change Payment" as defined in Clearing Rule 10A07) payable by OTC Clear to the Clearing Members and/or by Clearing Members to OTC Clear in relation to each such account and the date on which such amount shall be paid. The payment of Cash Compensation Amounts is intended to address the impact on valuation when switching from Fed Funds Rate to SOFR;

(b) for each Swap Opt-in Position Account, determine how certain Compensating Swaps (SOFR) (including any Pre-assigned SOFR Compensating Swaps, Net Auction Swap, Assigned Net Auction Swap, Assigned Net Auction Swap (Client) and Final Compensating Swaps (SOFR)) shall, as applicable, be identified, allocated, registered, recorded/booked and/or entered into between OTC Clear and the relevant Clearing Member in respect of such account pursuant to Chapter 10A of the Clearing Rules and the terms of those Compensating Swaps (SOFR);

(c) for each Auction Winner, calculate the CAP Amount (which shall also be an "Interest Rate Change Payment" as defined in Clearing Rule 10A07) payable by OTC Clear to the relevant Clearing Member or by that Auction Winner to OTC Clear in respect of the Winning Account; and

(d) for each Cash Only Position Account, calculate the Adjusted CAP Amount(s), if any (which shall also be an "Interest Rate Change Payment" as defined in Clearing Rule 10A07) payable by OTC Clear to the relevant Clearing Member or by that Clearing Member to OTC Clear in respect of the relevant Cash Only Position Account (as applicable).

3 Opt-in / Opt-out Elections

3.1 Subject to Paragraphs 3.2 and 3.3 of this Supplement, with respect to all Affected Rates Derivative Contracts in each of its Position Accounts registered with OTC Clear as of the Transition Date (SOFR), a Clearing Member shall be entitled to elect to opt in or opt out of the portfolio of Pre-Assigned SOFR Compensating Swaps identified in respect of such Position Account to be registered and entered into between OTC Clear and such Clearing Member by delivering a duly completed Swap Election Notice in respect of each such Position Account to OTC Clear at any time up to, and including, the Swap Election Cut-Off Date. All Swap Election Notices must be delivered to OTC Clear via email and shall be irrevocable following its delivery to OTC Clear (unless otherwise agreed by OTC Clear in writing).

3.2 A Clearing Member shall be entitled to deliver one Swap Election Notice in respect of each of its Position Accounts, provided that:

(a) a Clearing Member shall only be entitled to deliver a Swap Election Opt-in Notice in respect of one or more of its Client Position Accounts if the Clearing Member has also delivered a duly completed Swap Election Opt-in Notice in respect of its House Position Account, and if a Clearing Member delivers a Swap Election Opt-out Notice in respect of its House Position Account, all of its Position Accounts (including its Client Position Accounts) will be automatically deemed to be Cash Only Position Accounts; and

(b) subject to Paragraph 3.2(a) of this Supplement, in relation to a Client Clearing Category 2 Position Account, a Clearing Member shall only be entitled to deliver a Swap Election Opt-in Notice if it is indicated in the Swap Election Opt-in Notice that all Clients sharing such account have opted in for the relevant portfolio of Pre-Assigned SOFR Compensating Swaps identified in respect of such Position Account to be recorded/booked to such Client.

3.3 OTC Clear reserves the right at its absolute discretion to accept or reject any Swap Election Notice received by OTC Clear after the Swap Election Cut-Off Date. In the event that OTC Clear exercises its discretion to accept a Swap Election Notice received after the Swap Election Cut-off Date pursuant to this Paragraph 3.3, the Clearing Member shall be deemed to have validly delivered such Swap Election Notice in accordance with Paragraph 3.1 of this Supplement, notwithstanding that such Swap Election Notice may have been received by OTC Clear after the Swap Election Cut-off Date.

3.4 Subject to Paragraph 3.2 of this Supplement, if in respect of any Position Account:

(a) a Clearing Member delivers (or is deemed to have delivered) a duly completed Swap Election Opt-in Notice in respect of a Position Account in accordance with Paragraph 3.1 of this Supplement, then that shall be deemed, as of the end of day on the Swap Election Cut-Off Date to be an irrevocable instruction of that Clearing Member to OTC Clear to:

(i) determine the Cash Compensation Amount payable to or by that Clearing Member in respect of such Position Account and to record/book and register such amount in the relevant Swap Opt-in Position Account in accordance with this Supplement;

4 Portfolio of Compensating Swaps (SOFR)

4.1 At the end of day on the Swap Portfolio Calculation Date, OTC Clear shall, in respect of the Affected Derivatives Contracts described in Paragraph 4.3 below, determine a portfolio of Compensating Swaps (SOFR) for each Maturity Bucket which is designated to, in OTC Clear's sole and absolute discretion and to the extent practicable, replicate the Fed Funds Rate discounting risk profile in relation to such Contracts. For the avoidance of doubt, the determination by OTC Clear pursuant to this Paragraph 4 may be different from a Clearing Member's models or methodologies.

4.2 Each Compensating Swap (SOFR) will:

(a) have a maturity of two years, five years, ten years or fifteen years from the date of registration;

(b) when registered, be deemed to comprise a Standard Rate Derivatives Contract whereby OTC Clear or the Clearing Member ("**Party X**") will receive SOFR plus or minus a spread which shall be equal to the relevant Mid-Price determined pursuant to this Supplement and pay to the other party ("**Party Y**") the Fed Funds Rate with no spread;

(c) have a notional amount in USD that is determined by OTC Clear, in its sole and absolute discretion, where such notional amount shall be rounded to the nearest multiple of USD500,000 (regardless of the Maturity Bucket); and

(d) have such other specifications as set out in Appendix 4 to this Supplement.

4.3 The portfolio of Compensating Swaps (SOFR) as described in Paragraph 4.1 of this Supplement shall be determined as of the Swap Portfolio Calculation Date in relation to each of the following:

(a) the Affected Derivatives Contracts then registered in each Clearing Member's House Position Account as of the Swap Portfolio Calculation Date;

(b) the Affected Derivatives Contracts then registered in each Clearing Members' Client Clearing Category 1 Position Account as of the Swap Portfolio Calculation Date;

(c) the Affected Derivatives Contracts then registered in respect of each Client sharing each Client Member's Client Clearing Category 2 Position Account as of the Swap Portfolio Calculation Date (with the determination taking place on the basis of Contracts being recorded/booked on a gross basis in respect of such account).

4.4 OTC Clear shall promptly notify each Clearing Member of the portfolio of Compensating Swaps (SOFR) it has determined pursuant to this Paragraph 4 in respect of each Position Account held by such Clearing Member (each such Compensating Swap, a "**Pre-Assigned SOFR Compensating Swap**").

5 SOFR Discounting Auction

5.1 On the Transition Date (SOFR), unless OTC Clear has received a duly completed Swap Election Opt-in Notice in respect of less than three Position Accounts by the Swap Election Cut-off Date, whether delivered or deemed to be delivered in accordance with Paragraph 3.1 of this Supplement, OTC Clear shall conduct one or more auctions (each, a "**SOFR Discounting Auction**") in accordance with this Supplement.

5.2 Each Clearing Member shall be required to participate in the SOFR Discounting Auction in respect of each of its Swap Opt-in Position Accounts in accordance with this Supplement.

5.3 All Final Compensating Swaps (SOFR) registered pursuant to Paragraph 11.1 of this Supplement shall, when registered, constitute Contracts between OTC Clear and the relevant Clearing Member.

6 Auctioned Portfolios

6.1 To conduct a SOFR Discounting Auction, OTC Clear shall determine a Net Auction Swap separately for each Maturity Bucket as follows:

(a) first, OTC Clear shall determine the portfolio of Pre-Assigned SOFR Compensating Swaps identified for each Maturity Bucket pursuant to Paragraph 4 of this Supplement in respect of each Cash Only Position Account; and

(b) second, OTC Clear shall aggregate all of the above Pre-Assigned SOFR Compensating Swaps for each Maturity Bucket to determine a single Compensating Swap (SOFR) for each Maturity Bucket, and each such single Compensating Swap (SOFR) shall be the "**Net Auction Swap**" for that Maturity Bucket. For the

avoidance of doubt, each Net Auction Swap shall be a Compensating Swap (SOFR).

6.2 In respect of each Maturity Bucket, the Net Auction Swap shall comprise a Compensating Swap (SOFR) pursuant to which, OTC Clear or Clearing Member ("**Party X**") will receive SOFR plus or minus a spread which shall be equal to the relevant Mid-Price and pay to the other ("**Party Y**") the Fed Funds Rate with no spread.

6.3 For the avoidance of doubt, the above determinations are made solely for the purposes of determining the Net Auction Swaps that shall be subject to the SOFR Discounting Auction.

7 Price Submissions

7.1 All Auction Participants must submit two-way (bid and ask) price quotes for the Net Auction Swap of each Maturity Bucket for each of the items listed below:

(a) its House Position Account which is a Swap Opt-in Position Account;

(b) each of its Client Clearing Category 1 Accounts which is a Swap Opt-in Position Account; and

(c) each of the Clients sharing each of its Client Clearing Category 2 Accounts which is a Swap Opt-in Position Account.

7.2 OTC Clear will also impose auction criteria, including but not limited to, bidding format and maximum bid-ask spread based on historical market data, as will be separately notified to the Clearing Member by way of notice.

7.3 Each time an Auction Participant submits price quotes, it shall indicate the relevant House Position Account, Client Clearing Category 1 Position Account, Client Clearing Category 2 Position Account and/or Client of Client Clearing Category 2 Position Account (as applicable) in respect of which it is submitting such price quotes.

7.4 Each time an Auction Participant submits price quotes, it shall be deemed to represent and warrant that it has all necessary approvals, authority and risk permissions in place to submit such price quotes, pay any amounts and be bound to the Net Auction Swap registered in the relevant Position Account in connection with the SOFR Discounting Auction.

7.5 Each price quote submitted by an Auction Participant constitutes an offer to OTC Clear to enter into the relevant Net Auction Swap and shall be treated for all purposes as an irrevocable firm, executable price.

7.6 OTC Clear will oversee the bidding process and ensure that prices represent the fair value of the relevant Net Auction Swaps on the basis of such factors as OTC Clear considers appropriate. OTC Clear may, but is not obliged to, consult with the Risk Management Committee prior to identifying any Auction Winner (including the Winning Account), but OTC Clear will notify the Risk Management Committee regarding the outcome of the auction.

8 Determining the Mid-Price and Constructing the SOFR Discounting Curve

8.1 For the purposes of determining the Mid-Price in relation to each Maturity Bucket through the SOFR Discounting Auction, OTC Clear shall take the following steps separately in relation to all bids and asks submitted for each Maturity Bucket:

(a) firstly, it shall order the bid prices, starting from the highest, in descending order (the highest bid price being referred to as the "**Highest Bid**");

(b) secondly, it shall order the ask prices, starting from the lowest, in ascending order (the lowest ask price being referred to as the "**Lowest Ask**");

(c) thirdly, it shall remove any pair of crossing bid price and ask price (i.e. if any ranked, ordered, individual bid price exceeds any ranked, ordered, individual ask price, both such bid and ask price shall be removed);

(d) fourthly, it should determine the average of the remaining bid prices (the "**Average Bid**") and the average of the remaining ask prices (the "**Average Ask**") after removing any pair of crossing bid price and ask price in Paragraph 8.1(c); and

(e) finally, it shall determine the average of the Average Bid and the Average Ask, which shall be the "**Auction Mid-Price**" of the relevant Maturity Bucket.

8.2 On the determination of the Auction Mid-Price as described above, OTC Clear shall construct a SOFR pricing curve as of end of day on the Transition Date (SOFR) on the basis of such Auction Mid-Price by:

(a) in relation to tenors for which there is a corresponding Maturity Bucket, adding the relevant Auction Mid-Price to the regular Fed Funds Rate curve as of the Transition Date (SOFR); and

(b) in relation to tenors for which there is no corresponding Maturity Bucket, using the observable market data points and applying linear interpolation as determined by OTC Clear in its sole and absolute discretion.

8.3 In the event that OTC Clear determines (in its sole and absolute discretion) that less than three valid bid and ask prices have been received in relation to any Maturity Bucket by the end of the relevant bidding window as prescribed by OTC Clear, or OTC Clear otherwise determines, in its sole and absolute discretion, that it would be appropriate to do so, OTC Clear may hold one or more further SOFR Discounting Auctions on the Transition Date (SOFR) (each a "**Subsequent Auction").**

9 Successful Auction and Auction-related Payments

9.1 Immediately following the conclusion of the SOFR Discounting Auction or a Subsequent Auction where more than three valid bid and ask prices have been received in relation to the Net Auction Swap of each Maturity Bucket (each, a "**Successful Auction**"), on the Transition Date (SOFR), OTC Clear shall:

(a) notify the Auction Winner of each Net Auction Swap and the Swap Opt-in Position Account which is a Winning Account (and in the case the Winning Account is a Client Clearing Category 2 Account, the Client sharing such account and in respect of whom the Net Auction Swap shall be recorded/booked against) and the related CAP Amount that is payable to or by that Auction Winner to OTC Clear in respect of such Net Auction Swap;

(b) with respect to each Net Auction Swap, notify the relevant Clearing Members of the Adjusted CAP Amounts (if any) that are payable to or by that Clearing Member to OTC Clear in respect of each of their Cash Only Position Accounts in relation to such Net Auction Swap; and

(c) notify each Auction Participant who has submitted a two-way (bid and ask) price quotes but who is not an Auction Winner that it has not been successful in the SOFR Discounting Auction.

9.2 On the conclusion of a Successful Auction:

(a) on the SOFR Discounting Effective Date, each CAP Amount and each Adjusted CAP Amount shall be registered, recorded/booked as an amount which is payable to or by the relevant Clearing Member to OTC Clear in the relevant Position Account; and

(b) on the Interest Rate Change Payment Date (SOFR):

(i) in relation to the Net Auction Swap of each Maturity Bucket, OTC Clear shall pay to the Auction Winner (in respect of its Winning Account), or the Auction Winner (in respect of its Winning Account) shall pay to OTC Clear the relevant CAP Amount, as applicable; and

(ii) in relation to the Net Auction Swap of each Maturity Bucket and with respect to each Cash Only Position Account, OTC Clear shall pay to the Clearing Member or the Clearing Member shall pay to OTC Clear the corresponding Adjusted CAP Amount, as applicable.

10 Unsuccessful Auction or No Auction

(a) (in its sole and absolute discretion) determine the mid-price in respect of each Maturity Bucket using observable market data as at 4 p.m. (Hong Kong time) on the Transition Date (SOFR) (such mid-price being a "**OTC Clear Mid-Price**");

(b) construct a SOFR pricing curve as of the end of day on the Transition Date (SOFR) as described in Paragraph 8.2 above on the basis of the OTC Clear Mid-Price instead of the Auction Mid-Price; and

(c) in relation to each Maturity Bucket, determine the Net Auction Swap (if any) to be allocated the Swap Opt-in Position Accounts on a pro rata basis such that (i) the relevant Assigned Net Auction Swap shall be allocated to each Swap Opt-in Position Account (other than a Client Clearing Category 2 Position Account), and (ii) in the case of a Swap Opt-in Position Account which is a Client Clearing Category 2 Position Account, each relevant Assigned Net Auction Swap (Client) shall be allocated to such account and be recorded/booked in respect of the relevant Client sharing such account.

11 Registration of Final Compensating Swaps (SOFR)

11.1 On the Transition Date (SOFR) and whether on the conclusion of a Successful Auction or otherwise, OTC Clear shall make the following determinations:

11.2 Each single Compensating Swap (SOFR) determined pursuant to Paragraph 11.1 above shall be referred to as a "**Final Compensating Swap (SOFR)**". For the avoidance of doubt, in the case of a Swap Opt-in Position Account which is a House Position Account or Client Clearing Category 1 Position Account, there will be a Final Compensating Swap (SOFR) for each Maturity Bucket and in the case of a Swap Opt-in Position Account which is a Client Clearing Category 2 Position Account, there will be a Final Compensating Swap (SOFR) for each Client sharing such account for each Maturity Bucket.

11.3 On the SOFR Discounting Effective Date, OTC Clear shall:

(c) if the aggregate SOFR Discounted Value in relation to all Affected Derivatives Contracts registered in a Position Account is less than the aggregate Fed Funds Discounted Value in relation to all such Affected Derivatives Contracts then an amount equal to the absolute value of the difference shall be payable in USD by OTC Clear to the Clearing Member in whose name such Position Account is held.

12.2 In the case of Affected Derivatives Contracts that are Non Deliverable Rates Derivatives Contracts, FX Derivatives and Standard Cross-currency Rates Derivatives Contracts, for the purposes of determining a Cash Compensation Amount, the value of the constant future cash flows not denominated in USD shall be first converted into USD by applying the relevant rate of exchange as determined by OTC Clear in accordance with its usual procedures and the Cash Compensation Amount in relation to such Contracts shall be payable in USD.

MAS Requires OTC Derivatives to be Centrally Cleared to Mitigate Systemic Risk

Singapore, 2 May 2018... The Monetary Authority of Singapore (MAS) will introduce regulations to require over-the-counter (OTC) derivatives to be cleared on central counterparties (CCPs)[1], with effect from 1 October 2018. Central clearing will make the trading of OTC derivatives in Singapore safer as it mitigates counterparty credit risks inherent in these trades.

2 The mandatory clearing requirement will apply to Singapore-Dollar and US-Dollar fixed-floating interest rate swaps as these are the most widely traded interest rate derivatives in Singapore. Banks whose gross notional outstanding OTC derivatives exceed $20 billion will be required to clear their trades through CCPs that are regulated by MAS. These banks account for over 90% of OTC derivatives contracts (in terms of outstanding notional amount) in Singapore.

3 Mr Lee Boon Ngiap, Assistant Managing Director, Capital Markets, MAS, said, “The central clearing requirements complements the existing margin requirements for non-centrally cleared OTC derivatives. Both requirements work together to reduce systemic risk in Singapore’s OTC derivatives markets, in line with the G20’s and Financial Stability Board’s set of reforms on OTC derivatives. ”

4 The central clearing requirements will be effected through the Securities and Futures (Clearing of Derivatives Contracts) Regulations. MAS previously consulted on the Regulations and the response to the consultation can be found here (821.3 KB).

Additional Information

In 2009, the G20 and Financial Stability Board (FSB) agreed to implement a set of reforms to improve transparency, mitigate systemic risk, and protect against market abuse in the OTC derivatives markets. MAS has since progressively implemented reforms in the areas of trade reporting, risk mitigation and margining of non-centrally cleared OTC derivatives, and mandatory clearing of OTC derivatives.

[4/2017]

(4) A person is treated as having an interest in a security, securities-based derivatives contract or unit in a collective investment scheme if a corporation has, or is by the provisions of this section (apart from this subsection) treated as having, an interest in that security, securities-based derivatives contract or unit in a collective investment scheme (as the case may be) and —

(iii) the unit in a collective investment scheme, not being a unit of which the person is a registered holder.

[4/2017]

[4/2017]

(11) An interest in a security, securities-based derivatives contract or unit in a collective investment scheme is not to be disregarded by reason only of —

[34/2012]

(*c*) the disclosure of user information or transaction information pursuant to any requirement imposed under any written law or order of court in Singapore.

[34/2012]

(3) To avoid doubt, nothing in this section is to be construed as preventing a licensed trade repository from entering into a written agreement with a participant which obliges the licensed trade repository to maintain a higher degree of confidentiality than that specified in this section.

[34/2012]

(4) A licensed trade repository must comply with such other requirements relating to confidentiality as the Authority may prescribe.

[34/2012]

[34/2012]

Subdivision (2) — Rules of licensed trade repositories

Business rules of licensed trade repositories

46Q.—(1) Without limiting sections 46I and 46ZJ —

(*a*) the Authority may prescribe the matters that a licensed trade repository

must provide for in the business rules of the licensed trade repository; and

(*b*) the licensed trade repository must provide for those matters in its business rules.

[34/2012]

(2) A licensed trade repository must not make any amendments to its business rules unless it complies with such requirements as the Authority may prescribe.

[34/2012]

(3) In this Subdivision, any reference to an amendment to a business rule is to be construed as a reference to a change to the scope of, or to any requirement, obligation or restriction under, the business rule, whether the change is made by an alteration to the text of the business rule or by any other notice issued by or on behalf of the licensed trade repository.

[34/2012]

(4) Any licensed trade repository which contravenes subsection (1) or (2) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding $150,000 and, in the case of a continuing offence, to a further fine not exceeding $15,000 for every day or part of a day during which the offence continues after conviction.

[34/2012]

Business rules of licensed trade repositories have effect as contract

(2) In this section, "person" includes a licensed trade repository.

[34/2012]

(3) This section is in addition to, and not in derogation of, any other remedy available to an aggrieved person referred to in subsection (1).

[34/2012]

Non-compliance with business rules not to substantially affect rights of person

46T. Any failure by a licensed trade repository to comply with this Act or its business rules in relation to a matter does not prevent the matter from being treated, for the purposes of this Act, as done in accordance with the business rules, so long as the failure does not substantially affect the rights of any person entitled to require compliance with the business rules.

[34/2012]

Subdivision (3) — Matters requiring approval of Authority

[10/2013]

(10) No order under subsection (7) has any effect or operation in transferring or

otherwise vesting land in Singapore until the appropriate entries are made with respect to the transfer or vesting of that land by the appropriate authority.

[10/2013]

(11) If any business specified in an order under subsection (7) is governed by the law of any foreign country or territory, the Court may order the transferor to take all necessary steps for securing that the transfer of the business to the transferee is fully effective under the law of that country or territory.

[34/2012]

Penalties under this Subdivision

65. Any approved clearing house which contravenes section 57(1), 58(1) or (3), 59, 61(1), 62, 63 or 64(1) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding $200,000 and, in the case of a continuing offence, to a further fine not exceeding $20,000 for every day or part of a day during which the offence continues after conviction.

[34/2012; 4/2017]

Subdivision (2) — Rules of approved clearing houses

Business rules of approved clearing houses

66.—(1) Without limiting sections 57 and 81Q —

(*a*) the Authority may prescribe the matters that an approved clearing house must provide for in the business rules of the approved clearing house; and

(*b*) the approved clearing house must provide for those matters in its business rules.

[34/2012]

(2) An approved clearing house must not make any amendment to its business rules unless it complies with such requirements as the Authority may prescribe.

[34/2012]

(3) In this Subdivision, any reference to an amendment to a business rule is to be construed as a reference to a change to the scope of, or to any requirement, obligation or restriction under, the business rule, whether the change is made by an alteration to the text of the business rule or by any other notice issued by or on behalf of the approved clearing house.

[34/2012]

(4) Any approved clearing house which contravenes subsection (1) or (2) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding $150,000 and, in the case of a continuing offence, to a further fine not exceeding $15,000 for every day or part of a day during which the offence continues after conviction.

[34/2012]

Business rules of approved clearing houses have effect as contract

67.—(1) The business rules of an approved clearing house are treated as, and are to operate as, a binding contract —

(*a*) between the approved clearing house and each issuer;

(*b*) between the approved clearing house and each participant;

(*c*) between each issuer and each participant; and

(*d*) between each participant and every other participant.

[4/2017]

(2) The approved clearing house, each issuer and each participant are treated as having agreed to observe, and to perform the obligations under, the provisions of the business rules that are in force for the time being, so far as those provisions are applicable to the approved clearing house, issuer or participant, as the case may be.

[4/2017]

(3) In this section, "issuer" means a person who issued or made available, or proposes to issue or make available, securities, securities-based derivatives contracts or units in a collective investment scheme that are cleared or settled by the approved clearing house.

[4/2017]

68.—(1) Where any person who is under an obligation to comply with, observe, enforce or give effect to the business rules of an approved clearing house fails to do so, the General Division of the High Court may, on the application of the Authority, the approved clearing house or a person aggrieved by the failure, and after giving the firstmentioned person an opportunity to be heard, make an order directing the firstmentioned person to comply with, observe, enforce or give effect to those business rules.

[34/2012; 40/2019]

(2) In this section, "person" includes an approved clearing house.

[34/2012]

(3) This section is in addition to, and not in derogation of, any other remedy available to the aggrieved person referred to in subsection (1).

[34/2012]

Non-compliance with business rules not to substantially affect rights of person

69. Any failure by an approved clearing house to comply with this Act or its business rules in relation to a matter does not prevent the matter from being treated, for the purposes of this Act, as done in accordance with the business rules, so long as the failure does not substantially affect the rights of any person entitled to require compliance with the business rules.

[34/2012]

Subdivision (3) — Matters requiring approval of Authority

Control of substantial shareholding in approved clearing house
